A Senator Nominated.

The senatorial conference met at Williams-
port on the 30th. Lyman B. Spunker was
the candidate of Sullivan county in place
of James Deegan who died. A great many
ballots were taken, and several adjourn-
ments had until Tuesday afternoon when
the candidates released their conferees
from instructions and W. W. Hart of
Lycoming was nominated on the 35th bal-
lot.It is no use talking, says Brown, when

from Esopus:Workmen are busy rebuilding the
Methodist Episcopal church in this place.
The old church will be taken down except the
bare frame. This will be enlarged by
plans furnished by Jacob Snyder, archi-
tect, Akron, Ohio. Wm. Carter, Bloom-
sburg, is the contractor. If the builder
gets a clear conception of the architect's
idea, and realizes it in the building, we
will have one of the most complete
churches for preaching, social and Sab-
bath school services, at the same time one
of the most beautiful village churches in
the State.The crowd during Fair will be found
looking at the Fall and Winter goods at

A Professional Confession.

THE UNUSUAL EXPERIENCE OF A PROMISE-
MADE PUBLIC.The following article from the Democrat
and Chronicle, of Rochester, N. Y., is of
striking nature, and emanates from so
reliable a source, that it is herewith re-
published entire. In addition to the valuable
matter it contains, it will be found exceed-
ingly interesting.

To the Editor of the Democrat and Chronicle:

