

BLOOMSBURG, PA. Friday, August 19, 1881.

Democratic County Ticket.

- ASSOCIATE JUDGES: FRANKLIN L. SHUMAN, of Catawissa; JAMES LAKE, of Scott; WILLIAM KRICKBAUM, of Bloom; REGISTER AND RECORDER: G. W. STEINER, of Bloom; COUNTY TREASURER: A. M. JOHNSON, of Locust; COUNTY COMMISSIONER: CHARLES REICHERD, of Main; R. P. EDGAR, of Pickering; ATTORNEY: C. W. HESS, of Adams.

For pure, unadulterated independence of the most expatriating quality, commend us to Republican organs like the New York Tribune. That paper is a daily denunciation and fraud denigrates the Democratic candidate for Governor of Ohio, as "Mr. Pocketbook-walter," passing over with any indifference the well known fact that the Republican candidate for the same office, "Calico Charley" Foster, has not now and never has had any claim upon the party except a good bank account. A tricky politician, a deceitful political friend and a thorough paid partisan of a no lofty stripe, he stands as a sample of what can be accomplished in the Republican party by unscrupulousness and a free use of money. Such politicians, and such papers as the Tribune, will one of these days finish the Republican party for ever.

The Philadelphia Press has declared uncompromising war against the corruptionists at Harrisburg. It says: "We admit that it is no revelation to say that for years unclean money has been made their nest in Harrisburg. The disgrace is already old enough. The Press proposes a new departure which shall wipe out the infamous system of fraud and introduce new methods having honesty for their groundwork." It now remains to be seen whether the Press has strength enough to do what it proposes. Just as ardent reformers have started out before it and wandered off the road into hopeless political quagmires. Perhaps the Press will have better luck, but vigorous denunciations—and nothing more—does not disturb public plunderers except for the moment, and by no means ends their infamous work.

The Commissioners of Lycoming county, who were accused by Harvey S. Wells of official corruption and peculation, have published a card denying their guilt in general terms, and asking their constituents for support at the coming convention. To this Mr. Wells replies in a card, stating that if the tax-payers have been defrauded will assist in defraying the expenses of a law suit he "will have all three of the commissioners arrested before night, charge them with stealing the public money, prove it on them and have them convicted in the Court and punished as provided by law for such crimes as they have committed."

There is no mistaking that language, and the offer should be accepted at once by some of the tax-payers. The charges are too serious to be passed over without investigation, and a trial should be had without delay. The Commissioners, if innocent, should be so declared, and if guilty should be punished.

In an editorial on the recent Democratic County Convention, the Republican discourages very gravely on the gagging of Democrats of Columbia county in their conventions, and states that "free speech, free thought and freedom are entitled to stamped out." This is very funny, but for side-splitting humor does not equal the following: "This may do for Democrats, but Republicans, inured to independent thought, could never be 'muzzled' by tyrannical rules instituted by the 'boss' of their own party." This is a noble sentiment, and should be intended for reading outside of the county. Here, where the machine business of the Republican party is so well known, the statement is ludicrous. The best refutation of the claim is to be found in the men who are now and have been for years dictators in the Republican party and who themselves are kept in office by a most aggravated form of "boss" in Harrisburg. Republican freedom in Columbia county is a burlesque—not a member of the party dare kick against the rule of the little ring in Bloomsburg—and the conventions are such cut-and-dried forms that even Republicans will not take the trouble to attend them.

DEATH OF GEN. PATTERSON. General Robert Patterson, one of the most prominent citizens of the State; died at his residence in Philadelphia last Sunday night, aged 89 years. For more than fifty years he has been associated with the best business and social circles of Philadelphia and was deservedly honored and respected. He served in the war of 1812, and rose to the rank of captain. In 1828 he became Major General of the First Division of Pennsylvania Volunteers and held the office for more than fifty years. He fought in the Mexican war and distinguished himself especially at the battle of Vera Cruz. His general "Pattern" was in active service during a part of the late war and only retired when his term of appointment expired. As a business man he was eminently successful, and at the time of his death was the owner of four large cotton mills. His death is very generally lamented and his long and useful life is ended, crowned with riches and honors.

HANGED AT LAST. Nathan Orlando Greenfield was executed at Syracuse on Friday last for the murder of a woman named Mary Ann, who was executed on October 21, 1875. The case was remarkable for its stubborn conduct in the courts. There were three trials, the jury once disagreeing and twice finding a verdict of guilty; two death sentences and five stays of proceedings and reprieves. He paid the penalty for his crime on Friday and nine months after it was committed. Greenfield protested his innocence to the last, and, in response to a suggestion that he should make a confession, said that he would have done so long ago if he had been guilty. He claimed that two brothers, George and Henry, had conspired with him to murder his wife. The evidence against them was very strong, but for some reason they were never brought to trial. There are many people who yet believe that Greenfield was innocent, though his reputation was far from good. The whole case is a puzzle, and the most celebrated on the criminal list in this country.

DISMISSAL AND DISGRACEFUL. A despatch from Pittsburgh states that small pox and typhoid fever are very prevalent there. It is feared that this winter the former will become epidemic. A horrible stench arises from the grave yard there used by the colored people. This is due to the interment of bodies one on the top of another, in some instances the bodies being the grave for within six inches of the top. During the night twenty or thirty dogs prowled through the ground, and the sexton is frequently obliged to cover the bodies which they have laid bare. What kind of authorities are there in Pittsburgh, that such a shocking condition of things should be permitted to exist? There must be some law by which the people can reach their shamefully inefficient servants and compel them to adopt such measures as will protect the public. It is a disgrace to Pittsburgh and its citizens that such a despatch should be published, and the sexton should be held to the same standard as the rest of the community. It is a disgrace to the city. As it is now, Pittsburgh is a pest house and should be treated accordingly.

