

G. E. ELWELL. J. E. BITTENBENDER, } Editors. BLOOMSBURG, PA.

Friday, July 15, 1881.

THE PERSIDENT'S CONDITION.

Nearly two weeks have elapsed since the wounding of the President, and his improvement during that time has been steady. Several dangerous epochs have arrived and passed and there seems now to be a reasonable hope that he may respect to the public mind to know that they are the public mind to know that they are locked to that city. These addle-pates have various missions—to kill Blane, to slanghter Arthur, to supply salve for the Presidential wounds—and it will be vastly assuring to the public mind to know that they are were killed by the heat and from one to individually and collectively locked. cover. The wound has discharged pus in a natural manner, there has been no secondary hemorrhage nor peritonitis and there remains now only the danger of blood poisoning. The latest bulletin received here is as follows: pulse 90, temperature 99.8, respiration 22. This is a very gratifying statement as the temperature, which is normal, shows lower than at any time since the shooting. The temperature of the sick room has lowered by artificial means and is

now kept at 75 degrees.

If the President lives, he will owe his life to his robust health, vigorous frame and unconquerable good spirits. His courage has never failed him, and he has won admiration and respect by the plucky manner in which he has endured suffering and faced death. Every hour that he lives increases his chances of final recovery. At this writing the outlook is more assuring than at any time since the fateful 2nd of July.

The Clinton Democrat says, "Should both Mr. Garfield and Mr. Arthur die, Mr. Harris, of Tennessee, a Democrat, President pro tem. of the Senate, would become President of the United States, as fully as though he had been elected to the position, and for the balance of Mr. Garfield's term. The statement of the Philladokia nears that we President Philadelphia papers that no President pro tem. of the Senate had been elected, is not only erroneous but sheer nonsense That duty has never been neglected and is no more likely to be than that the people would forget to elect a Presi-dent." Such a decided utterance ought to settle the question and might, perhaps, if there were any truth in it. The fact is, however, that neither Mr. Harris nor any one else, was chosen President pro tem, of the Senate. The Democrat is the only paper in the country that has asserted the contrary. That such an imfailure. There was little interest taken asserted the contrary. That such an important event should have taken place without the knowledge of the official and special reporters, is too improbable

Mayor King of Philadelphia, prohibited the use of fire crackers, fire arms and fire works on the 4th, and great was the and suppressed the explosive patriotism of youth and to-day there is rejoicing over the wisdom of the measure. In four deaths in the city on the 4th, and some eighty accidents of different de-grees of gravity. This year there were noue. Comment is evidently utterly

The chemist of the State Board of Agriculture has been analyzing the various kinds of fertilizers offered for sale in the State. Out of 58 specimens re-cently tested, only 17 were found to be worth their price. One, costing \$15 per ton, was found to be worth just \$2.05. This is very discouraging information for those farmers who have expended money for years past, on fertilizers, and they will undoubtedly exercise greater care in future purchases. It would be inter-esting to know whether the worthlessness of these fertilizers is attributable to the deterioration of the materials used in

Some curlosity exists as to the where-abouts of the first bullet fired at the President by the assassin. The ball is known to have struck the President's coat sleeve, mystery. It could not possibly have passed out of the room; and yet, though the walls have been carefully and yet, though strongly to such an amendment. there is no mark of a bullet upon them. It could not be found on the floor nor in the President's clothing. There is a possibility that the ball may have spent its force in the cloth of the coat, and fallen to the floor, where it was seen and carried off by some relic-hunter. No other reasonable explanation seems creditable. The order from the Adjutant General's

office disbanding three regiments and some fourteen companies of the National Guard, has been condemned with the utmost unanimity by press and people. The reduction was made on the score of economy, which, if the true reason, is about the worst misplacing of that publiduty, that has been made of late years. The seventh regiment, one of those dis banded, is an excellent organization, far excelling in every way some of those re-tained in the service. Gov. Hoyt would add to his popularity by recalling this order without loss of time.

The members of the New York Chamber of Commerce have subscribed \$250,000 to be presented to Mrs. Gas field, as a token of esteem and sympathy, and as a means of relieving the mind o the President from anxiety with regard to the future of his family. It is conpapers that this munificent gift would the passage of a law providing for the be eminently proper if the President punishment of scoundrels, an advance be eminently proper if the President should die, but that it would be out of place if he recovers. There is force in this argument, which it is probable the President himself will acknowledge if he survives his injuries.

