

The Columbian. BLOOMSBURG, PA., FRIDAY, JULY 21st, 1882.

Correct Railroad Time Table. Trains on the Philadelphia & R. R. leave for... Trains on the D. L. & W. R. R. leave for...

Personal. Mrs. Harry King, formerly Miss Laura... Mrs. Prof. Wilbur and wife are spending the summer at Onondaga, New York.

Editor Geo. Lenhart, of the Berwick Gazette, addressed the members of the Baptist church on Sunday evening in the absence of their pastor, Rev. Smith.

Dr. Heckman, a very prominent divine of the Presbyterian church, living at Chambersburg, O., gave a very able sermon in the Presbyterian church of this place, on Sunday morning and evening.

Blackberries will soon be ripe and the crop promises to be a large one. Locusts are found in large quantities in many sections of New York state.

There was an immense crowd at Berwick last Saturday to see Barrett's circus. Blackberries will soon be ripe and the crop promises to be a large one.

There will be a festival at Hilday church in Centre township on Friday and Saturday evenings, August 4th and 5th. James Thornton who was kicked by a horse last week, is able to be out on the street, but still has a very sore face.

The peach crop of Delaware will probably reach 3,500,000 baskets, and the prices are expected to be low. Bucks county will celebrate its 200th anniversary on August 31st and September 1st and 2nd, at Doylestown.

W. H. Yetter has a fine lot of Celery Plants for sale. Some transplanted, four varieties. Rev. W. E. Detweiler of Lewisburg, will preach in the Evangelical church on next Sunday evening, the 23rd inst.

A printer is at work on the Harrisburg Patriot who has followed the trade for 52 consecutive years. If you want good celery plants cheap call at James Goodman, near the Bloomery. He will not be undersold.

Mrs. John O. Dilline died at her home near Benton on Tuesday. The funeral took place on Thursday, Rev. D. J. Waller Jr. officiating. If you are troubled with the mosquito, put a little camphor on a handkerchief and place it under your pillow. Mosquitoes will not trouble you if you adopt this plan.

The Harrisburg Patriot says that horses are abused in that city because there is no reliable agent of the society for prevention of cruelty to animals. The name of W. B. Poust, Treasurer, was inadvertently omitted from the list of officers of the Winona Fire Company published last week.

Celery plants cheap at J. Garrison's 5th St. Dr. Turner has sold the Sanitarium to Dr. L. Shattuck of Connecticut. Paper bags from 1 lb. to 10 lbs. at the COLUMBIAN office.

County Superintendent Grimes has issued his notices of teachers' examinations for the several districts. The 21st is the last day for paying town taxes to the Treasurer. If you have not paid yet, do it to-day and save 5 per cent.

Rev. J. P. Tustin will soon commence the erection of a new brick residence on the Drinker lot on Rock street, two lots beyond his present home. James Barton has purchased of M. Wincep the lots on Main street, lately owned by A. M. Rupert and E. J. Thornton.

The proprietors of the Monroe Journal have purchased the interest of Messrs. B. Greenwald and will consolidate the two papers. They both have a good circulation. The attention of farmers is called to the advertisement of Messrs. B. Greenwald in another column. The reputation of their Phosphate is world-wide. Send for Circular.

The Borough council of Berwick has been enjoined by the court from grading Front street of that town. The reason for granting the injunction is that proper notice of the grade was not given to property owners. Editor R. M. Tubbs has been appointed postmaster of Shickleshiny. We congratulate him upon his good fortune. He will make an efficient officer and will no doubt pay his "voluntary contribution" to chairman Cooper without a murmur.

The Sanitarium has quite a number of patients. The grounds and all the surroundings make it a most delightful place, and every thing is done for the comfort and convenience of guests that modern improvements and medical skill can afford. Just received a new lot of Elgin, Waltham, Springfield and other make of watches in open and hunting cases, warranted from two to five years.

