All persons attending court will have the privilege of hearing Eli Perkins, as court will adjourn that evening in time for the lecture. Don't forget the date, December 15.

The members of Winona Hose Company gave a ball in their hall, on Tuesday evening. Dancing was kept up until a late hour and all who were present enjoyed themselves thoroughly.

It would be well for our people to keep a sharp watch for suspicious characters that may come to town. Several gangs of thieves are committing depredations in neighboring towns and may find their way here.

On Monday morning while Johnny Connor of Fountain Springs was out hunting near that place he shot and killed a white weasel. This is the only animal of this kind that has been seen hereabouts for many years.—Miltonian.

Everybody says the People's Drug and Book Store has the finest line of Christmas goods in town.

The new counterfeited silver dollar is pronounced the best ever made. It is silver-plated and acid does not affect it unless the surface is scratched up. The weight is the marvelous point of the deception. The counterfeit as it stands would pass in size easily, and its weight would not be detected on any but fine scales. The date upon it is 1898.

Everything about Sanford's Radical Cure for Catarrh invites confidence. It is the prescription of one of our ablest physicians, and is prepared by one of the largest and most reliable drug houses in the United States.—Boston Herald.

A great change for the better has been wrought in the Opera House. Lewis Maeder, a scene painter of ability, has repainted the drop curtain, which now presents a very attractive appearance. In the foreground on the left of the curtain is a female figure of heroic size, gazing over a wide expanse of lake and mountain. The colors and perspective are both good and the general effect excellent.

Pocket and family Bibles at the People's Drug and Book Store.

Some one entered the barn of H. H. Hughes, now living on the Samuel Shaffer farm, on Saturday night last and stole a riding horse and saddle, the latter having J. E. end on the side of it, collar, choke strap, two horse brushes, a boiler, the strap, half a buggy whip and two lame straps. Mr. Hughes offers a reward of \$25.00 for the return of the property and conviction of the thief.

So bring in your cash and produce and secure the greatest bargains of your life.

On Thursday last the Sheriff sold the following properties:

Two tracts of land in Orange township, the property of Isaac P. Rice, sold to Wm. Lloyd for \$100. A lot and house in Bloomsburg, the property of Richard B. Menagh sold to C. G. Barkley for \$370.

Other properties will be sold to-morrow.

8 colleges, 29 clergymen, 300 lecture associations and 500 newspapers endorse Eli Perkins.

Mr. W. O. Holmes met with an accident on Monday morning last, while driving under the bridge work near the bridge at Rupert. The king-bolt of the buggy came out as he was going at considerable speed, and he was thrown head long to the ground. Fortunately for him, the mud was very deep and he thus escaped serious bruises. He was literally covered with mud, even his pockets being filled. The horse ran over into the grove and subsequently trotted up to Mr. Holmes and stopped. The buggy was demoralized.

The largest and finest assortment of Christmas cards at the People's Drug and Book Store.

The gifted young actress, Miss Julia A. Hunt is booked to appear at the Opera House on the evening of December 30th, in the romantic drama, "Florinda." Of the piece, the press says: "Florinda" is a play of more than average merit, holding the attention of the audience to the end." Of the actress, the News says: "Miss Julia A. Hunt is gifted with rare artistic powers. Her comedy and her pathos are alike delightful; her singing is charming, and she cannot fail to become a great popular favorite."

Examine your tickets for the 15th, and be sure that Eli Perkins' name is on.

James Kiser was arrested by Constable Harris, on Saturday night, for drunkenness and disorderly conduct. He got into a fight with a man named Long and subsequently raised a row in Gilmore's saloon. When found by the Constable he had stripped off most of his clothing. As Long was in the lock-up, Kiser was taken to jail, but Sheriff Ed declined to keep him as there was no commitment. Kiser is already bound over for his appearance at the present term of court for fighting.

If you never laughed in your life, go and hear Eli Perkins, December 15th, at the Opera House. Eli Perkins entertains everybody.

The month of November, just passed, was one of the most remarkable on record, especially in respect to phenomena of vegetation. There were, during the month, many instances of trees laden with ripe fruit, and at the same time covered with the blossoms common to spring. Isaac Appleby living near Monticello, N. Y., reports that he picked ripe strawberries in a meadow on his farm in November, and that as late as the middle of the month dandelions were in bloom in his fields. Violets were found in the field near a New Jersey town, and the pastures afforded more food for cattle than ever before so late in the season.

People will bear in mind that our prices this year for all Christmas goods are the same as last year. Quick sales and small profits. People's Drug and Book Store.

A pretty little device for window decoration is a sponge suspended by a fancy cord. Dampen the sponge and sprinkle flax, mustard or other seed over it. This seed will germinate, and the result will be a mass of beautiful green. The sponge can be washed and replenished with seed when decay takes place. A handsome mantel ornament can be prepared by filling a goblet about two-thirds full of water, and placing on the water a layer of cotton. Upon the cotton sprinkle grains of wheat, oats or other cereal seeds. In a few days the seeds will sprout, shooting downward into the water a myriad of tiny roots, and upwards numerous green spears.

A large assortment of mirrors and combs in sets at the People's Drug and Book Store.

