J. K. Eyer intends to build a new dwelling house on the vacant lot below his store on Main Street.

Three offices, well lighted, heated by steam, for rent on the second floor of the COLLEMAN building. Ready for occupancy April 1st. If desired, call on J. W. Miller.

William Rabb proposes to erect a new store house on the lot next to his residence on Main Street.

M. C. Sloan & Bro., have sold seven of their sleighs since the snow came. They have a few more on hand.

Mr. George T. Curvan, of Milton, has taken a contract to build twenty-two houses in Catawissa.

The Exchange and Central Hotels have both entertained large numbers of sleighing parties during the past week.

Warrants for the execution of seven condemned murderers, have been issued by Gov. Hoyt. Execution to take place on Friday, March 24th.

Tickets for township election printed at this office on short notice, for 50 cents a hundred. Orders by mail must be accompanied with the cash.

A runaway team ran into a funeral procession at Hinton on Tuesday afternoon, and Mrs. Lloyd and Mrs. Evans, both of that place were seriously, if not fatally injured.

The commission of D. A. Beckley as postmaster of Bloomsburg expired on January 31st, and on Monday last he was re-nominated by the President.

The editor of the Sullivan county Relief has been arrested on a charge of libel. The article complained of was contributed to the columns of the paper.

The attention of farmers is called to the advertisement of Messrs. Baugh & Son, in another column. The reputation of their phosphate is world-wide. Send for circular.

The ground hog had a fine view of his shadow on the 2nd inst, and the weather since that time has been of a kind to indicate the animal's wisdom in returning from public view.

Mrs. Jesse Shannon died at her residence on Third Street on Monday afternoon, after a lingering illness. She leaves a husband and several children, two of her sons being in the Methodist ministry. She was an exemplary Christian. The funeral took place on Thursday afternoon.

A physician advises those who have recently been vaccinated to beware of catching cold in the vaccinated arm. Such cold brings with it a wide train of ills. Be careful in this cold weather.

Rev. Mr. Goodlin of York, Pa., Secretary of the Home Missions, of the Lutheran Church, gave very interesting discourses in the Lutheran Church of this place, on Sunday morning, afternoon, and evening.

Death to rats, roaches and ants. Parsons EXterminator. Barks, granaries and household cleared in a single night. No fear of bad smells. Best and cheapest vermin killer in the world. Sold everywhere.

A general order has been issued to all night operators employed by the Philadelphia and Erie railroad, between Harrisburg and Bloomsburg, to report to Williamsport every half hour after midnight. This will prevent any more "napping" by said operators.

Orders for book binding can be left at this office with the assurance that the work will be well done and at very reasonable prices. All that is necessary is to bring your books to this office, where they will be packed, and delivered on their return from the binder.

A few years ago efforts were made to acclimatize English sparrows in Southern Australia. Now a premium of a cent apiece is paid for their destruction, and their eggs bring more than half a cent a piece. That's what we are coming to exactly.

Executors and administrators' account books, containing full instructions how to settle an estate, receipts, &c., for sale at this office. These are the most convenient books of the kind ever printed, and they are in use all over the State.

A photographic counterfeit of the twenty dollar United States silver certificate is in extensive circulation, having made its first appearance in Missouri. The counterfeit is said to be much paler than the genuine, and to be easy of detection by people who are on their guard.

An Eastern physician states that if families trust their own coffee dipplifiers cannot get a foothold, as the pungent aroma of the roast coffee effectively destroys the germs of the disease. This statement may be worthy of attention just at this time when dipplifiers and kindred diseases are so fatal.

While snow fell here in such abundance, in the States just south of us, great damages have been caused by severe rain storms. In Tennessee the rivers have been overflowing for the past two weeks. In some sections the railroads are six feet under water. Great damage to business has been done by the stoppage of trains.

Stephen Kingston, Moses Kingston and Eli Hauck have been arrested and lodged in the Montour county jail on the charge of stealing property from the Hospital at the time that structure was destroyed by fire.

Haldeman of Northumberland county has been bound over on the same charge.