An extraordinary scene was witnessed in the lobby of the English House of Commons on Wednesday last week. Mr. Bradlaugh, the athletic member, who had been expelled for refusing to take the oath of office, made a vigorous attempt to force his way in and take his seat. He was resisted by the police and after a fierce struggle, was ejected. A large crowd assembled and cheered Bradlaugh loudly. The agitator made a serious mistake in the endeavor to obtain entrance by violence. Whatever may be his claims, he has certainly not strengthened them by his conduct, and he will doubtless lose the support of some of his liberal members. The probabilities are, that Bradlaugh will eventually be accorded his seat, but not if he persists in squabbles with the police.

OUR CANDIDATES.

The gentlemen nominated at the County Convention last Tuesday are all reliable citizens, and deserve the solid support of the party. Only three of the number were re-elected—F. L. Shuman for Associate Judge, William Krickbaum for Prothonotary and Charles Hatcher for County Commissioner. The others are men of intelligence and capability, who will administer the affairs of their respective offices with satisfaction to the people and credit to themselves. The Democratic majority is steadily increasing in the county and the ticket this year should receive the vote of every Democrat who is not an opponent to the nominees at the coming election, but that, on the contrary, all will be chosen by triumph and majorities. Apathy is a more dangerous foe to success than disaffection, and all good Democrats should deem it a duty not only to vote but to see that their neighbors do likewise.

Why American Goods are Preferred.

The growing reputation of American manufacturers in the markets of the world has alarmed competitors abroad. "Wholesale American goods" whether they be machine tools, cutlery, silks, furs, cotton cloth, or any other merchandise, they make their brands the leading ones, selling for the most money, and universally sought after. The reasons for this are plain. It is not on account of the better and more direct processes employed, it is not by discarding workshop conditions and old-time methods; it is not by such adventitious aids that we have achieved so great an eminence that our trade marks are counterfeited and foreign goods are represented as of American make. It is because our manufacturers have found the method of making a specialty of meeting the tastes of children's shoes worn by which millions are saved annually to parents; and they now offer the A. S. T. Co. Black Tip in place of the metal, as they wear as well, and are not objectionable on the finest shoe.

HECKY M. HOYT. To authorize the several boards of school directors of this commonwealth, except

in cities of the first, second and third class, to refund any indebtedness of their respective school districts at a lower rate of interest, and declaring bonds or certificates heretofore issued for such purpose to be null and void.

Section 1.—That the school directors of the several school districts in this commonwealth, except in cities of the first, second and third class, be and they are hereby authorized to issue bonds, with or without coupons attached, to refund the present indebtedness of the respective districts where the indebtedness is due or payable at the option of said boards at a lower rate of interest, redeemable at the option of said school directors, at any time after two years from date thereof, interest payable semi-annually, which bonds shall be exempt from all taxes except testate, probate, and shall not be sold at less than par by said school boards.

Section 2.—That all bonds, notes or certificates of indebtedness heretofore issued by any board of school directors in the district aforesaid to fund floating indebtedness, shall be null and void, and hereby declared to be valid and binding as fully and effectually as though they had been specially authorized by statute; provided, however, that this act shall not affect any cases that may now be pending in any of the courts of this commonwealth. Approved May 29th, 1881.

HENRY M. HOYT.

Though there was considerable feeling among the friends of the different candidates at the convention on Tuesday, the best of humor prevailed and order was preserved during the session. The friends of the different candidates were very friendly and courteous, and the proceedings were conducted in a most orderly manner. STATEMENT UNDER OATH. A Startling Revelation of Suffering! "Oh, My God, How I Did Suffer." "I Earnestly Prayed to Die."

"I have been afflicted for twenty years with a disease which, called by some M. D.'s, rheumatism, and others 'Sciatica,' commencing on my scalp and in right of all I could do, with the help of the most skillful doctors, to secure but slowly extended until a year ago this winter I covered my entire person in scabs of scabs, for the last three years I have been unable to do any labor, and suffering intensely at the time. Every morning I could do nearly a dozen of scabs taken from the sheet of my bed, some half as large as the palm of my hand, and some as large as a dinner plate. I was unable to do any work, and my skin commenced cracking open. I tried everything, almost that came to thought of without any relief. The first of June I started with a box of Cuticura Remedies, consisting of Cuticura, Sarsaparilla, and a small jar of Ointment. I used them about two weeks, but did me no good. All thought I had but a short time to live. I earnestly prayed to die. Cracked through the skin all over my back, across my ribs, arms, hands, neck, feet, and all over my face. Every morning I could do nearly a dozen of scabs taken from the sheet of my bed, some half as large as the palm of my hand, and some as large as a dinner plate. I was unable to do any work, and my skin commenced cracking open. I tried everything, almost that came to thought of without any relief. The first of June I started with a box of Cuticura Remedies, consisting of Cuticura, Sarsaparilla, and a small jar of Ointment. I used them about two weeks, but did me no good. All thought I had but a short time to live. I earnestly prayed to die. Cracked through the skin all over my back, across my ribs, arms, hands, neck, feet, and all over my face. My hair, which was long and black, turned to a mass of scabs, and I was unable to do any work. I was unable to do any work, and suffering intensely at the time.
