The New York World remarks, "Ex-President Hayes denies that he abused Secretary Blaine. That is all very well, but now the question is, did he?" Pretty rough, that,

What a nation of office-seekers we are to be sure. According to Secretary Blaine, there are more than 1,000,000 applications on file in the various departments at Washington. The number seems incredible-one out of every fifty of the

people in the United States.

Governor Cornell of New York is exercising the veto power with great free-dom and judgment, and is slaughtering all sorts of rotten bills passed by the legislature. His popularity grows apace among those who are not interested in

According to the census reports Penn-sylvania ranks third in the list of tobacco-producing States, Kentucky being the first and Virginia second. This fact will doubtless cause surprise to many people, as comparatively few have any knowledge of the extent of the to bacco culture in the State.

Gen. Grant refuses to call upon President Garfield because Senator Conkling is not allowed to run this country to suit himself. At last reports the President was getting along pretty well without the society of a not remarkably brilliant guest. Grant's views of politeness and polities might be vastly improved.

General Lew Waltace has marked passage on page 81 of the first volume of Badeau's Military History of General Grant and at the bottom of the page has written: "There are more willful falsehoods in the foregoing paragraph than in any other of the same length in English literature." It would be interesting to know just what parts of this worthless book are true and correct-if in fact there be any such.

Congressman Beltzoover has on two occasions appeared to great disadvantage in questions of veracity. After his first effort his constituents re-elected him by an increased majority, and it is now a matter of some interest to the people of Pennsylvania to know what the stituents will do when they next have an opportunity to choose a congressman. Mr. Beltzhoover is not a valuable mem ber of the Democratic party at present.

The country at large will be a loser should Mr. Conkling be succeeded in the United States Senate by Chauncey M. Depew. The latter is Vanderbilt's attorney,a thorough corporation man and a well known lobbyist in the interests of railroads. It is widely believed that ef-

It is rumored that dissatisfaction exists among the members of the cabinet, and that an effort will be made to get rid of Blaine. That there are jarring elements in the cabinet is beyond a doubt, but that the opposition to Blaine is the stronger of these is not so clear. It is quite probable that, if changes are to be when they are completed Blaine will be found in the State department with several cabinet vacaucies to fill

The New York Tribune observes "We believe it to be the judgment of a large majority of the Republican party and of the people, that Gen. Grant's ad-ministration of civil affairs was as much a failure as his military administration was a success." The admission is tardy, but none the less true for all that. The Republican organs are beginning to get very sick of the ex-silent man, and are stating facts that everybody else knew

The big saw mill in Watsontown is to be put in operation once more, after lying idle for six years. Mr. J. J. Higbee has leased the mill, having received from the lumbermen of Williamsport, the contract to gather and saw all the logs that escaped from the boom during the latefreshet, lying between Loyalsock creek and Shamokin dam. The mill has a capacity for sawing 100,000 feet of lumber per day, and it is thought the logs mentioned will make 12,000,000 feet of sawed lumber.

The withdrawal of John C. Jacobs as a candidate for United States Senator. before the New York legislature, deserves the approval of Democrats everywhere. Mr. Jacobs, even if he were eligible, is not fitted for the high position to which he aspired either by experience or abili-ty. Hon. Clarkson N. Potter who received the Democratic nomination is in every way qualified and would do credit to the party and the State, if elected. What the outcome of the Senatorial fight may be, no man can foretell, but New York would be worthily represented by Francis Kernan and Clarkson N.

It is reported from Washington that prove that the Star route thieves have about a million doltars. It can hardly be said that this statement is startling, for the country was undoubtedly prepared to hear that the plunder amounted o a good deal more. So many of the thieves have grown very rich and so much money has been expended in bribes and corruption, that it was to be expected that much more than a million ill-gotten dollars that there will be contributions from had found their way out of the Treasury and into the coffers of the members of the ring. A law was passed by the late Legisla-ture, and since approved by the Governor, defining the duties of court stenographers in the several counties of this State. It provides that they shall on the trial of all civil cases take down as part of their report of the judge's charge, every ruling, order and remark of the judge relating to the case upon trial, made in the presence of the jury in any stage of the proceedings, to which either party may except in the same manner and with the same effect as is now practiced in relation to the judge's charge.