The Eric Observer advocates the nom ination of Hon. Orange Noble of that city, as the Democratic candidate for State Treasurer, Mr. Noble is a man of ability and integrity, very popular throughout the oil regions and would poll a large vote. There is no doubt that he would make an efficient officer if

The Chief Clerk of the Contract Office of the Post Office Department has addressed a letter to Postmaster General 1881, he had saved \$1,200,000 to the government by the cutting down of Star route service. \$50,000 has been saved since July 5th.

That reads much more like common sense than all this ornamental twaddle about imperialism. In view of the fact that the life of the President has been a service in which offices are held out as James setting forth that up to July 5,

A severe, though justifiable, punish ment to inflict upon the assassin Guiteau, would be to cover the walls of his cell ment to inflict upon the assassin finiteau, would be to cover the walls of his cell with pictures of himself taken from the Philadelphia papers. Death would soon become a boon, but the miscreant's sufferings for a time would be intense.

sanctity of the life of a citizen is not so apparent as it might be. If anything dever he would not have been exposed to this attack.

Springfield Republican.—The assassination of President Garfield by a disappoint of the spoils system.

The New York World says "The Rears in a death struggle.

holders to consent to the compromise bethe bonds, has passed both branches of Councils and is now the law.

The lunatic market in Washington is overstocked at present. All the unbaltration by the heat in St. Louis, twenty hanced intellects of the country within three of which were fatal. Sunday was reasonable distance of the capital, or havng money enough for the purchase of a one years. The ther nometer at Indian

that the fever has entirely disappeared. Times is right, and we believe it is, then The pulse is rather too fast, but it is Judge Briggs unworthy to hold the office he disgraces. He has became the "abettor of" ballot-box stuffers, and the

"approver" of unjust verdicts, the result of his charges to the jury.

Let us see now, how long it will be before the *Times* will be urging the re-election of Judge Briggs, in the interest of a non-partisan judiciary, calling him an honest and capable judge, and begging the Democrats not to put up :

candidate against him. When Commissioner of Pensions Bent ley was removed from office and replaced by Mr. Dudley, there was much doubt whether the change would result bene ficially. This doubt has now become a certainty. Dudley has shown himself to be a thorough-paced partisan and just at this critical juncture of public affairs, is on the point of turning out of office on wood pulp retained, because he was numbers of clerks whose politics do not suit him. There has never been a stron ger feeling throughout the country against this sort of petty business, and no one but a politician like Dudley would have attempted such a thing in the face of popular disapproval. When President Garfield resumes the reins of government he will add to his popularity by removing Dudley and appointing a different, and a better, kind of man.

Last Tuesday, John A. Griscom ended in the voluntary starving-a fact which speaks volumes for the good sense of the people. Griscom's hobby is that much sickness is caused by over-eating, a statement that is undoubtedly true. But in what way moderation in eating, is proved beneficial by starvation for forty five days, is not clear to any one but Mr. disgust of Young America and dealers in pyrotechnics. It was predicted that the Mayor's order would be disregarded, as tenanced. Now that it has been shown had been those of his predecessors in of | that there is no money to be made by fast The police, however, did their duty ing, it is quite likely the desire to instruct the people will wane.

TO THE DEMOCRATIC VOTERS OF CO. 1880 there were no less than twenty LUMBIA COUNTY—Gentlemen: I have wretched political servants? heard a large number of our voters ex press themselves as opposed to candidates going through the county, detaining them from their work in harvest and hay making. Being one of those seeking the nomination for the office of Register and Recorder, I take this method of asking the Democracy of the County for their support for said office. I ask this because I am the oldest man seeking said office and because I have always supported the Democratic ticket when nominated. I am a Democrat from principle and not from greed of office. If elected, I will discharge the duties of the office as a public servant should.

MICHAEL F. EYERLY Bloomsburg Pa.

MAKE IT TREASON.