We understand that there are two or three cases of small-pox in Berwick and that there is something very like a panic among the men employed by Jackson & Woodin. Some of these have left town for fear of the disease.

There does not seem to be any cause for alarm as the cases are isolated and receiving the best care.

In the bright autumnal days the temptation to comfortable exposure yields its fruit in a most pernicious cough and irritation of the throat. Dr. Bull's Cough Syrup is unrivaled as a remedy for throat and lung diseases. 25 cents a bottle.

Parents who wish to have their children live and grow to honorable manhood and womanhood, will do well to restrain them from a too earnest search for "advertising cards." One of these days there will be a terrible slaughter of the innocents by fatephubbers and the noise of the funerals will fully end "no cards."

[WANTED, CENTRAL WISCONSIN.] Being asked concerning the Oil, Mr. Aug. Kleibusch informed the questioner that St. Jacobs Oil had proved an excellent and most useful remedy in every family that had used it. A large majority of cases pronounced incurable have been entirely cured.

Assistant Postmaster General Hutton, has issued the following: "Postmasters will not allow non-subscribers to take from the boxes, newspapers addressed to general subscribers, refund and return them into general delivery, without verbal or written permit from such subscriber. A violation of this regulation will be sufficient ground for the removal of the offending postmaster."

We learn that Mr. C. B. McHenry of Still-water had a narrow escape from drowning on Tuesday last week. He was chasing a fox and when crossing the ice on the creek, broke through where the water was quite deep. By standing on his feet, he kept his head above water and with the assistance of his gun crawled out to solid ice. He then went home and changed his clothes and resuming the chase succeeded in catching the fox.

Mr. M. W. Shoemaker and J. W. Lore, of Iola, Columbia county, and Mr. E. Lemon of Greenwood, same county, who have been in Milton the past two months putting in the machinery for the new mill for Murray, Douglas & Co., connected with the car works, finished that job and returned to their homes on Thursday last. Mr. Shoemaker is agent for the Buckeye and Lefebvre turbines water wheel, and intends making Milton his home in the future, for the sale of the same.—Milton Argus.

At the regular monthly meeting of the Winona Fire Co. held Feb. 6th 1923, it was unanimously resolved that the members of the Winona Fire Co. tender our thanks to the ladies who so kindly assisted us in liquidating our debt by giving a supper for the benefit of the company on the evenings of the 27th and 28th of Jan. last. Also that our thanks be extended to the persons who by their patronage have assisted in keeping up our organization and earned our lasting gratitude.

One of the most provoking things to business men is to send out statements to those who owe them, and have no attention paid to the bills. The natural presumption is that when a man sends you a dun he wants his money, and the very best you can do is to answer it in some way even if you cannot pay at once. If not prepared to settle immediately write and tell him when you can; at all events give him some satisfaction. To throw the statement aside and pay no attention to it, is bad business and those who have given you credit, and they have a perfect right to suspect that you do not intend to pay until you have to. Our experience is that about one out of twenty-five reply to our requests for settlement of account.

Sleighing parties are now in order and Bloomsburg is receiving a fair share of them. On Tuesday night of last week, two parties went to the Exchange Hotel and one on Friday night—all of them from Danville. The snow was too deep on the roads for good sleighing, but the large number of teams soon beat down the snow. With cold weather the sleighing ought to last for several weeks.

The storm was general throughout the Eastern States, and in New Hampshire, Vermont, Maine and Massachusetts, the snow is from eighteen inches to two feet in depth and the railroads are badly blocked. At Bear Creek, Luzerne county, the snow is thirty-two inches deep and lumbering is stopped for the present.

The following properties were sold by Sheriff Eft at the Court House last Monday. Property of A. M. Rupert on Market Street, Bloomsburg to Mrs. G. W. Sterner for \$3150, also lot of same on Main street to M. Wynkoop for \$1500.

Property of W. E. Hoffman in Catawissa 4 interest to W. H. Rinehart for \$600.