Sir:—My motives for the publication of
the most unusual statements which follow
are first, gratitude for the fact that I have
been saved from a most horrible death,
and, secondly, a desire to warn all who
read this statement against some of the
most deceptive influences by which they
have ever been surrounded. It is a fact
that to-day thousands of people are within
a foot of the grave and they do not know
it. To tell how I was caught away from
just this position and to warn others against
nearly it, are my objects in this communi-
cation.On the first day of June 1881, I lay at my
residence in this city surrounded by my
friends and waiting for my death. Heaven
only knows the agony I endured, for words
can never describe it. And yet, if a few
years previous, any one had told me that I
was to be brought so low, and by so terrible
a disease, I should have scoffed at the idea.
I had always been uncommonly strong
and healthy, had weighed over 200 pounds
and hardly knew, in my own experience,
what pain or sickness were. Very many
people who will read this statement re-
laxed at times that are unusually tired and
cannot account for it. They feel dull and
indefinite pains in various parts of the
body and do not understand it. Or they
are exceedingly hungry one day, and en-
tirely without appetite the next. This was
just the way I felt when the relentless malady
which had fastened itself upon me first
began. Still I thought it was nothing;
that probably I had taken a cold which
soon passed away. Shortly after this I
noticed a dull, and at times a neuralgic,
pain in my back, but as it would come and
go, and be gone the next day, I paid but little
attention to it. However, my stomach was
out of order, and my food often failed to
digest, causing at times great inconvenience.
Yet I had no idea, even as a physician, that
these things meant anything serious or
that a monstrous disease was becoming fixed
upon me. Cautiously, I thought I was suffer-
ing from malaria, and so doctored myself ac-
cordingly. But I got no better. I next
noticed a peculiar cold and odor about the
fluids I was passing—also that there
were large quantities one day and very
little the next, and that a persistent froth
and scum appeared upon the surface, and
a sediment settled in the bottom. And yet
I did not realize my danger, for, indeed,
seeing these symptoms continually, I finally
became accustomed to them, and my sus-
picion was wholly disarmed by the fact
that I had no pain in the affected organs
or in their vicinity. Why I should have
been so blind I cannot understand.There is a terrible future for all physical
neglect, and impending danger always
brings a person to his senses even though
it may be too late. I realized, at last, my
critical condition and aroused myself to
overcome it. And, Oh! how hard I tried!
I consulted the best medical skill in the
land. I visited all the prominent min-
isterial springs in America and traveled from
Maine to California. Still I grew worse.
No two physicians agreed as to my malady.
One said I was troubled with spinal irrita-
tion; another, nervous prostration; another,
heart disease; another, general debility;
another, congestion of the base of the
brain; and so on through a long list of
common diseases, the symptoms of all of
which I really had. In this way several
years past during all of which time I was
steadily growing worse. My condition had
become pitiable. The slightest symp-
toms I at first experienced were developed
into terrible and constant disorders—
the little twigs of pain had grown to oaks of
agony. My weight had been reduced from
207 to 130 pounds. My life was a torture to
myself and friends. I could retain no food
upon my stomach, and lived wholly by
injections. I was a living mass of pain.
My pulse was uncontrollable. In my agony
I frequently fell upon the floor, convulsive-
ly clothed with the carpet, and prayed for
death. Morphine had little or no effect in
deadening the pain. For six days and
nights I had the death-premonitory hic-
coughs constantly. My urine was filled
with tube casts and albumen. I was strug-
gling with Bright's Disease of the Kidneys
in its latest stages.While suffering thus I received a call
from my pastor, the Rev. Dr. Foote, rector
of St. Paul's Church, of this city. I felt
that it was our last interview, but in the
course of conversation he mentioned a
remedy which I had heard much but
had never used. Dr. Foote detailed to me
the many remarkable cures which had
been effected by his observation, by means of
this remedy, and urged me to try it. As
practicing physician and a graduate of the
schools, I cherished the prejudice both
natural and common with all regular prac-
titioners, and derided the idea of any medi-
cine outside the regular channels being the
least beneficial. So solicitous, however,
was Dr. Foote, that I finally promised Iwould waive my prejudice and try the
remedy he so highly recommended. I be-
gan its use on the 1st day of June and took
it according to directions. At first it
sickened me; but this I thought was a
good sign for my undisciplined stomach.
I continued to take it; the sickening
sensation departed and I was able to retain
food upon my stomach. In a few days I
noticed a decided change for the better as
also did my wife and friends. My hic-
coughs ceased and I experienced less pain
than formerly. I was so rejoiced at this
improved condition that upon what I had
given a course of lectures in the Corinthian
Academy of Music of this city, stating in
full the symptoms and almost hopelessness
of my disease and the remarkable means
by which I have been saved. My improve-
ment was constant from that time, and in
less than three months I had gained 30
pounds and was able to walk freely from
pain and I believe I owe my life and pre-
sent condition wholly to Warner's Safe
Kidney and Liver Cure, the remedy which
I used.Since my recovery I have thoroughly re-
investigated the subject of kidney diffi-
culties and Bright's disease, and the truths
developed are astounding. I therefore
state, deliberately, and as a physician, that
I believe that more than one-half the deaths
which occur in America are caused by
Bright's disease of the kidneys. This may
sound like a rash statement, but I am pre-
pared to fully verify it. Bright's disease
has no distinctive symptoms of its own,
(indeed, it often develops without any
pain whatever in the kidneys or their vicin-
ity), but has the symptoms of nearly every
other known complaint. Hundreds of peo-
ple die daily, whose labors are authorized
by a physician's certificate of "Heart Dis-
ease," "Apoplexy," "Paralysis," "Spinal
Complaint," "Rheumatism," "Pneumonia,"
and other common complaints, when in
reality it was Bright's Disease of the Kid-
neys. Few physicians, and fewer people,
realize the extent of this disease or its dan-
gerous and insidious nature. It steals into
the system like a thief, manifests its pre-
sence by the commonest symptoms, and
fastens itself upon the constitution before
the victim is aware. It is nearly as heredi-
tary as consumption, quite as common and
fully as fatal. Entire families, inheriting
it from their ancestors, have died, and yet
none of the number known or realized the
mysterious power which was removing
them. Instead of common symptoms it
often shows none whatever, but brings
death suddenly, and as such is usually sup-
posed to be heart disease. As one who
has suffered, and knows by bitter experi-
ence what he says, I implore every one
who reads these words not to neglect the
slightest symptoms of kidney difficulty.
Certain agony and possible death will be
the sure result of such neglect, and no one
should so lightly hazard such chances.
