BLOOMSBURG, PA.

FRIDAY, JULY 6, 1883.

Major Phipps was sentenced on Sat-urday morning by Judge Allison, to five years imprisonment at hard labor in the county jail of Philadelphia.

H. H. Schwartz the newly appointed Judge of Berks county, received his commission from Harrisburg last Saturday morning. He was sworn in at Reading on Monday.

July 7th has been fixed by the Legislature as the date of adjournment. It is rumored that if there is a failure to pass the apportionment bills, the governor will call another extra session.

A new telephone company has been incorporated to be known as the Chesapeake and Potomic Telephone Company. The company is to construct and maintain a telephone between New York, Baltimore and Washington and to connect with other lines throughout the United States. The capital stock is fixed at \$50,000, with power to in-crease to \$5,000,000.

Judge Rice of Wilkes-Barre on Saturday sentenced the following persons to imprisonment in the Eastern Penitentiary: Lake Kelly and Thomas Handley, for highway robbery, each nine years; John Keenan, for murder in the second degree, eleven years; William Murphy, for murder in the second degree, seven years; Dennis Meeley, for manslaughter, seven years; William Phillips, for manslaughter, seven years; George Edwards, for burglary, two years.

The Reading Railroad Company suspended at the close of work Satur day about one hundred machinists in definitely. In the blacksmith and boiler shops about twenty-five journey-men, together with their helpers, some forty in number, were also suspended for an indefinite period. In all the suspension embraces over one hundred and fifty hands. Scarcity of work is given as the only cause. No new engines are being built at present and the hands retained will be kept npon repair work In the car shops of the company there is an abundance of work, new passenger and freight cars being turned out as fast as possible, including a number from the Jersey Central.

They were cold and had evidently been dead several hours. The theory of the work-men is that Wolcott probably looked into the well to gratify the boy's curio sity, was overcome by gas and fell in and that the others went to his assis tance and were overcome in a similar manner. This seems improbable, and there are many who believe that the tragic mystery is the result of foul

Senator John Stewart, in a recent interview, said of Governor Pattison, when speaking of the extra session :
"I believe the Governor acted upon the best of motives. The result may disappoint me and vindicate him. As to his yielding in this, or any other matter of public duty, to personal or political considerations affecting those who stand n ar him, I do not entertain it as a suspicion. From all that I have seen and know of the man, I believe that he can be influenced only as you can convince his judgment. He may be lacking in breadth, as he certainly is in experience, but experience wi probably give him breadth. H wants to do right and tries very hard to be right. This is my estimate of the man. A Scene in the House.

There was an exciting scene in the House at Harrisburg last Friday. The subject under discussion was the con-gressional bill, and the ball was opened by a republican member from Indiana county, Lowrey, who had the courage to be fair to the democrats. Lowrey held that as the Presidential vote was taken as the basis of the Congressional apportionment the number of districts due the Democrats would be thirteen and a fraction and the republicans fourteen and a fraction, but in his opinion the only way to make the apportionment was to take the map and, without considering politics, draw the lines in accordance with the constitutional re-

Republicans hissed and Democrats applauded.

Now came the excitement. Sharpe, in a speech praising Lowrey, charged the other Republicans with having made an extra session necessary and auded the Democratic leaders from Jefferson down. Republicans jeered at his mention of Jackson and Demo-

crats retorted that "Andy" was better than Mahone, anyhow. Sharpe's con-cluding remarks, that there were as many Democrats as Republicans in the Union army, immediately threw the House into confusion, as if a bomb-shell had burst upon the floor. A doz-en Republicans shouted "Mr. Speak-

"That's not true, and the gentleman knows it's not," exclaimed War Veteran Brown, of Erie, with fierce gesture. "The whole rebel army were Demo crats," was heard from Landis, of Lancaster, above the babel.
"You're a liar," cried Mackin, of

who made no reply and could not be heard if he did, so great was the confusion.

Things gradually grew worse until Brown of Érie shook his fist at the

Democrats generally and said:
"It's only twenty years since you men wore the copperhead badge."
This threw the House beyond Faunce's control again. The confusion and excitement were greater than before. Democrats became hoarse trying to make Brown hear the denunciations of him, and members on both sides mingled their cries for order with the yells of the belligerents and the shouts and pounding of the Speaker.

