By the death of Senator Burnside the Democrats will have a majority of three at the opening of the Senate. This will enable them to choose a president pro-tem, who will then swear into office the two Senators from New York, and Burnside's successor. On a full vote there would be a tie between Democrats and Republicans. To elect a Democratic president pro tem. it is necessary that every Democrat be present, and that there be no overstrained notions of "courwill lie until their final interment is a tesy." The Democrats, by the way, ap pear to have a monopoly of that kind of politeness, Republicans not regarding such unimportant matters when anything

President Arthur has called a specia session of the Senate for October 10th. The Democrats will undoubtedly elect a President pro tem and probably a Secretary. The two new Senators from New York and the one from Rhode Island cannot be sworn in until a presiding officer is chosen who will administer the oath of office. It is absurd to claim that a Republican should be elected and there are few even of the Republicans who advocate such a proceeding.

The Montour county fair which was to nave been held last week, was postponed to October 19th, 20th, 21st and 22nd. The condition of the weather was the principal reason for the postponement. The managers were of opinion that if rain fell the farmers would be obliged to stay at home to look after their plowing and seeding, and if the drought contin ued the dusty condition of the roads would be a drawback to the pleasure of

the occasion. It is rumored that ex-Surgeon General Hammond has in preparation a book of 300 pages, severely condemning the management of the surgeons who attended the President.