Property of G. W. Johnson in Greenwood to Almira Johnson for \$20.00.

The following sales were adjourned until Saturday at 2 p. m. E. H. Preston, A. B. Pearson, G. B. Kitchen and William Mosteller.

I. W. Baird's famous minstrels, thirty-five artists strong, are to appear at the Opera House, on Friday evening, February 10th. Words of commendation are needless, as everyone knows this company to be one of the best traveling, who give an entertainment of the highest order, and their program is so gaily, mirthful and musical. They present for novelties this season the New York Courthouse Choir Boys, 8 in number, Barby's Zouave Chorus, lightning drills, and the "Midjet Four" in a hitherto unheard of act— that of dancing on each others' heads—beside a full corps of specialists, a fine orchestra and superb quartette. On account of their engagements they cannot appear here, but on this season, and as a full house is certain to greet them, it will be well to secure reserved seats at once.

The superintendent of the mint has notified the public that the mutilated and uncurrent United States silver coin of standard fineness will be purchased at the rate of one dollar per ounce, Troy weight, when presented in sums of three dollars and upwards. Coins can be forwarded by registered mail or express (charges prepaid), and the value will be returned at the seller's risk and expense by express, registered mail, check or draft. Persons sending full weight United States subsidiary coins would receive, at the rate authorized, eighty cents per dollar of their face value; but for mutilated coins and less amounts, proportioned to the deficiency in legal weight, at the rates provided silver coins will be worth at the mint per ounce (Troy), one dollar; per ounce (avoidupois), about ninety-one cents per ounce, face value, approximating seventy to seventy-six cents.

It is well at this time to have as much information on the question of vaccination as possible. Recent observations of the New York Tribune seem to be of value: "Most persons suppose that vaccination has taken effect only a sore appears where the virus has been deposited, although the truth is that the sore does not necessarily prove a successful inoculation. It requires a physician to tell from the character of the sore whether the vaccination has been a success, and as very few persons take the trouble to consult a medical man on this point, many, doubtless, consider that they have obtained the protection of vaccination because the process has resulted in an itching and inflamed wound, when it has really been a failure. In cases like this victims to small pox this is used as an argument to induce vaccination—while the vaccine never takes place—and it will thus be seen that the statistics of anti-vaccinationists will be exceedingly misleading."

J. J. Brower sold his farm dwelling house on Third street, above Iron, to John L. Beishline of Kingston, for eight hundred and twenty-five dollars.

Miss Ida Cole, daughter of Almas Cole of Derry, is lying seriously ill with small-pox at Berwick, Pa. at the house of James McMichael. A son of the Misses Remaly is also sick with the same disease, in Herwick.

William Chrisman, a student of C. W. Miller Esq., was admitted to the Bar on Tuesday morning, having passed a satisfactory examination before L. W. Wintersteen, H. F. Zarr and H. E. Smith Esqs., the committee appointed by the court. We wish him success in his profession.

Next Tuesday is St. Valentine's Day. The post office will be full of cupids and pierced hearts, and unexpressed caresses, and many a little one will be delighted at receiving a warm declaration of love from some unknown admirer, while many others of larger growth will have their tempers ruffled by the reception of an appropriate though hideous valentine.

An inebriated man was a source of great annoyance to both the speaker and the audience at Dougherty's lecture. He was permitted to occupy a seat near the front, and during the evening frequently interrupted with exclamations sometimes unintelligible, and sometimes profane. It is possible that an effort to eject him might have made some disturbance, but a drunken man is entitled to very little consideration at such a place, and this fellow ought to have been "bounced" at the first interruption.

The trial of Eli Hess charged with a felonious assault on Ellie Savaug in Sugarloaf, attracted quite a large crowd to the court house on Tuesday and Wednesday. Eli is a young man of eighteen or thereabouts, and the little girl is only eleven years old. District attorney Little and E. R. Kleber conducted the prosecution, and Messrs. Freeze and White defended the prisoner. The argument to the jury was made on Wednesday afternoon, by Col. Freeze for the prosecution, and Mr. Decker for the commonwealth, the charge being given in the evening. On Thursday morning the jury returned a verdict of guilty.

