Ex-county commissioner John Herzer died on Friday last, after a long illness, and was buried at Numidia on Tuesday. Mr. Herzer was a prominent man in his community, and was well known throughout the county, having been commissioner of the poor for two terms. His age was about sixty-five years.

The etymology of "masher" is traced to the enthusiastic respectable Beaumont and Fletcher, one whose play was "The Masher in a Foot-note," where the word is explained in a footnote to be an old form of "Mashed."

A Mississippi jury awarded \$2000 damages to a young lady whom a railway conductor had forced to put off at the station where she wished to alight. She was carried only two hundred yards beyond her destination.

The project to annex the lower portion of Luzerne to Carbon County, seems to meet with the approval of the inhabitants of Lower Luzerne. They say all business connected with the Courts can be attended to more promptly and less cost than under the present arrangement.

The destruction of the Planter's Hotel at St. Louis by fire Monday morning is another warning to the proprietors of public houses. A hotel which cannot afford to guard against fire has no reason for existence.

Governor Bullock recommends in his message a law making plots to derail a train punishable by death. The one objection to such extreme penalties is that juries refuse to convict. A penalty of fifteen or twenty years imprisonment, which, on the average, lasts longer than a life sentence, would prove more effectual in preventing these crimes.

The people of Catawissa are exercised for fear a free bridge will be erected at Bloomsburg, and a notice has been published asking all persons who are opposed to a free bridge, to meet here on the 22nd inst., when the views appointed to view the ground will consider the matter. Just to make it lively, how would it do for all those who favor the bridge to meet at the same time!

Quite a fire-wave has struck the country. Not a day passes but we read of some more or less damaging fire by which many human beings are either killed or frightfully injured. A terrible holocaust is recorded by wire from St. Petersburg, on the 14th inst., whereby one hundred and fifty persons were burned while attending a circus at Bardsheiff in Russian Poland.

From the statement of the valuation of personal property of this county as published, it appears there are 2918 dogs. This is enough for all practical purposes. Dogs appear to be much more numerous than watches, as only 81 of the latter have been found worth assessing. In Bloomsburg there are only 20 watches worth \$20 and upwards, according to the assessors' return.

One of our exchanges relates the following incident: "A Constable made a return on the back of a paper, thus: 'I executed this subpoena by trying to read it to John Smith, but he was drivin' cattle on horse back, and I can't find the cow, and kept up such a hollerin' I don't know whether he heard or not, this is the best I could do and I don't know whether the subpoena is served according to law or not.'"

In 1883 there will be four eclipses, two of the sun and two of the moon. On April 22, there will be a partial eclipse of the moon, which will be visible on the Pacific coast. The next eclipse will be that of the sun on May 6; it will not be visible in this country. The third is that of the moon on October 16, and can be seen all over the United States. The last is that of the sun and occurs on October 30, and will only be partial on the Pacific coast.

The first lecture of the course was delivered by Rev. Dr. Eccleston of New York on Thursday evening, the 11th inst. The Opera House was well filled and the audience listened very attentively to the interesting discourse. As the subject was an old and familiar one, the "War of Independence," the speaker began by saying that he did not expect to say anything new, but simply to recall some facts which his hearers had forgotten. He gave a vivid description of the trials and struggles of our forefathers, and accompanied it with excellent illustrations on canvas, by means of the oxy-hydrogen light. We understand that H. Joseph Cook, the celebrated Boston lecturer, has been engaged by the committee.

WANTED.—By Z. T. Fowler of Willow Grove, Pa., 50,000 bushels of wheat at \$1. per bushel. Jan. 19, '83-4w.

It is pleasing to see how our farmers make use of the sleighing. George Shuman, an old resident of this place, died on Saturday evening 6th inst. He was as well as usual in the forenoon, was up town and did the work about the barn. He was taken ill at the dinner table complaining of severe pain in his head. He arose from his chair and lay down on the floor, was placed on a bed and the doctor being called in he became better during the afternoon but about five o'clock he became worse and died soon after seven. He was about seventy-seven years old. Always a regular attendant at church, was at the usual service for the last time on Sunday before, being the last day of the year. His remains were buried on Tuesday.

A protracted meeting has been in progress at the M. E. Church for some time. The attendance is good. Geo. Rev. Feggy of Lewisburg preached in the Lutheran church on Sunday. Mrs. Sallie Brown, who lived in this township for many years, died in Centre township on Friday last. She moved with her husband to this place from New Jersey many years ago. After her husband's death she lived with her son-in-law, S. H. Swank. She died at the age of ninety-seven years within a few days. She was favored with unusual health; at the age of 94 she had never taken any medicine. Had seen but very few sick days since. She was unable to work last September she suggested to her great-granddaughter a walk to Neasecock in Milfin, which would not have been unusual for her to do. She has several great-grandchildren one of which is married. Not many people like Mrs. Brown have the pleasure of being invited to the wedding of their great-grandchild. Her remains were interred at the Milfin cemetery on Sunday.

Our friends P. and S. Shuser of Hazleton visited friends at this place on Saturday and Sunday. John Wells Hollenback of Wilkes-barre, Pa., last week presented \$20,000 to Lafayette College to endow the chair of President, a similar gift was made by him to the College a few years ago.
