the farmers of the county, who are now busy seeding. The season is very backward, owing to the drought, and there will be a largely decreased acreage of wheat next year. The chestnut crop throughout the State is

According to the Milford Desputch, the farmers in Pike county have done fairly this year-Rve, wheat and oats were never better and apples are so plenty that they cannot be given away. Corn, buckwheat, potatoes and hay are short, however, and will not be one-half a crop.

An intelligent and careful gentleman who has traveled through a great portion of this county recently, gives it as his opinion that there will be about 4,000 less acres seeded in wheat than the number last year. At fifteen bush els to the acre, this will represent a falling off of 60,000 bushels-no inconsiderable amount.

The Philadelphia News, printed an article or stealing door mats, and added to it, "Papers which circulate among thieves please copy." The Williamsport Sun and Banner promptly copied the article, at least so says the Pottsville Chroniele. What sort of subscribers have you, neighbor, any way?

BURGLARS AT WORK

A gang of burglars were pretty badly fooled t Beach Haven last Friday night. They discovered an old, unused safe belonging to Squire D. G. It is believed that they did not discover the unlocked door and were driven off by approaching day. They were doubtless amateurs at the business or they would have tried the lock .-Shiekshinny Echo.

OUR NEW OFFICE.

Unlooked-for delays, non-receipt of our new press and water motor and the occurrence of aundry unexpected events made it impossible to carry out our intention to be in the new building this week. The removal will not be tong delayed, as the work on the interior is nearly completed and upon the reception of the press and motor, we will soon be ready to greet our friends in larger and more convenient quarters. The labor necessary to transfer all the paraphernalia of a printing office is very great, and the best laid plans are apt to go astray. There is nothing for it but to bear the disappointment with equanimity and to promise our friends a warmer greeting when opportutunity affords.

TO COLUMBIA COUNTY REPUBLICANS.

Hon, Charles S. Wolfe in his recent scorch ing speech, at Philadelphia, made use of the following language, in describing the methods by which the "machine" is maintained in power. His allusion to the workings of the system in minority counties is so applicable to Columbia county, that we cannot refrain from republishing his words:

But why, you ask, cannot the organization— "the machine"—be so readju-ted and controlled as to correct these evils and made the instrument for representing and effecting instead of misreprese ting and subverting the party's will? I might show by numberiess examples, how by all sorts of vile means and practices— by force, by trand, by deceit, by raising of false issues, by raising State and issues, by national State and municipal par-ronage, the people, especially in our larger cut ies and more populous, immoral and lawless communities, are defrauded of the delegates
