

Causes for Apprehension.

WHY MYSTERIOUS PHYSICAL TROUBLES AROUSE SPECIAL DREAD—A PROFESSIONAL EXPERIENCE. Few things give more pain than dread or apprehension. Most people are able to face apparent danger heroically, but the sudden and unexpected coming of some indefinite calamity very naturally strikes terror to even the bravest. For this reason lightning and tornadoes are considered terrible; their coming and going are so sudden, unannounced and unknown. For this same reason an unknown disease, some poison in the blood, some malady that is gradually undermining the life, is specially dreaded by all thinking people. And, indeed, there are good reasons for such dread, for modern science has discovered that some virulent disorders show the least signs of their beginnings, while they have the worst possible symptoms. We know of many persons who have dull and uncertain pains in various portions of the body; who are unaccountably tired one day and apparently well the next; who have an enormous appetite at times and a loss of food soon thereafter. Such persons are really in a dangerous condition, even though they may not realize it. The following statement of a most prominent physician, who has had unusual opportunities for study, investigation is of an striking and important nature that it will be read with interest by all:

ASSOCIATED CHARITIES OF CINCINNATI. Board of Directors. Joseph A. M. D., Julius Reis, Joseph Baker, Jr., H. A. Smith, M. D., Mrs. M. E. Ford, Daniel C. Miller, Dr. George Hunter, Rev. C. W. Wendle, F. Lunkenheimer, Daniel Wolf.

Office: No. 27 West Eighth Street, O. Anderson, M. D., Superintendent. Cincinnati, O., Dec. 2, 1882.

Measles. Editors: I have, during my professional career of many years' practice, treated a large number of various disorders, of which, perhaps, none have given me more trouble than the subject of measles, known as acute nephritis; and while it may seem strange, it is, nevertheless, true, that the physician is generally annoyed by this mysterious trouble, especially when the case is of hereditary origin. It is, doubtless, the first stage of the well known, but hereditary Bright's disease, as the kidneys contain large quantities of albumen; and while children and young people are especially liable to its attacks, it is prevalent with all classes, and usually continues until late in life.

One obstinate case which came under my observation, that of a first man of this city who applied to me for treatment. The case was diagnosed parenchymatous nephritis. The man was twenty-four years of age; plethoric and light complexioned. He stated that he had suffered from urinary trouble from childhood, and that he had been "doctored" a hundred times, each time improving some; after which, in a short while, he would relapse into his former state of misery. I prescribed the usual therapeutics known to the profession with same result, my colleagues had obtained no better results for a while and then worse again, in fact, so bad that he had to lay off for some time. He suffered intense pain; so much so that I confess I had to resort to hypodermic injections of morphia. My drugstore who knew how disgusted I was with these cases, although not willing to desert the man, advised me to try a remedy from which he (the druggist) himself had derived great benefit. As a drowning man catches at a straw, I prescribed this remedy, not letting my patient, however, know what I was giving him; and although not a believer in patent medicines, I must confess that after my friend had taken one bottle he grew much better. I made him continue its use for a period of two months, with the most gratifying results; it really worked wonders and he owes his present recovery to its health-giving to the remarkable power of Warner's Safe Kidney and Liver Cure, the remedy which I prescribed, and he used.

Since the recovery of the man above mentioned, I have given considerable thought to the subject of acute nephritis, or kidney difficulty, and I find that its manifestations are most remarkable. It often appears without any special symptoms of its own, or possibly as a sequel to some other disease. It may be a sequel to scarlatina, diphtheria and other diseases, and even arises from pregnancy. The first symptoms frequently show themselves in the form of high, fierce and intense pains in the lumbar region, "the small of the back," troublesome micturitions and frequent changes in the color of the urine which is entirely perceptible. If the urine is entirely suppressed, the case, probably, will terminate fatally in a very few days. Dropsy is a consequence of the suppression of urine, and the severest of it is governed by the proportion of retention. The urine provokes system becomes prostrated with weakness, convulsions and irregular circulation of the blood, which, in my estimation eventually might cause a diseased heart to give out. As I have remarked, in many kidney diseases—yes, even in Bright's disease—there is no perceptible pain in the back, and these troubles often assert themselves in various symptoms—for instance, in troublesome diarrhoea, blood poisoning, impaired eyesight, nausea, loss of appetite, disordered digestion, loss of consciousness, a lanky voice and many other complaints too numerous to mention. Indeed thousands of people are suffering from the first stages of Bright's disease to-day, and they do not know it.

In conclusion, I would like to state that I have, since my success with the Safe Kidney and Liver Cure, and if my professional brethren could only be brought so far as to overcome their prejudice against proprietary medicines they would, undoubtedly, find themselves recompensed for their supposed sacrifice of liberty, as well as by the great benefits that would accrue to the world.