Also silver plated teaspoons one dollar a set, table spoons, dollars a set, at L. Bernhart's Jewelry Store, 94 ft. One man was killed, and two seriously injured by the cars near Lykens town, Dauphin county, last Sunday morning. They were employed by S. H. Barner & Co.'s circus, which exhibited at Berwick on Saturday. They were sitting at the side door of a box car and when passing another train on a siding, the cars caught their legs and dragged them out. The siding was so close that the cars nearly touched.

Edward Genhardt, of East Machopunk, aged about eighteen years, received a slight wound in one of his fingers from the shell of a pistol cartridge on July 4th. The young man continued work until the next Monday evening when his hand and arm began swelling and he died of lockjaw on Wednesday evening. It seems every year we pick up chronicles the death of some one from the toy pistol.

Considerable complaint is being made by the tobacco growers in Lancaster county. A bug which has a mania for "chewing" is destroying the young plants. Some trouble was experienced in getting the plants. The ground was watered before setting out and even then they were burned out. Notwithstanding these difficulties the farmers persevere because there is more profit in it than in raising any kind of grain.

The commissioners of Luzerne and Lackawanna counties met at Scranton on July 7th to consider the question of the debt of Luzerne county at the time of the formation of the new county. The Lackawanna commissioners say that inasmuch as the debt was not adjustable within one year from the passage of the act, they will not entertain a proposition for settlement. The matter will probably be referred to the oldest judges in both counties.

Three hundred and sixty-nine soldiers' orphans will be discharged from the various schools in the State this year, having attained the age of sixteen years, and the superintendent of the department has prepared a list of the scholars, arranged by schools, to which he has added the date when each child will be discharged. Copies of this will be sent to each post of the G. A. R., and to numerous soldiers and their relatives who are interested in the subject being of interest as many as possible in obtaining homes and employment for the orphans.

Every summer the newspapers warn people against drinking ice water when at their best. In pressing the indispensable requisites to a good result are a sufficient quantity of paper, a perfectly even pressure and a proper degree of weight. The paper should be of a soft, porous nature and unglazed. Blotting paper is considered best, but newspaper will do very well. Books are most convenient if they can be found of sufficient size and unglazed. If paper is used, fold it to the desired size and be careful to make the edges perfectly even. Place the first paper upon a level surface, then a layer of ferns face down, then about fifteen sheets of paper and so continue till the package is completed. Cover with a smooth bit of board of the same size and place a heavy weight upon it rocking it in every direction until the ferns are perfectly smooth. Remove the heavy weight and substitute one of perhaps ten or twelve pounds. Be sure that the pressure is exactly equal, for if the package tilts in the least the ferns will be spoiled. If the weight is too heavy or too little paper will be used they will be rough, and if there is any inequality they will be smooth in some places and rough in others. There is a process of some difficulty. Lay the ferns face down upon paper; rub off of yellow just warm enough to melt it; pass this very quickly over the fern. Of course the wax must be made to cover it. If the iron is too hot, or if the movement is not sufficiently rapid, the fern will adhere to the iron. Methods of arrangement are so numerous and familiar that it is hardly worth mentioning them. A handful in a fern glass is always desirable and for those who lack pictures something very pretty may be made in that shape from ferns and autumn leaves.

Wednesday morning Mrs. Wilkes went to Wilkes Barre with her brother, and returned on Friday. She had a very severe attack of cholera morbus, but that when he was going quietly away the latter seized him by the collar, and presented a pistol at his head. He then turned round, knocked Hufnagle down and kicked him. Myers is a slightly built young man, and does not look at all like a desperado.

The Mountain Lake Park Sunday school Assembly, convenes this year from July 20th to August 1st inclusive. Mountain Lake Park is a religious summer resort on the line of the Baltimore and Ohio Railroad, 244 miles west of Baltimore. It contains 800 acres of ground and is 2700 feet above the level of the sea. The exercises during the season will embrace a course of lectures by distinguished divines, and a course of Normal Instruction conducted by competent and practical teachers. It will be under the direction of Rev. Charles N. Sims, D. D., Chancellor of Syracuse university. There will be lectures each day. Season tickets good for the entire lecture course and Normal courses and admission to the grounds, \$1. Single tickets 25 cents. Excursion tickets will be issued over the Pennsylvania Railroad, Cumberland Valley, Huntington and Broad Top railroads.

