There are two additional cases of small pox to announce. One of there is the child of Mrs. Recser, who lives on East street, near the furnace, and the other is James Wolf, on Catharine street, near Fifth. The first named is not severe, and will probably give little trouble. Mr. Wolf, we regret to learn, is very sick, and his case is the most dangerous thus far reported. It is not yet considered critical, however. It may be that there will be a few more cases in town, but an epidemic is not anticipated.

Mr. M. M. O'Sullivan addressed an audience of fair size in the Opera House on Tuesday evening last. He is an earnest and forcible speaker and soon won the sympathy and undivided attention of his heavers. Having been one of the traversers in the State trials, and thoroughly conversant with the subject, his words were received with the attention they merited. He drew a vivid picture of the sufferings of the Irish people under the despotic rule of England, and justified the uprising.

Our esteemed contemporary, the Republican, sometimes very amusing, and never more so than when descanting on itself. Last week it evolved a side-splitting joke about being "the leading paper of Columbia county." Just what it leads is not apparent to the average citizen. Not the party, for the more prominent men of that organization do not read it; not public opinion, for there is too little original matter in the paper to effect that result. On the whole, we are led to believe that the state ment was made just for fun, and with no idea that it would be accepted as anything else. Viewed in that light-as simple and unadulterated buncombe-it's not so had, and the humor deserves the warm appreciation it will no

doubt receive from all classes of readers.

The third annual report of the Young Men' Christian Association of Berwick, shows a mos encouraging condition of affairs. The devotion al meetings have been well attended, as have ignated at this writing. Steamers from Dan also those for boys. The various entertainments given during the Fall and Winter gave satisfaction to large audiences and benefitted the treasury. The reading room is now supplied with newspapers, periodicals and magazines and is well appreciated. The library contains more than 1,000 volumes, 700 of which were presented during the past year by the Jackson & Woodin Manufacturing Company. The officers for the current year are as follows: President, J. F. Opdyke; Vice President, D. F. Payden; Treasurer, S. W. Dickson; General Secretary, C. H. Zehnder; Recording Secretary, C. W. Dickson; Librarian, A. G. Kimberley.

Mr. Miles Albertson and associates, from Pennsylvania, are going right ahead with their mill at Braganza, seven miles below Waycross, on the Waycross Short Line. This will be the first mill established on the new road, and its owners being from the North, will naturally form a nucleus for a colony of tillers from their State. This section now above all others, is at attracting the most attention, and reasonably so, when all things are properly considered.