O. ANDERSON, M. D., Superintendent.

The Secretary of the Treasury has authorized the coinage of a five-cent nickel piece of a new design, which is considered as being more in compliance with the law as regards weight and inscriptions than the present five-cent nickel piece. The new coin weighs twenty-one millimetres (which is one millimetre more than the present coin) and is a little larger and thinner than the one now in circulation. On the face of the new coin is a female head surmounted with a fillet upon which is inscribed the word "Liberty," the whole being surrounded by thirteen stars. The reverse side contains a wreath surrounding a Roman numeral representing the denomination of the coin.

The Bible in Japan.

Recent letters from the Agent of the American Bible Society in Japan convey intelligence which is indicative of the rapid progress of Christianity in that empire. It is to the effect that a number of Japanese Christians had presented a formal and earnest appeal to be allowed an active part in the work of translating the Old Testament. They speak of the translation of the bible as a great work and far-reaching in its consequences; of the blessings which had come to them through the New Testament which had been already published and widely circulated; of the severe evils which would ensue if the remaining work was not wisely done; and of the want of uniformity in style which would be sure to mark a translation which was produced by the labours of many different scholars working apart. They therefore submit a plan, the substance of which is as follows:

- 1. That the whole work be given to one translating committee instead of the different books to individual translators.
2. That the committee be composed of eight members, four of whom shall be foreigners and four Japanese.
3. That the Japanese members be chosen by Japanese Christians.
4. That the foreigners and Japanese members have equal rights in coming to the work.
5. That means be furnished to enable the members to devote their whole time to the work.
6. When it is remembered that it is only a few years since Christians were permitted to enter Japan, such action as this is truly astonishing, and must awaken the most profound gratitude.

A Baptist Minister's Experience.

I am a Baptist Minister, and before I even thought of being a clergyman, I graduated in medicine, but left a lucrative practice for my present profession, 40 years ago. I was for many years a sufferer from quinsy; "Thomas' Electric Oil cured me." I was also troubled with haemorrhoids, and "Thomas' Electric Oil" always relieved me. My wife and child had diphtheria, and "Thomas' Electric Oil" cured them, and if taken in time it will cure seven times out of ten. I am confident it is a cure for the most obstinate cold or cough, and if any one will take a small teaspoon and any one will take the Oil, and then place the end of the spoon in one nostril and draw the Oil out of the spoon by sniffing as hard as they can, until the Oil falls over into the throat, and practice that twice a week, I don't care how offensive their head may be, it will clean it out, and cure their catarrh. For deafness and earache it has done wonders to my certain knowledge. It is the only medicine dubbed patent medicine that I ever felt like recommending, and I am very anxious to see it in every place, for I tell you that I would not be without it in my house for any consideration. I am now suffering with a pain like rheumatism in my right limb, and nothing relieves me like "Thomas' Electric Oil."

Dr. E. CRANE, Corry, Pa.

Who Struck "Billy"?

The phrase "Who struck Billy Patterson?" is said to have originated during a melee in the early days of Franklin county, Ga., when a wealthy merchant of Baltimore, rejoicing in that euphonious cognomen, was struck from behind while trying to make peace among the combatants. Mr. Patterson immediately called out in a tone that showed him to be fighting mad, and repeated the demand with an offer of \$100, and finally as much as \$1,000, for the desired information which was not, however, forthcoming, as the angry man is reported to have been "as strong as a bear and as brave as a lion," though ordinarily of a very peaceable disposition. Years afterwards in his will, he related the above facts, and bequeathed \$1,000 to be paid by his executor to the man who would tell "who struck Billy Patterson." His will is recorded in the ordinary office at Carnesville, Franklin county, Ga., and the matter came there first and verify the preceding statements—Lancaster Intelligence.

How Pipes are Made.

The process of manufacturing meerschaum pipes requires both skill and practice. The blocks are first roughly cut into the shape of a pipe. They are then dipped into water, and while wet are turned on a lathe. The eye is the only guide to produce evenness and symmetry. After the latter has completed his work, the pipes are rubbed smooth, a red with a fine velvety surface being used as a file. When all the scratches are removed, and a perfectly smooth surface is presented, the article is dipped in hot wax, left a few minutes there, and then polished with a rag. Right here is a point for smokers. When purchasing a meerschaum article always select one having a yellow tinge. A yellow shade shows that the meerschaum is sufficiently porous to absorb water, and, therefore, will readily color from nicotine. A white meerschaum pipe or cigar holder shows density sufficient to resist absorption. The best article is not too yellow, but what may be termed just yellow enough.

Writes: "With a firm, steady hand (not a trembling one), though my age is nearly eighty, I give my testimony to the value of Burdock Blood Bitters; for twenty years I suffered torturing indescribable through dyspepsia, indigestion and constipation. I tried hundred of remedies, but all was money thrown away until I tried your bitters. I give you Burdock the credit for making me strong and hearty. Price \$1.00.

It is claimed that about eight hundred of the clerks recently taken into the pension office on trial are to be discharged for inefficiency. The large number of inefficient, but if a general weeding of the departments takes place and civil service reform is carried out in good faith, the number will, no doubt, be largely reinforced. The practice of rushing into the departments political favorites in the train of members of Congress, without qualifications, has stocked a large field that needs pruning.