Since the murderous attack of Guiteau upon Mr. Garfield, it has been suggested that the Constitution of the United States be so amended as to make as saults upon the President, whether fatal or not capital crimes punishable by death They are urgent in insisting that the President is not the government and that he is only a citizen chosen to peroffice makes him something more than an ordinary one. The assassination of no other man in the country would lend shock to the sensibilities of the whole people. Such results as we have seen during the past two weeks, prove beyond unishment, than an assault upon a citipeople are so near to abandoning the faith of their fathers, that a law passed for the protection of their chosen Chief Magistrate can achieve that result, it is hardly worth while to endeavor to save the republic. These editors who so fran tically protest against royalty pay small compliment to the patriotism of the peo-ple. The Sun says The true American doctrine that the life of the humblest citizen s so sacred in contemplation of law that nothing can be more sacred, is not likely to be overthrown while the national love for freedom and equality remains as strong as it is now." Entertaining such a be-lief, it is odd that the Sun can see in owards a throne. The New York World recently repro-

duced an extract from the speech of Mr. Cropper, a member of the English House of Commons, on a bill for regulating capital punishment, in which that gentle

"It seems to me that when the sen tence of death is carried into exe-cution we often punish rather for the whether the crime was a murder or a savage assault. If the person who has been attacked chances to recover the of-

crime and not for its result."

That reads much more like common attempted twice in sixteen years, the sanctity of the life of a citizen is not so apparent as it might be. If anything

TERRIBLE WEATHER.

The heat in Cincinnati on Saturday, The supplement to the ordinance refunding the city debt of Williamsport in mercury stood at from 100 to 102 degrees four per cent ten-forty bonds, striking out and the number of sunstrokes was im-the provision which required all the bond mense. Fifty fatal cases were reported on Monday. One undertaker had twenty-five fore it could be carried out, and provid | bodies awaiting burial. All public works ing for the payment of the State tax on were stopped and general business, to a great extent, suspended. In Akron, Ohio, the temperature is said to have reached

108 degrees. individually and collectively locked a dozen carcasses were taken from each train on its arrival.

A terrific storm prevailed in Iowa on Saturday night and great damage was done. At Marshalltown the wagon works and saw mills were almost destroyed; the oil mills, sugar refinery, canning works, wire works, furniture factory, gas works, brewery, elevators, railroad shops and offices, depot buildings, and hotel, were all badly damaged One railroad bridge was swept away and another disabled. The loss in the city and vicinity will exceed \$200,000. The storm was equally severe in other places and several lives were lost.

THE SQUABBLE AT ALBANY.

The faction fight at Albany still continues, the only changes worth mention-ing being the withdrawal of Chauncey M. Depew, and the selection of Warner Miller and E. G. Lapham as candidates by the anti-Conkling Republicans. The latter is a lawyer of no great brilliancy and not half big enough to fill the office on wood pulp retained, because he was the owner of a mill. The New York Times and Evening Post are having a disagreeable time, in supporting him, as both papers scored him savagely a year or so ago, on account of his wood pulp advocacy. On April 3rd 1880, the Post said. "he has presented the disgraceful spectacle of a member of Congress before the committee of Ways and Means endeavoring, by specious arguments and false statements, to further his own pe-cuniary interest and to pocket more dollars belonging to the public in addition to the stock of dollars of which the publie has already been virtually robbed." The Times remarked on the 23rd of March, 1880, that "the member from the Twenty-second New York District has all categories-a reformer whose professions of virtue have yielded to the first

temptation. As may be imagined, the support of such candidates is up-bill work, and even those people who are bitterly opposed to Conkling and Platt look askant at the men proposed for their successors. Meanwhile the people of New York are paying \$2000 or \$3000 a day, to gratify Mr. Conkling's obstinate vanity. Isn't it about time for the unhappy tax payers of the State to serve a notice to quit on their

THE ASSASSINATION

PRESS OPINIONS N. Y. World .- For that blow was struck, not by the wretched assassin who a crime as that of Guiteau possible in such a country as this? * The people of the United States have suffered the public service gradually to become a great political bonanza, aban doned by common consent to be the prize of the greedjest, the least scrupulous, the least honorable of the commu nity. Twice within ten years they have permitted the President to be thrown for with loaded dice. Whom, then, but themselves can they righteously hold accountable if the person of the American Executive has ceased to be more sacred in the eyes of a vulgar and brutal seeker after place and pay than is the Executive office itself in the eyes of the myraids of respectable and prosperous citizens who have abandoned politics to the

"machine ?" machine?"
N. Y. Tribune.—"It does not appear that the assassin of yesterday had ever been thought a lunatic, by any associate or acquaintance, until the deadly shots were fired. Was he 'crazed by political form certain public duties. It is true excitement, then, as many say? At that the President is a citizen, but his what point, if ever, did the madness of faction become the madness of irrespon-sibility? Do the leaders of faction eyer intend all the mischief which grows from to a general disturbance of husiness, and the wild and desperate spirit which they create, feed, and stimulate, week after week? This assassin, it seems, was not ignorant that he was trying to kill one President to make another. His language dispute that an attempt to kill the Chief President to make another. His language Magistrate is deserving of more serious and letters prove that he knew what he was doing only too well. As 'a Stalwart zen of less prominence. This talk of imperialism is bosh. If the American enough to do the thing which other reckless men had wished were done.