Wells' Health Renewer restores health and vigor, cures Dyspepsia, Indigestion, neuralgia, etc. Price, 50 cents. Pens, pencils, pen holders, ink, rubbers, mullage in great variety at the COLUMBIAN store.

Two Little Beauties. Among the large Philadelphia business houses that believe in the liberal use of printer's ink, few, if any, equal Bailey, Banks & Biddle in the taste and elegance of their methods. Two little pamphlets, entitled respectively Gems and Watches, which we have just received from them, are not only beautifully gotten up, but are former in maroon and gold, and the latter in green and gold—but are really interesting accounts of precious stones and watches from the earliest times.

Value of Advertising. One of the wealthiest business men of Cincinnati, Mr. Burkhardt, recently made an address before the Commercial Club, of that city, and said, in the course of his remarks, "I have taken thirty years to reach without advertising. In truth, it is doubtful if I could have at all attained the results I have without the aid of newspapers. Certainly the great newspapers are cheap, and a medium for making your trade known to the greatest number of people. Printed circulars may possibly reach a thousand persons whose names you know, your old customers. Your announcement in a leading journal will reach a hundred thousand whom you never heard of. New dealers coming into the field will see your name and business and know where to find you. Your standing advertisement is a standing notification to buyers that you are alive and there. It is a perpetual letter of introduction for your traveling salesman. He has only to mention your name for the country merchant to say, 'Oh, yes, that's the 'Diamond Hat' man, isn't it?' or 'That's the 'Rock and Bye,' ain't it?' It will be as good as to have your name written on a sign that he never heard of, or, having heard of it, though you were long since dead.—Type's Guide.

On Tuesday morning about nine o'clock the spirit of Miss Maude Freese, only daughter of Col. and Mrs. J. G. Freese, passed quietly away and she was released after most painful illness. She was a native of Columbia county, last Tuesday. Mr. Arnold is a resident of Shickleshiny and hearing that a reward was offered for the capture of Wall, he secured the necessary papers and made the arrest, brought the prisoner here and delivered him to the Sheriff, but as there was no reward offered for his capture, Mr. Arnold had his trouble for his pains. Sheriff Eaton, however, from the goodness of his heart, paid out of his own pocket the actual expense that Mr. Arnold had been in bringing Wall here.—Lackawanna Standard.

The Riots Incurred in Traveling in Railway Cars. During the past year seventeen passengers were killed on the railroads in this State and 87 injured; 383 employees killed and 1,201 injured. The passenger mileage during the same time was 31,500,403, so that 1,884,883 miles were covered by passenger trains for every one killed, and 400,103 for every passenger injured. Allowing only 50 passengers to a train, it will appear that a passenger's chances of being killed are about one in a hundred million miles in other words, if a passenger had no more good luck than was allowed him by the theories of chances, he might travel every 400 years at the rate of 600 miles in every twenty-four hours before it would come his turn to be killed. From all which it seems that the insurance companies have a good thing when they take risk upon railway passengers.

Telephone Workings. The telephone is by no means a perfect instrument, and there is scarcely a doubt that improvements will be made in it for years to come. The managers of exchanges are not to blame for the frequent short comings of the instrument. The wires are affected by atmospheric changes and occasionally a message in course of transmission by one wire, is taken up by another even when they are some distance apart. An instrument that gives perfect satisfaction on one day will refuse to do its work the next. Very often persons wishing to use the telephone, are annoyed by the vibration of the wires, causing a rumbling sound that prevents the words of the speaker from being heard. It is possible, probable perhaps, that most of these faults will be eventually overcome. But in the meantime it will be well for subscribers to bear their annoyances with what grace they may, and trust to the inventive genius of electricians to perfect the instrument. The exchange people are sometimes blamed for what they cannot prevent.—Ez.

