

The Value and Importance of Farmers' Clubs.

The importance of organizing among farmers for the purpose of assisting each other and exchanging their experiences for the benefit of one and all cannot be too strongly urged.

There is a class of farmers who attach no importance to association, usually regarding the results of the meetings as theory, when, in fact, the discussions are based on facts and practical experience.

Farmers' clubs do more than to simply meet and discuss farm topics, though it is organized for nothing but discussion the benefit to each individual would be great.

Impossible Escape.

ABSOLUTE TRUTH WITH COLLATERAL PROOF FROM WHICH THERE CAN BE NO APPEAL.

For the past three years we have had a standing offer of \$5,000 for any statement of cure published by us which was not, so far as we know, bona fide.

"I was cured of kidney disease and bleeding piles by 11 bottles of Warner's Safe Cure."

"I was a physical wreck by kidney disorder, but Warner's Safe Cure has completely cured me."

"I was wholly prostrated by a complication of diseases, and as a last resort purchased Warner's Safe Cure."

"I suffered for over twenty years with a lame back caused by kidney complaint, and my spine and nervous system were badly affected."

"For two years I suffered intensely and was made miserable through diseased kidneys and bladder, with nervous exhaustion and entire prostration."

"I want to state how much my husband has improved while taking Warner's Safe Cure."

"COFFEE AND TEA.—At the London Parks Museum recently Dr. G. V. Poore lectured on coffee and tea."

The Raising of Poultry.

It is a very easy matter in experimenting with poultry, as with any other enterprise, to fool away a good deal of money in "outrifts" not needed at the beginning.

As to the best birds to try, this is one of the hardest questions to answer, but in any event start with one variety—the novice should never attempt to breed more than one kind.

Begin with one sort, then that sort which the sort is as long as that sort suits the fancy, breed them in their purity, take good care of both old and young, and you will be likely, at the end of the first year, to know enough about raising poultry.

Again, the question of numbers is an important one and depends largely upon the amount of space that can be devoted to their accommodation.

The grafting of apple, pear and plum trees will begin about the 20th of March, and the sooner you carefully preserved it can be planted up into the ground.

We wish again to remind those who are preparing their grafting wax, that we take four parts of resin, one part of beeswax and one part of tallow.

There are many receipts for making grafting wax, and we have tried most of them, and found some of them to be very good, but we prefer our own, as being the simplest to prepare and answering its purpose well.

Here is a good recipe for boiled Indian pudding: Warm a pint of molasses in a tin or brass boiler.

The Grants are getting along after a fashion. The old gentleman lives in a \$100,000 mansion in New York.

"Maryland, My Maryland."

"My farm lies in a rather low and misty situation, and 'My wife!'"

"A short time ago I purchased your remedy for one of the children, who had a very severe attack of biliousness, and it occurred to me that the remedy might help my wife, as I found that our little girl upon recovery had 'lost!'"

"The dear creature just looked over my shoulder and says, 'I can datter equal to the days of our courtship,' and that reminds me that I must be more pretty than if my brother farmers would do as I have done."

"I had 22 quarts of water taken from 'me' caused by dropsy. Ten bottles of Warner's Safe Cure entirely restored 'me.'"

"I was wholly prostrated by a complication of diseases, and as a last resort purchased Warner's Safe Cure."