Every human creature of sound mind and discretion, who listens to the whole of Eli Perkins' lecture without laughing, will be presented with a chromo, valued at \$5. Parties of six who sit the lecture out will be given a house and lot.

There ought to be a better lock-up in Bloomsburg. The present small building is unfit for the incarceration of prisoners, and the town authorities should make instant provision for the purchase of a better one. It would perhaps be well to buy the old jail building, and transfer to it the council room. There are large cells for the reception of prisoners and in sufficient number to satisfy any demand that would be made ordinarily. At present, if two men are arrested for fighting, it would be obviously improper to place them together in the single small room of the lock-up, where they might beat each other terribly during the night. The matter is of enough importance to demand consideration and action.

Come and examine the Christmas goods at the People's Drug and Book Store before purchasing elsewhere. Finest selection in town.

Warren J. Woodward, son of the late Judge Woodward formerly Judge of this district and afterwards of the Supreme Court, was found dead in bed at his home in Reading on Monday, with a bullet in his brain. He was only twenty years of age and a young man of brilliant promise. For some time past he had been in poor health and it is thought impelled him in a fit of depression to take his own life. There are many in Bloomsburg who will remember him as a child.

Perkins will be at the Opera House on Thursday evening, December 15th and will talk about the "Philosophy of Fun" and "The Perkins Family."

We ask you to read the advertisement of Darby's Prophylactic Fluid, which appears in our issue of yesterday. It is a wonderful healing remedy, a most powerful disinfectant, and a positive germ destroyer, and is perfectly safe to use even in the hands of the most inexperienced. It is highly recommended by eminent physicians and chemists, and endorsed by hundreds of others who have used it and know its valuable properties. It costs but a trifle, and will save much suffering, time and money. Darby's Fluid has long been recognized as a household article for universal family use. Prepared by J. H. Zellin & Co., Manufacturing Chemists, Sole Proprietors.

On Tuesday morning last the Bar of Columbia county was augmented by three new members, to-wit, H. V. White, a student in the office of Col. Freze, J. C. Youm, a student of Hon. C. R. Bucklewell, and A. Clarence Frea, who studied with E. R. Hecker Esq. The committee appointed by the court to examine the applicants consisted of E. H. Little, Col. S. Knorr, and C. G. Barkley Esq. The candidates passed very creditable examinations, and as they are all young men of excellent qualities we predict for them success in their profession. Mr. White has entered into partnership with Col. Freze and has purchased the large and valuable law library of that gentleman.

Anything not in stock will be ordered and procured at the lowest prices at the People's Drug and Book Store.

Moyer Bros.' drug store barely escaped destruction by fire on Monday morning. Plumber was at work in the cellar putting in a new gas meter, and neglected to turn off the gas at the street. The stream of gas from the service pipe was ignited by the plumber's lamp. An alarm of fire was given and the Winona boys made their appearance within five minutes with their hose carriages, but their services were not needed, as the flame was extinguished by wrapping a coat around the end of the gas pipe, and throwing water on it with the hose in the cellar. But for the presence of a hydrant there, the building must have burned. As it was, Charles Earth, plumber, had both of his hands severely burned in his efforts to smother the flames. The burning of this fine establishment would have been a great loss to the town.

DEAF AS A POST.

Mrs. W. J. Lang, Bethany, Ont., states that for fifteen months she was troubled with a disease in the ear, causing entire deafness. In ten minutes after using Thomson's Electric Oil she found relief, and in a short time she was entirely cured and her hearing restored.

Fire Department Election.

In accordance with the constitution of the Bloomsburg Fire Department, the officers for the ensuing year will be chosen on Monday evening December 10th, at the Town Council room, between the hours of six and eight o'clock. The election is conducted by an inspector to be elected from each company, the President of the Town Council acting as judge, all to be sworn to a faithful performance of duty. The Secretary of each company is required to give to the Secretary of the Fire Board, on or before the second Monday of each year, a certified roll of members, and all are entitled to vote for department officers who have been members for at least three months, have paid their entrance fee, and are not in arrears for more than that time.

Go and hear Perkins, the author, the philosopher, the orator and the greatest humorist on the American platform.

There is no earthly reason for the continued existence of Fellows and Scarles' New York Minstrels, who gave an exhibition at the Opera House, last Monday evening. They are deplorably bad in almost every respect. The first part of their programme was made up of poor singing, moss-grown jokes, and silly chatter without humor or point. The performers did not know their stage business or cues, and the result was the dreariest performance we ever saw. The only redeeming points were some fair clog dancing and the jig-dancing of Master Dointry, a smart boy. If this troupe holds together much longer, it will be a matter of wonder. That it ought, nobody who has seen the alleged entertainment will admit.

D. K. Sloan & Son of Orangeville have re-opened their store for business, and have marked down their stock 15 per cent lower than can be bought elsewhere. To prove that their goods are free from contagion they have secured the following certificate, signed by Drs. B. F. Gardner and O. A. Mezgerell:

Sloan during the prevalence of small pox, would state that we did not change our clothing in the store, nor was there any communication between the house and store by which the goods would be infected, and we believe them to be entirely free from contagion.