The Bi-Centennial Association is ear nestly at work preparing for the celebra-tion of the two hundredth anniversary of the founding of Pennsylvania, by Wil liam Penn, next year. On Tuesday next, July 4th, there will be a grand public demonstration in the Centennial building, Fairmount Park, Philadelphia, preparatory to the celebration of 1882. There will be cloquent addresses by distinguished orators; music by an immense com-bination orchestra, which will perform, among other pieces, the new Bi-Centen-nial Grand March, specially composed for this occasion by Prof. Clarke, of the University of Pennsylvania; drill and dress parade by the military; vocal and instrumental concert, and other holiday amusements. The whole day will be observed as a grand festival, with magnificent and varied entertainments, and doubtless there will be over 100,000 people in the building during the day.

The State Treasurer's Estimates

Careful estimates have been made by Treasurer Butler of the total amounts ap propriated by the general appropriation bill and the specific appropriations to pub-lic and semi-public charities and other objects for the next two years. They are as follows: General appropriation bill, \$6,000,682; specific appropriations, \$3,352,137. Add to this the constitution al appropriation of \$250,000 per year for the reduction of the public debt, half a million for two years, and the total is \$10,534,719. The total estimated revenue for two years payable into the general fund and the sinking fund is \$10,808,000, an estimated excess of \$274,000. The total, general and specific appropriations to be paid out of the general fund in 1881 are \$4,371,149. The total estima ted revenue coming into the general fund over income for 1881 of over \$400,000. ue payable into the sinking fund exceeds amount to be paid out of that fund to an extent which, taking into account both general and sinking funds for two years, will leave a small balance in the treasury, if the income equals the estimates hitherto made.

The old idea of fair play and honesty has perished from among us: we are socially snobs, for we meanly admire mean things; we are politically venal, for we don't education and intelligence have lead us to this, perhaps it would be just as well to uneducate a little until people should get back to the good old fashioned no-tions that ill-gotten money, ill-gotten place, ill gotten power are not passports to admiration, reverence, social, religious and political consideration." It is a scorching arraignment but there is not a charge that is untrue. Politicians may scoff at and deny the charges, but every intelligent reader of newspapers for the past twelve years, knows that they are de-served. It is full time to call a halt, and by consigning to the penitentiary some of the rascals who have plundered the public treasury, stop some of the rotten and corrupt practices that disgrace the nation.

the public. It is a scientific combination of the medicinal principles and curative virtues of the finest drugs, chemically united, of such power as to insure the greatest possible efficiency and uniformity of results. It strikes at the foundation of all pulmonary diseases, affording prompt relief and rapid cures, and is adapted to patients of any age or either sex. Being very palarable,

and rapid cures, and is adapted to patients of any age or either sex. Being very palatable, the youngest children take it readily. In ordinary Coughs, Colds, Sore Throat, Bronchitis, Influenza, Clergyman's Sore Throat, Asthma, Croup, and Ca-tarrh, the effects of Ayen's Cherny Pro-road, are magical, and multitudes are an-nually preserved from serious illness by its timely and faithful use. It should be kept at hand in every household for the pro-tection it affords in sudden attacks. In Whooping cough and Consumption there is no other remedy so efficacious, Whooping -cough and Consumption there is no other remedy so efficacious, soothing, and helpful.

Low prices are inducements to try some of the many mixtures, or syraps, made of cheap and ineffective ingredients, now offered, which as they contain no curative qualities, can afford only temporary relief, and are sure to deserve and disappoint the patient. Diseases of the throat and lungs demand active and effective treatment; and its dangerous experimenting with unknown and cheap medicines, from the great liability that these diseases may, while so trified with become deeply seated or incurable. Use Ayri's Cimmir Pictonia, and you may confidently expect the best results. It is a standard medical preparation, of known and acknowledged curative power, and is as cheap as its careful preparation and fine ingredients will allow. Eminent physicians, knowing its composition, prescribe it in their practice. The tost of half a century has proven its absolute certainty to cure all pulmonary complaints not already beyond the reach of human and.