"Never again will any sane man cry "I am a Stalwart of the Stalwarts!" Philadelphia Press .- This awful deed may be the extreme and exceptional outcome of the factious spirit, but not the prompting even of faction. Apart from illustrating the possible effect of intense political passion, it has no political significance. To suggest that it had any other origin than the disordered brain of the assassin himself is something too horrid to be tolerated. We hear men in the passionate bitterness of the hour whisper conspiracy, and in some cases the intense feeling has pointed to individual responsibility. All such expressions should be discountenanced and rebuked. Our country has not yet sunk to

Phila Times.—It will not do to discourse no sane American regards his ment; but none the less is Guiteau the product of that long series of despe-rate political crimes that, threatening the fense does not amount to nurder, and yet the crime must have been the same on the part of the criminal. In such a case a man ought to be punished for his only seeks the life of one man, however exalted his station.

A Very Hopeful View. The editor of the Wilkes-Barre Union

Leader while at Lewisburg recently, at tending the commencement exercises of the University, met Hon. A. H. Dill, Chairman of the Democratic State Commediate steps are to be taken toward stop nittee. He found the genial ex-Senator | ping the contagion in the best of spirits, and when the op-portunity offered, he talked with him

"I have heard no general expression of inion as to fixing a time for holding the Rangely, Me, on Wednesday, during the

"What,in your opinion, are the chances for electing a Democrat for Treasurer this

"In the present condition of the Repub lean organization in the State the nomition of a Democrat of known integrity esult in his election." "What are your views as to the general

political outlook ! "As to the general political situation, the views of a Democrat are likely to be colored by his hopes and the wish be Elmer, who was fourteen years old. father to the thought, but it is apparent that a mortal quarrel is raging between the old leaders of the Republican party of so great significance as to almost equally divide the party, and which threatens to destroy its long continued rule. If the present dispute simply involved the putting up of one man, and the putting down of another, the result might be simply a change of leadership, but the times are ripe for change, and the people are restive under the present condition of public affairs. There is a esemblance to the political situation when Douglass broke with his party. The question is different but not the less in- tism, and for two years have had a sore teresting and vital to the whole body of the people. Conkling breaks with his party when the people are becoming justly alarmed at the consolidation of the sore. political and corporate power in the hands of the few. It may be that mere personal considerations induced the step, but he is sagacious enough to know that the battle will not end with his defeat at Albany. Sincere or not be has struck day. the key note of the next great political issue—the power of the people against consolidated political and corporate

It is this condition of public affairs which should give success to the Democratic party. It was organized to assert the power and dignity of the individual citizen against combined corporate and political power. The aggregation of power, political and corporate, which has culminated in the union of the political dictator with the corporate millionaire, at least placed himself in that lowest of has been accomplished only by the continued and successive defeats of the Democratic party. Let the party as-sert its fundamental doctrines, strongly and manfully, that the people may believe its declaration is not merely profession, but the evidence of a sincere purpose to be accomplished in the exercise of political power, and the result ought not to be doubtful."

"But the president and his party de clare themselves to be reformers ? "The present administration, it is true is sometimes called a reform administration by its friends, and Garfield a reform President, but the names are nothing The antecedents of the President are not assuring in this respect, and the proceed ing in the Treasury investigation which is stopped when it seemed to be reaching those in high places, the rumored check given the Star Route investigation imnow awaits the just punishment of his given the Star Route investigation important but by the people of the United States themselves! Who has made such likence, and the developments of bribery and corruption at Albany, show that all professions of reform from that quarter

are the mere hollow protestations of "Then you think the future looks bright

for the Democratic party."
"If the party be equal to her opportunity, it can make a live issue, which needs only to be formulated and discussed to gain the ear and the vote of the people. If our party fail to do it, it will be done nevertheless by some other party or some new organization of old parties, as the reaction has already begun against the manifest tendency of the times towards the centralization of political, corporate and moneyed power.'
