Burglars broke into the Express office at Danville on Tuesday night, held open the safe and obtained nearly \$2,000 in money. There had been several burglaries in Danville, and some decisive measures ought to be adopted to detect the plunderers.

Many persons have an idea that judgments will retain their luster for twenty years, without being revived. This is not the fact and the truth might as well be known. All judgments must be revived within five years from the date of entry in the prothonotary's office, or their liens will be lost, and expense may be incurred by having this done a mile or better in all matters of the kind to obtain the services of a competent attorney, who will see that the rights of his client are properly protected.

He was found some time afterward lying unconscious on the twisting over Fishong Creek, by the men on an L. & E. train. He was alive, but died before a physician arrived. Three Hungarians from Prigle Hill were attacked by three footpads on the Kingston road on Saturday morning and badly beaten. Considerable money was taken from them. The assailants then fled to this city. The Hungarians followed them and ascertained that they were at the North Branch Hotel. Warrants for their arrest were procured from Alderman Rooney, Constables Tamany, Shoenick and Casper, and the hotel.

The offenders were drinking, and, being informed that they were under arrest, they knocked the constables down. The officers called a number of people to their aid and the men were taken before Alderman Rooney, who committed them to the county prison.

They made several efforts to escape while on the way to jail. Near the gas house one of the men struck Constable Shoenick in the face and stunned him for a moment. The prisoner, named John, was then lodged in the jail.

The animal quickly overtook him and brought him to the ground. The men, whose names are given as Christopher Astum, John Forsyth and Henry Boyer, were then lodged in the jail.

Miss Crosby has closed her winter's work and settled down at home again. I shall try to drop you an "ocean lull," informing you many readers of the doings in this beautiful valley. There are few places that are known to the writer that have more attractions than Stillwater and the surrounding country. The scenery is picturesque and grand. No more lovely stream than the beautiful Fishong creek ever rippled through any valley, or by any mountain side, and certainly no more industrious, sober, hospitable, well-behaved people can be found, as you very well know. All we need now to complete the picture is a road, and a road of the very best, is a railroad with its attendant improvements, and that we are well assured, will soon be among the things that are, Messrs. Conner and McHenry report success, if they are true.

Our roads are now in a very bad condition owing to the heavy rains, and the immense amount of traveling done. Mr. T. H. Edgar's dam recently received considerable damage by the water washing around one end of it; but he has it repaired again, and his planing mill is humming away quite lively. He is also making some improvements in the way of building.

The Stillwater and Zahner schools closed last week. The young men can now shoot for awhile without training.

Fishing will soon be in order, but where, oh, where are the fish? Query: Is there any fish law for Columbia county? If so who is to enforce it? A fish commissioner ought to be in order.

Elder C. W. Cooper, of Millville, and the writer's joint labors, in protracted meetings this winter, resulted in upwards of seventy baptisms, and a good interest at each point.