Ferns for House Decoration. July and August is the most favorable time for gathering ferns, as they are then at their best. In pressing the indispensable requisites to a good result are a sufficient quantity of paper, a perfectly even pressure and a proper degree of weight. The paper should be of a soft, porous nature and unglazed. Blotting paper is considered best, but newspaper will do very well. NEWS ITEMS. A meeting of the executive committee of the National Greenback Labor party will be held in Pottsville on Monday next, July 21. William Wilson, of Milton, aged about fifty-five, committed suicide on Friday night last, by drowning himself in a rain barrel, head downward. In sanity is probably the cause. He leaves a wife and seven children. The strikers on the Sunbury, Shamokin and Lewisburg railway resumed work on Saturday last. Forty of them were hired at the old wages, the remainder were paid off and discharged. In the absence of John Wolf, farmers wanting farm machinery will please call at W. B. Allen's. If the lady who sends this card when in want of Spool Cotton will ask for the "O. N. T." she will obtain the very best thread made. Ask for Clark's "O. N. T." Cotton and see that you get it. For sale by all leading dealers. "RECHUPAHA." Quick, complete cure, all annoying Kidney, Bladder and Urinary Diseases. \$1. Druggists. "BOUGH ON RATS." Clears out rats, mice, roaches, flies, ants, bed-bugs, skunks, chipmunks, gophers, etc. Druggists. New styles of calling cards and card type just received at the COLUMBIAN office.

The Reunion at Gettysburg. It begins Saturday, July 22nd and will continue one week. In grand historical interest it is only second to the battle itself. Survivors of the fight on both sides, their children and friends, as well as curiosity-seekers will be numerous there. It is the grand reunion, not only of those people, but of various Army associations from different sections of our common country. Jackson Post, G. A. R. Berwick, Hoagland, Catawissa, and Goodrich are going in strength. Among others from Gen. Post who will attend are, expected and promised, as follows: Capt. Samuel Watters, Col. S. Knorr, Capt. Samuel Watters, Capt. H. J. Conner, Capt. C. B. Brockway and wife, B. F. Sharpless, J. W. Masteller, S. J. Pealer, L. D. Lase, Richard Stiles and daughter, Chas. Forward, A. B. Beidleman and daughter, Samuel Anderson, Wm. H. Swentzell, Wm. J. Correll, S. Furman, S. L. Potter, wife and son, and E. W. H. Carter, Jr. The fare for the round trip is less than \$4.00.

Men who work horses. Men who work horses of great muscular exertion is required during the hot weather or who are exposed to the intense rays of the sun are still able to protect themselves and can insist on those who direct them to have a care for their health. "Man's inhumanity to man makes countless millions mourn," is an aphorism full of sublime meaning in its application to the horse. The more brutal, because his equine companion can make no protest to the cruelty and demand no relief from the oppressor. Next to man, the horse is the noblest and most useful animal that walks the earth. It bears our burdens, increases our commerce, delivers messages, moves the pomp of public displays, insures pleasure in fighting our battles, and in insuring peace. Man's obligation to the horse is incalculable. Let him discharge it like a man. Be just and fair to your horse in hot weather. Be watchful of his health when the heat is great. Never allow him to stand in the rays of the sun if you can possibly avoid it. Don't over-work him. Look to his food and drink with scrupulous care. Never let him when the surface of his body is in a foam of perspiration. Don't add your own burden to the pile when he is pulling a heavy load. These are simple things, but they concern the horse, and we speak for the brute who cannot talk for himself. During such weather as that of the past few days the horse deserves special attention.—Ez.

