Sunday School Convention.

ORANGE TOWNSHIP, Nov. 17, 1883. The representatives of the Sunday schools of the Orange District met at the McHenry chapel in Orange township. The convention was called to order by the president, C. B. White. After singing by the convention and prayer by Rev. E. M. Chilcoat, the roll was called and the minutes of the previous meeting were read and adopted. In the absence of the secretary, J. B. Harman, the assistant secreday Schools ?" was opened by Prof. Heck, of Orangeville academy. He remarked torfere with the workings of the colliery as some of the Philadelphia papers published on Wednesday evening.

The last car of a loaded coal train had many expend their energy in telling how, or how not, to do it, and too few take the spilling the coal along the road. The poor people living near were very fortunate, as they gathered enough coal to burn all winthe line of their history. He then gave a connected and very interesting history of schools for Christian instruction, taught on Sunday from the first organization of the Christian church to the present time; then said that in the rapid and incomplete sketch that time had allowed him to give we had had only a glance of the good Sunday schools have done. To sum up, it has gathered to itself the wicked and vicious children of our towns; it has made from beings a little above the brute, many noble men and women, many workers in the vineyard of the Lord who otherwise would have grown up amidst crime and filth and become servants and victims of the devil. Rev. R. H. Wharton continued the subject by saying: "The home was thought training of children, but if this is left to great degree. Secular education is rapidly advancing, but it does not make Chris-

tians. You must occupy the minds of the children or mischief will creep in. Intellectually, many of the young of our land are being educated in seminaries and colleges, but the heart is largely neglected. Much of this work must be, and is, done by our Sunday schools." After singing, should be taken—which was taken as a Rev. E. M. Chilcoat said: "In one of our timely hint. Prof. Hower opened the second question, "How shall we make Sunday schools a Success?" by stating that Sunday schools have not been a failure in the past, but mean "How shall they be made more successful?" Teachers and officers by a want of love for immortal souls : pupils by E. M. Chilcont said it was a sad fact that many of the young were already wormeaten. That we ought especially seek the conversion of the children, and that superintendents and teachers should aim at the conversion of the whole school. Unworthy inducements should not be offered but all right means in our power should be used for the upbuilding of the Sunday school. E. L. Snyder remarked that too

Wharton : "We must get the Thursday and Friday evenings, in the Methodist church. There was a full attencan benefit them. The government, when it cannot get volunteers, fills by compulsion. We cannot do this. How shall we do it? To draw persons into the Sunday school we must make it a necessity. In ris Ridge colliery have found a leader, and expect to strike the Buck Mountain vein in a short time. The tunnel is now about 200 yards in length, and is driven through the people constantly. The politician order to do this we must make known its the people constantly. The politician talks continually, the church should be as carnest and energetic. It will pay to become enthusiastic in the work. Then our nodes of teaching must be instructive, and let love be the one great incentive-it is a threefold cord that cannot be broken." Prof. Heck said a little enthusiasm i teachers is a good thing but it will die out. Make every one feel that you can not do without them, and you can't. Give medicine in sugar-coated doses. Make the Sunday school pleasant.

After singing the fourth topic, "How can we retain the older scholars?" was discussed by E. L. Snyder, who said that at the age of 15 and 16 pupils leave school, and thought the parents were largely responsible for this; they fatled to exercise proper parental authority. Rev. Wharton replied that one of the great hindrances may not lie at the door of parents so much as with teachers. So many make imperfect preparation of the lesson that older pupils become disgusted. When teachers are sufficiently interested to study the lesson thoroughly, they can command attention. Rev. E. M. Chilcoat thought the teacher who will not prepare the lesson is not worthy of being a teacher. He urged them to realize their responsibility. and the reward that would eventually crown the faithful teacher. The following resolution was then adopted : Resolved, that it is the sense of this convention that the older scholars can be retained in the Sunday school by having teachers who come before their classes well prepared upon the lesson.

On the fifth topic, "What obligations have citizens and parents to attend and support the Sunday school ?" Rev. E. M. Chilcoat said the vows we take in becoming members of the different churches

The president, C. B.
