

John Welsh, a well known physician of Coaldale, near Tamaqua, was found dead by the roadside on the morning of the 17th inst.

The Danville blast furnaces are, of course, idle, and have been for a long time. These furnaces are of very little benefit to our town, and only present a gloomy appearance to the thousands of persons traveling by on the D. L. & W. railroad. The furnaces of the Messrs. Grove Bros., are out of blast—No. 2 furnace having been blown out last week. But, we learn, they will be put in readiness to be blown in again as soon as the demand for iron will be sufficient to warrant their running without loss.—*Danville Record.*

A new fraud is being perpetrated. A man calls at a residence and tells the lady that her husband has sent him to repair the clothes wringer. It is given him and he departs. Later he returns, claims to have inserted new rollers and otherwise repaired the instrument and asks \$2.50 for the job. This bill is paid and the husband upon his return is informed of the matter. He examines the machine and finds that the rogue has simply sandpapered the rollers to give them a new appearance. It is well to look out for him.

#### Decadence of the Clown.

The clown is no longer the most important person in the circus ring. His name is not printed conspicuously in the bills of the larger traveling shows, he is not permitted to hawk his song books, and often he is reduced to pantomime, the remotest rural audience having ceased to laugh at his time-worn jokes.

#### What the Supreme Court Says.

A supreme court decision just rendered puts a damper on the ambition of persons who, in the fullness of alcoholic stimulants, walk off of an embankment or other heights and kill themselves, or mayhap break a leg. Some time ago a man named Hill walked off a culvert in Scranton and broke his leg. He sued the city of Scranton, and though the local courts gave him damages, the higher courts reversed the judgment. The principle laid down by the supreme court is that a road safe for a man in possession of his senses is a safe road, and no damage can be recovered by any one who walks off a culvert while drunk.

#### The Itinerancy.

This promises to be a perennial source of controversy in the Methodist Episcopal church. The agitation for a change in the present method of allotting pastors has broken out afresh, and will probably continue until the meeting of the General Conference of that church in Philadelphia, next spring. New York appears to be the pivotal point of the new agitation, which is led by a number of eminent divines and wealthy laymen. Two plans are proposed for meeting the objections made to the present system. One is, to permit a minister to remain in one charge for five years, if the congregation so desire it, instead of being limited to three years, as at present. The other is to abolish the limit rule altogether, and thus practically adopt the system recognized by other denominations. Both sides of the controversy are ably championed, and it will be a nut not easily cracked by the General Conference to the satisfaction of all parties.

GRAFTON, Fillmore Co., Neb.,  
EDS. COLUMBIAN:—

The farmers of this place and York county are very busy at present planting corn. They will about finish up by the twentieth of this month. They are planting from 75 to 300 acres. They plant with the check rower or lister, from 15 to 25 acres per day. Some corn is up now. The weather has been very cold here this Spring, but the prairie grass is up where it was burned in March, as high as 15 inches. So you see that the cattle are doing fine. We had two hail storms here this Spring; froze ice on the 23rd of April; there was a white frost on May 5th, but the weather is moderating and is now very warm. The farmers think the prospects are the best this Spring that has been for several years. The wheat, rye and oats are looking fine. The wild geese have left, they were very numerous until of late—about as full as the pigeons out East. The duck is still abundant in the Green river. I have been capturing quite a goodly number of them; prairie pigeons are now very plenty—they have a bill long like a snipe. I sent back East to C. W. Ammerman and he sent me a hoop net; since I received it I have caught over 300 pounds of bull heads, which are very ready sale at 8 cts. per pound. I set the net last evening, will leave it in two evenings and will have perhaps 100 pounds. This is the country for sportsmen.

Yours Respectfully,  
ELI ROBBINS.

A school teacher asserts that scholars who have access to newspapers, at home, outstrip those in their studies who do not see the papers, becoming better readers and spellers, better grammarians, and write the best compositions, besides learning geography and history quicker. Give your children the advantage of the newspapers.

The latest swindling dodge: Two strangers, apparently, meet at a farmer's house, manage to stay over night if they can, and make a trade before they leave in the morning, in which the farmer's name is wanted as a witness to the contract, which afterward turns up as a promissory note fixed up in a sum satisfactory to the sharpers.

Messrs. Palliser, Palliser & Co., of Bridgeport, Conn., architects and publishers, are contributing largely to the beauty of our cities by sending out full plans and specifications for modern cottages. These plans are well made, specifications complete and easily understood, and should be in the hands of our carpenters and builders. Aside from the beauty of these designs they are cheap and save a great expense in getting up plans for buildings.

THE ASHLAND HOSPITAL.—The appropriation having been granted for the Miners' Hospital at Ashland it is altogether probable that the institution will be opened for the care of the unfortunate inside of a month. Dr. Yeomans has not yet given his positive acceptance of the appointment of physician in charge. His compensation is to be \$2500 a year and no household expenses. If he does accept he gives up a good practice in Philadelphia worth much more than the salary in this new position. The other officials of the hospital have not yet been decided upon.—*Mt. Carmel News.*

A tolerable good judge of human nature remarks that the young men who sport gold-headed canes, smoke fine cigars, and lounge and ogle in front of theatres are not the future men of business and influence. They are but the coming dones who will live off of the world without making it better, and will die and not be missed. As a rule, the sooner they go to the better for their families and for society at large.

#### Court Proceedings.

Curtis & Books vs. the borough of Danville. This case occupied the Court until Saturday afternoon. The jury returned a verdict for the plaintiff for \$990.

County bridge in Beaver township recommended by the Grand Jury.

## Three Strong Points.

### Point One:

Men's Spring Overcoats; a big stock that takes everything from the very plain low priced to the finest, from the lightest fancy color to the plain black, from the smallest youths' to the largest of large men's sizes. A commanding stock that every light overcoat buyer must see—if he cares to know the market.

### Point Two:

Fifteen Lines of Men's Business Suits. A little money is a powerful thing in Oak Hall. Witness the following:

Fancy Cassimere Sack Suits at \$8.50, and the same goods in walking coat style, at \$9.00. Our boast on them is that they are good for the money. Manhattan Cheviots in six full lines, both sacks and walking coats, at \$10.00. The buttons and trimmings of these suits are worth special attention. Plain Cassimeres: three varieties, in sack style, at \$10.00. Very reliable.

Five styles of Harris Cassimere Suits, of quiet styles, and in both sack and Walking Coats, at \$16.00. The well-known reputation of these goods speak for themselves.

These fifteen lines are not fragments pulled together for an advertisement. They represent two thousand suits, and goods to make more. There is business in them.

### Point Three:

Custom Made Clothing. A large display of piece goods to order. There are very great bargains in all the following lines:

Class A, in any ordinary business style,	\$18.00
Class B, " " " " " "	20.00
Class C, " " " " " "	22.50
Class D, " " " " " "	25.00

Our "points" are made short and sharp for practical people.