But for the interference of some of the cooler headed ones, there would have been some black eyes and bloody

The Trade Dollar.

For some time past there has been ore or less agitation in the cities over the trade dollar, but no decisive action was taken until Saturday, when the banks gave notice that this coin would Two men and a boy were suffocated by black damp near Scranton early on Saturday morning. It is unfortunate that this movement has been started as the loss must nec essarily fall on the poorer classes. Mer who have but a few dollars must use them for the necessaries of life, even if they lose fifteen cents on a dollar, whil those who hold them in large quantities will lay them away until relief comes, for it is almost certain that the trade dollar will be worth par sooner or later.

MISTORY OF THE DOLLAR.

The trade dollar, as is well known was never intended for circulation and is not accounted as money of the Uni ted States, being simply bullion stamped for exportation. When its coinage was authorized the value of the 420 grains of silver was a little more than one dollar in gold and the trade dollars were eagerly taken in China, where previously the Mexican dollar had been the popular coin. But the depreciation in the silver brought the trade dollars back, their value having sunk below ninety cents, and they thus came into circulation, speculators even taking their sliver dollars to the mint and having it stamped for the purpose of circulating it, until the coinage of trade dollars was stopped in 1876, the whole number then having reached about thirty millions. The coin is not legal tender, but has simply passed as legal tender by common consent. It bears cording to the report of the directors of the Philadeiphia mint the total issue of the trade is \$35,959,360. When the made a legal tender, the trade dollar was brought into discredit. At present there are \$9,206,900 standard stored at the sub-treasury in Philadel-phia, and over \$33,000,000 in New York. seen the only relief from the depreciat-

An Advance in Pig Iron.

President Clark. of the company, says that the demand warrants the advance. The trade, he says, has recovered very rapidly of late, and owing to the large number of furnaces that have blown out recently he thinks the demand will more than equal the supply within the next three months. President Clark says that in the last month the Thomas Iron Company has shipped more ore than in any one month of its existence heretofore.

An Ex-Treasurer Short.

An appropriation bill for the extra session has been introduced in the House. The items given for a thirty-one days session, ending July 6, are as annexed:

Senate Salaries, \$15,500; mileage for Senators, \$3,267; Senate station-ery, \$500; senate clerks, \$1,240; sergeant at arms, etc., \$3,402; senate pages, \$310; senate chaplain, \$93; Record postage, \$50; contingent ex-

Cooper's Frankness.

Senator Cooper showed the horns of the Republican senators in a speech made on Tuesday. He said in plain words that the extra session must go for nothing in order to insult the governor in calling the legislature together to perform its duty to the state, and that the odium of failure and fruitlessness of the present session must fall at sea. upon the executive. He for one was very willing to go any length to attain such an end. He could go before the people with some grace and unction in such an event and as a matter of party expediency he would only be too de lighted to do so.

As a matter of "party expediency" the constitution is to be disregarded, the money of the state paid out to the legislature for doing nothing, with the Bland dollar was issued in 1878, and than this could not be pursued by any party, and should the republican senators follow the advice of the "red head ed and hopeful" leader, the democrats will have an issue on which to go before the people next fall, that must surely win.

Mrs. Robert Elliott, of Texas, has been here for the past ten days or more, to restore the health of her child, Birdie, a bright and sweet little cherub less than three years old, who is much emaciated from a spell of Texas fever. This morning about ten o'clock a strolling Italian made his appearance in front of the hotel, with large cluster of those red bladders like toy balloons. Major Hawkins, of Alaama, to amuse little Birdie, who he at that time had in his arms, tied the cord around her waist and then as is so often done to amuse children, gave her a toss of five or six feet into the air and held out his hands for her return. "Great God! she is gone," cried the Major, as he saw her rapidly going up, up, up, until she had passed the house-tops. Floating in the clouds with outstretched hands, the little angel could be distinctly heard calling: "Mamma, mamma, mamms," until her voice became drowned by the whistling of the winds.