FOR THE COLUMBIAN. Reunion of the "Iron Guards." Pursuant to a general invitation a number of the survivors of Co. "A," 6th Regt. Pa. Reserve Vol. Corps, met at the office of C. B. Brockway on Friday, July 14th last. The object of the meeting was not only a social reunion and welcome to Samuel Watters formerly Captain of the Company, but also to form an organization for the future. Owing to the shortness of the notice and the fact that many of the comrades were in the harvest fields or scattered abroad, a limited number were present. An organization was effected by electing Capt. Samuel Watters President, Col. Samuel Knorr Vice President, and Sergeant Geo. W. Mears Secretary. The statistics of the Company so far as obtainable, are as follows: Total enlisted 110 Killed in action 14 Wounded 33 Discharged for disease 10 Died of date from disease 21 Supposed to survive 32 The most of the day was passed in recalling old times and scenes.

Thousands of dead fish are taken out of the Schuylkill river daily, and the people of Philadelphia and towns supplied from that stream are becoming alarmed at the bad condition of the water. Edward Monaghan and John Morris two Mollie Maguires who have served a term of five years and nine months in prison, were discharged on Saturday last. They were charged with conspiracy to kill William Major, and were sentenced for seven years; but for good behavior their term was reduced one year and nine months. Chairman McKee issued a call on Friday last for a meeting of the Independent Republican State committee at Philadelphia on the 27th. Prof. George W. Atherton, of Rutgers College, New Jersey, has announced his acceptance of the presidency of the Pennsylvania State College, and will enter on his duties immediately, though he may possibly be obliged to spend part of the autumn session at Rutgers, pending the selection of his successor there. Forney's Progress reports that Dr. Evans, a native of Lancaster county, now settled in Paris, is said to be the best dentist in the world. Dr. Byng, a Chester county, also practicing in Paris, stands second. The following named persons died from lockjaw on July 15th, the effect of toy pistol wounds received July 4th: James Roads aged thirteen died at Pottsville; James McAllister of Centre, died; R. I. aged fifteen; Rufus Shaw, at Westboro, Mass. aged seventeen; John Goodwin, aged fourteen, son of ex-Councilman Goodwin. Mrs. R. I. Alexander, of east Greenwich, R. I. died on July 12, from the same cause. Passenger locomotive engineers on the Pennsylvania railroad are paid by the trip, and can average \$125 per month. Engineers on freight trains average from \$90 to \$100 per month, and firemen receive \$50 per month. Gold fish inhabit the Delaware between Easton and Trenton, in considerable numbers, and are often taken in the nets of fishermen. They belong to the carp family, but have little merit as a food fish, and are more ornamental than useful. The Germantown Telegraph says they are the descendants of those which inhabit the Schuylkill. They originally got into the river by the breaking away of a pond on Lehigh Hill, Fairmount, the residence of Mr. Bartram, who imported the fish from China. A duel was fought in Lanesburg county, Virginia, on Friday last, between Joseph Addison of Baltimore, and Richard Garland of Lanesburg county. The duel was fought at a distance of six feet. Addison's pistol was the first to fire, and he only fired once, the bullet striking Garland in the wrist. Garland fired five times, one shot taking effect in Addison's stomach. He died in five o'clock the next morning. John L. Sullivan, of Boston, and "Tug" Wilson, the English champion, fought in Madison Square garden on Monday night. Sullivan had made a challenge that he would give any one \$1,000 who would start before him for four rounds of three minutes each, allowing one minute between each round. In the first round Sullivan knocked Wilson down nine times, but he succeeded in getting up each time within the ten seconds allotted to him. In the second round he was knocked down eight times. He succeeded in getting in several blows on Sullivan and once or twice drew him on top when he fell. In the third round he was knocked down five times, but each time quickly regained his feet. The last round was a desperate one. Sullivan's father, James Wilson, knocked him off his feet five times, but each time he quickly rose again. At this time the fifteen minutes expired, and the two shook hands and left the ring. Both men met at Harry Hill's and Hill paid the \$1,000 to Wilson.
