death by being choked by some person unknown, but that the conduct of William Lewis her lover, was suspicious.

Now that the Grand Jury has recompossible, there is nothing for the commissioners to do, but to promptly com-ply with this recommendation. This course was suggested months ago by the COLUMBIAN, and we believe a survey was made in the spring, and then the matter dropped. The county has about \$60,000 invested in the new jail, and this is too large a sum to be thrown away by abandoning the building, if there is any way of avoiding it. The expenditure of \$1000 or even \$5000 should be made, if so much is necessary to put it in a habitable condition. If it cannot be drained at all the sooner this is determined the better. If it can be drained it should be done at once.

An Honest Admission.

From the Philadelphia Telegraph (ind. rep.) Admitted at last ! A stalwart newspaper defender of the republican obstructionists in the state senate says ; "It is not the fault of the democrats that the apportionment bills have failed. No republican will lay that political crime at their door." That is to say, the failure to pass apportionments is a political crime and one for which the democrats are not responsible. Then who is responsible? Manifestly the republican senate. Truth, like murder

PETITION FOR ALASKA.

At a meeting of the Woman's Presbyterial Home Missionary Society, Pres-bytery of Northumberland, held in Danville, Pa, last Spring, it was resolved to petition the representatives from the Congressional districts included take some action in behalf of long neg-lected Alaska. Several bills have been introduced into Congress, providing for a civil government in this distant region, but thus far all that Congress has seem. but thus far all that Congress has seemed to be able to do, was to listen to a second reading of the bills and order them printed. In the meantime widow-burning, torture of witches, slavery of children, infanticide, and other horrible possession, which has had no government, and no administration of justice except that which the pioneer missionaries have been able to exercise. The Indians of Alaska are quick and eager to learn. They beg for teachers, and it is plainly the duty of the government to give them the advantages of industrial schools like those of which the Carlisle Training School is a shining

example.

Committees have been appointed to circulate the petition in this town, and it is hoped that what ever help can be afforded a noble cause by the signature of our professional and business men will be promptly given

Whenever the republican politicians in the state are driven into a corner they hold up their hands and cry mercy, with the plea that their party has mad a wonderful reduction of the state debt and repealed the tax on real estate. Now that they are in an ugly hole with the record of their candidates, Niles and Livsey, as opponents of the Humes act which directs the investment of the Sinking Fund in State or United

Philadelphia, September 25, 1883.

TO THE PUBLIC:

Especially of the states of Pennsylvania, New Jersey, Maryland and Delaware.

We have the pleasure to announce that our arrangements for the business of the present season, long considered and most carefully made, are now complete, and we respectfully invite the people from far and near to call on us, and inspect our enlarged facilities for doing business and the superb Stock we are prepared to exhibit in every department.

The increase in our business, which has been large and constant for years, has been greater than ever during the past twelve months, and we have, therefore, felt justified in making extraordinary and unprecedented preparations for the coming season, not only in the magnitude of the stock, but in the facilities for its distribution, as well as arrangements for the most prompt and careful service of our patrons in every way.

During the Summer we have added another building on Eighth Street to our store-rooms, and this alteration, just completed, while it adds considerably, though not largely to our space, enables us to make certain changes in the disposition of stocks, which economizes room and in other ways adds largely to the comfort and convenience of our patrons.

All our buildings have been renovated and freshenel during the summer, and now, with the above alterations completed and our arrangements consummated, including the receipt of the most magnificent stock it has ever been our privilege to gather, we invite the public to call and inspect the buildings and examine the stock, which in the aggregate and detail will, we believe, compare favoraby with any that has ever been placed on sale under one roof in America. This huge stock, approximating TWO MILLIONS OF DOLLARS in value in DRY GOODS ALONE, has been most carefully selected by a large corps of skilful buyers in the best markets of the world, and it is needless to add has been purchased EXCLUSIVELY FOR CASH. Every advantage that experience, skill and abundant capital can secure has, we believe, been secured for our patrons this season, and coupled with these advantages is a determination to serve them in such a way as to receive their constant and abiding patronage.

It is our aim, as it is the aim of all business men, to make money, and yet not so much to make money as to do business in the best way; to be successful in the highest sense; to render the most efficient service to the largest number; to adhere rigidly to and to lead in our own special business; to do the largest and the best and the most generously conducted retail dry goods business in the United States; to lay the foundation of that business broad and deep and sure. Here, in Philadelphia, the city of homes, with its million of population, surrounded by a country unsurpassed, if equalled anywhere for fertility and cultivation, and populated by other millions of thrifty and intelligent people, here we conceive is the place to build up such a business-a business that truly serves the people and with every increase in its size and facilities only more widely and efficiently renders that service to a greater number.

We believe no large and permanent success can be achieved on any other basis than that we have indicated, of rendering better service than can be had elsewhere; of deserving success by reason of rendering this service faithfully; of making it a cardinal principle to give at least as much as is received; to ensure and to be satisfied with nothing less than a mutuality of benefit between the house and its great constituency the country over. This is our aim and purpose. We ask the people to join with us in establishing such a business, and we ask for patronage on no other grounds.

Respectfully submitting our claims to a discerning public, we hereby extend a general invitation to call on us from this date, to view the buildings and inspect the business methods of 1883. [Signed :]

(Continued from last week.) How Watch Cases are Made.

In buying a silver watch case great care should be taken to secure one that is solid silver throughout. The cap of most cheap silver cases is made of a composition known as albata, which is a very poor substitute for silver, as it turns black in a short time. The backs of such cases are made much thinner than those of an all silver case, being robbed in order to make the cap thicker and get in as much as possible of the cheap metal. Another important point in a silver case is the joints or hinges, which should be made of gold. Those of most cheap cases are made of silver, which is not a suitable metal for that purpose. In a brief period it warps, bends and spreads apart, allowing the backs to become loose upon the case and admitting the dust and dirt that accummulate in the pocket. The Keystone SilverWatch Cases are only made with silver caps and gold joints.