For the year 1883, days and dates of important events, anniversaries and holidays will fall as follows: Ash Wednesday, Feb. 7th; Valentine's Day, Wednesday, Feb. 14th; Washington's Birthday, Thursday, Feb. 22nd; St. Patrick's Day, Saturday, March 17th; Good Friday, March 23rd; Easter Sunday, March 25th; Independence Day, Wednesday, July 4th; Thanksgiving Day, Thursday, Nov. 29th; Christmas, Tuesday, Dec. 25th.

LEWISBURG UNIVERSITY IS LOCK—Mr. Wm. Bucknell, of Philadelphia, a generous supporter of many public institutions, has handed to the board of trustees of the University at Lewisburg, Pa., a check for \$100,000, including his own subscription of \$50,000, which was made on condition that \$50,000 more should be secured.

Elisha W. Davis, formerly a member of the Pennsylvania Legislature from Crawford county, and subsequently from Philadelphia, is now a member of the Colorado Legislature and speaker of the House of Representatives.

No man should ever be offended at the presentation of a bill for amounts due. It is business and no business man who has given other credit should fail to present them to all in arrears at least once in a year.

George L. Huston, of Parkersburg, Chester county, is building a house of iron upon a foundation of solid rock. The floors represent tiling, and the walls are hollow, the space between them to be used instead of chimneys. The builder states that hot air and smoke passing from furnaces between the walls will be sufficient to warm the building in the severest weather.

There were 9 tons of postage stamps, 52 tons of envelopes, 1134 tons of postal cards and 17 tons of newspaper wrappers sold at the New York post office in 1882. The sum altogether derived from postage at that office was \$4,238,575.29.

UNREASONABLE EXPECTATIONS.

It has become so common a thing to complain of the lack of appreciation, gratitude and affection, that we are in danger of forgetting that the claims made for these desirable things are often most unreasonable. It is, of course, very pleasant to enjoy the good opinion of others—to be conscious that they recognize our services, honor our efforts and thank us for our labors; but when we set our claims for all or any of these—when we demand them in our hearts and feel aggrieved and defamed when they are not rendered—the injustice is almost sure to be upon our own side, in requiring that to which we have no right.

The unshell can never be really young. They may be uncouth, but they cannot be more; while the best "top dressing" of manner to be found in the whole world cannot make the substance refined when the one foul cancer of egotism and indifference to others lies at the heart of things.

Every winter adds a thank-you-murmur to the forehead, and leaves additional snowflakes in the hair.

The End and Worthless. Are never initiated or counterfeited.

This is especially true of a family medicine, and it is positive proof that the remedy inhaled is of the highest value.

As soon as it has been tested and proved by the whole world that pop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprung up and began to read the notices in which the press and people of the country extolled the merits of H. B. and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B.

As many others started nostrums put up in similar style to H. B. With various cunningly devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as pop Bitters. All such pretended remedies or cures, no matter what their style, or name, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits.

Beware of them. Touch none of them, but use nothing but genuine pop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

Speer's Port Grape Wine!

FOUR YEARS OLD. THIS CELEBRATED NATIVE WINE is made from the juice of the grape grown, raised in this country. Its characteristics are: Tonic and Strengthening Properties.

are unsurpassed by any other Native Wine. Being the pure juice of the grape, produced under the most favorable conditions, it is pure and genuine, and is guaranteed to be the best and most valuable medicinal wine that can be made. It is particularly adapted to the aged and infirm, and is especially valuable in cases of indigestion, dyspepsia, and general debility. It is sold by all druggists and grocers.

SPER'S P. J. Sherry.

THE P. J. SHERRY is a wine of Superior Quality, and of the highest character. It is made from the purest grapes, and is especially adapted to the aged and infirm, and is especially valuable in cases of indigestion, dyspepsia, and general debility. It is sold by all druggists and grocers.

SPER'S P. J. Brandy.

THIS BRANDY stands unrivaled in this country being far superior to any other. It is made from the purest grapes, and is especially adapted to the aged and infirm, and is especially valuable in cases of indigestion, dyspepsia, and general debility. It is sold by all druggists and grocers.

PAYNE'S Horse Spark-Arresting. Portable lamp has an 1800 ft. of Michigan Pipe (4 in. dia.) burning 100 lbs. of gas in 100 ft. length.

KIDNEY WORT HAS BEEN PROVED THE SUREST CURE FOR KIDNEY DISEASES. Ladies. For complete particulars send for our circular. Sold by all druggists.

BLOOD BITTERS. Cures Scrofula, Erysipelas, Pimples and Face Glands, Rheumatism, Headache, Dropsy, Hemorrhoids, Salt Rheum, Scald Head, Sores, Mercurial Poison, etc. FOSTER, MILBURN & CO., Prop's, Buffalo, N.Y.

CATARH. Ely's Cream Balm. Ely's Cream Balm is a powerful remedy for all cases of Catarrh of the Eye, Ear, Nose, Throat, and Lungs. It is sold by all druggists.
