A Woman Hermit.

LIVING IN A TURKEY PEN WITH THREE NARED AND SAVAGE CHILDREN.

There has been discovered a most pitiable case of squalor and destitution at Cumberland, Maryland. A woman who is a daughter of Wesley Clark, a farmer living in the mountains South of Lonaconing, was found living as a squatter in the mountains in a turkey pen with three children, all in a pitia-ble state of destitution and filth. The dwelling was an enclosure built of logs, eight by ten feet, and so low that an ordinary-sized man had to stoop in entering. There was no floor, and the they occurred. He was thinly clad, twisted his limbs most strangely as he walked, and looked before him with a vacant stare. Just before the cripple reached the brisk pedestrian he stumbled, thus dropping one bundle, which broke and emptied a string of sausages on the sidewalk. The richly dressed ladies (?) near by held back their silken skirts and whis pered quite audibly, "How horrid!" while several passed by amused by the boy's look of blank dismay, gave vent to their feelings in a half suppressed laugh, and then went on without taking gion of the kidneys or in that p ortion further interest. In dumb astonishment the cripple handed all he held to the young Samaritan, and devoted himself to securing his cherished sausages. When these were again strongly tied pleasant words; but, looking at her with the same vacant stare, asked, "Be you a lady?" "I hope so; I try to be," was the surprised response. "I was kind of hoping you wasn't." "Why" asked the listener, with curiosity quite aroused. "'Cause I've seen such as called themselves ladies, but they never spoke kind and pleasant like 'cepting to grand uns. I guess there's two kinds them as thinks they's ladies and isn't and them as what tries to be and is."

A movement is on foot in Texas to accomplish what far-seeing men have long urged as an agricultural necessity of the future. It is to put an end to the absorption of small farms into large ones. Smaller farms within the working ability of the average farmer and more of them is the reform desired. The farmers of Harrison county, Texas, propose to divide their large plantations nto small farms, and to offer them to actual settlers on the installment plan, believing such action will soon convert idle lands into profitable farms and fill up the country with thrifty taxpayers.