The Lighthouses. All persons to whom hotel or restaurant licenses are granted by the court, have fifteen days in which to take up such license, and unless lifted within that period it is forfeited. The general opinion seems to be that the right to sell up to the last of the fifteen days is covered by the old license, but this is not so. A license is good for one year from the day it is obtained, and no longer. Those to whom licenses were granted when the law was changed, have no right to liquor until they have taken out the new one.

Miss May Bradley of Danville has been visiting Miss Ada Brower.

Judge Krickbaum was in town the first of the week. The proposition now appears to be taking a definite shape, and if our people will do the enterprise proper encouragement, a railroad up Fishing creek will become a fixed fact. We are informed that Capt. H. J. Conner and Cyrus McHenry of Orange, have started out at the request of thoroughly reliable and responsible parties, to canvass that section of the country through which the road will pass, and secure releases for right of way, and to ascertain what contributions will be made to the road in shape of ties &c. The success with which they meet will determine whether any further efforts will be made. It seems as though the advantage to those through whose lands the road would pass is sufficient for any damage to be sustained by loss of land. Railroad facilities cannot be obtained unless the people are willing to make some concessions, for the road is intended for the accommodation of the public as well as for the profit of the corporation.

A County Bridge. A petition numerously signed by citizens of Bloomsburg and Catawissa township was presented to the court on Monday last, asking for the appointment of a committee to be created across the Susquehanna river near this town. The petition sets forth that such a bridge is necessary, and that the expense of building it would be too heavy for the two townships named to bear. When the North and West Branch railways is completed the necessity for this bridge will be greatly increased. Without it the new railroad will be of little benefit to this side of the river. The D. L. & W. road can continue to charge its outrageous rates for freight without fear of competition, for the nearest point that the N. & W. B. can be reached is at Catawissa. So far as expense is concerned, the amount of bridge toll now paid by many of the farmers would more than pay the additional tax that it would be necessary to add to the rate of toll of the bridge. This project will probably meet with more or less opposition from certain parties, but there can be no doubt that all persons interested in the increased prosperity of our county, will heartily endorse it. There has been some talk of making a double bridge, one track for the railroad and one for a highway, but there are serious difficulties in the way of this, one being that there is no certainty that the railroad company will build a bridge, and the other being that it would be very dangerous to drive horses over such a bridge. What is needed is a free bridge, and it ought to be paid for by the county, because it will benefit, directly or indirectly, every tax payer.

The Demon in the Sky. A VISION FOR THOSE WHO PARTICIPATE IN SLEIGHING PARTIES. One of the most interesting sights in the sky, and one that can be watched without a telescope, is the variation in the light in the star Algol, whose Arabic name means the demon. It is sometimes called the Winking Demon. This wonderful star is now in a good position for observation, being nearly overhead at nightfall. It is the brightest of the little cluster called the Head of Medusa, which according to the old fable Perseus carries in his hand as he rushes to the rescue of Andromeda. For a little over two days and a half Algol shines as a star of the second magnitude. Then its light begins to fade, and in about two hours and a third it sinks to the fourth magnitude, glimmering so feebly that a casual observer would be unable to distinguish it from the other faint stars in its neighborhood. Thus it remains for eighteen minutes, and then to brighten again, and in the same time that it occupied its growing dim, it attains its former brilliancy. From one minimum to another is two hours, twenty hours and nearly forty-nine minutes. Algol gave its last light Thursday evening at about 6.45. There will not be another minimum visible in this longitude early in the evening until February 18, at 8.24.

The fact that a star thus brightens and grows dim at regular intervals is in itself wonderful, but it appears all the more wonderful when we are told that Algol is a sun, having an enormous dark body revolving around it at a tremendous speed. Some astronomers think that this mysterious body will fall into the star, producing an outburst of light and heat that would be fatal to any living being that might exist within millions of miles of that distant sun. Such a catastrophe could be visible in the splendor of the star.
