We publish this week the names of the vigilance committee as far as reported.

The members of the Standing committee who have not yet reported the names of the committee will confer a favor by reporting at once to David Lowenberg, chairman.

The Street Commissioner has put in terra cotta pipe at the crossing corner of Centre and fifth streets.

The Street Commissioner has put in terra cotta pipe at the crossing corner of Centre and fifth streets, in order to conduct the water under Centre street. This method of deep gutter etc. crossing is entirely avoided. Should it prove successful, there are many crossings in town that should be fixed in a similar manner.

Our young men are getting too careless in the matter of driving ball on Main street.

Our young men are getting too careless in the matter of driving ball on Main street. One person threw a ball through one of J. J. Brown's large show windows. Another, a hawker and hit a Mrs. Wolf on the nose, causing a severe bruise and black eyes. The authorities should prevent playing ball on Main street.

There will be a game of base-ball played at the Fair grounds this (Friday) afternoon at half past two o'clock, between the "Recreation" of Mr. Gormel, and the "Bloomers" Association. The game will probably be a close one. The "Recreation" played the Philadelphia League team a few weeks ago with a score of 11 to 4 for the League nine.

On Saturday last we experienced the most severe thunder storm of any this season.

On Saturday last we experienced the most severe thunder storm of any this season. The lightning flashed vividly at short intervals. In several places buildings were struck, but no damage done. The roof on the barn of Mr. Armstrong was struck, but the lightning carried off with no serious result. We are told the walls of his house were badly shaken also.

Prescriptions a specialty at the Peoples' Drug Store. J. H. Mercer, Prop. Mrs. Michael Hess of Beach Haven, has been afflicted with catarrh of the eye for the past seventeen or eighteen years. A few weeks ago her eyes commenced getting sore, she applied ointments and the sight of one eye is almost completely restored. The other eye has not yet been treated, but its possible that the sight of that eye may also be restored.

On Saturday last the post office at Williamsport, was robbed of stamps amounting to \$3,500.

On Saturday last the post office at Williamsport, was robbed of stamps amounting to \$3,500. The chief clerk, who was in the private office, postmaster being at dinner, was called to the door to see a man in a buggy. He was not out for three minutes, but during that time four packages of stamps were taken from the safe and four packages similar in appearance left behind. The substitute packages contained brown paper. The buggy had been hired at a livery stable near the post office. No trace of the robbers has yet been obtained.

The Sentinel of last week contains a communication signed "Lieutenants" and dated at Jackson, which was evidently intended for publication in this paper. The Editor of the Sentinel, and Sentinel, and began with the words "In looking over your paper of last week," etc. The article was changed to read "Editor Sentinel, in looking over the COLUMBIAN of last week," etc. If they were so anxious to publish the article they should have made inquiry whether it was for their paper. We make this correction for the benefit of some of our patrons, and in a feeling of any animosity toward the Sentinel.

Pure drugs and patent medicines of all kinds at the Peoples' Drug Store.

Pure drugs and patent medicines of all kinds at the Peoples' Drug Store. The historic question of "Who struck Billy Patterson" has at last been answered. It was neither Blaine nor Butler, as those two individuals would no doubt like to have the public believe, but one George W. Tillston, and the place where the striking took place was in Carnesville, Franklin county, Georgia. When Mr. Patterson died he left \$1000 to be devoted to finding out who hit him, as the blow was a terribly severe one. Now comes Tillston's daughter, with the information that it was her father who did the hitting. The event took place about 47 years ago, and "Billy Patterson" was the father of the famous Miss Betsey Patterson, the Baltimore beauty who married Jerome Bonaparte, brother of the great Napoleon—Belleville, Wis.

A visit to T. L. Gunton's Steam Marble Works, Main Street, Bloomsburg, will give you the superior advantage in the use of steam fixtures for that purpose.

A visit to T. L. Gunton's Steam Marble Works, Main Street, Bloomsburg, will give you the superior advantage in the use of steam fixtures for that purpose. For the benefit of those who can not visit his works we will give a brief description. There is an iron wheel two and a half inches in thickness, seven feet in diameter and weighing 2800 pounds, used for polishing the marble. The wheel is raised about three feet from the floor, and connected with gearing so as to revolve horizontally with the floor. Overhanging this large iron wheel has been arranged a derrick to which is attached a Bailey hoisting apparatus, by means of which one man can raise a marble slab weighing three and one-half tons or 7000 pounds. Marble slabs of one ton weight are as heavy as usually handled. They are placed upon the iron wheel, and their weight resting on the wheel, which is in rapid motion, fine sand is scattered over the iron wheel, which grinds the marble to the required thickness. One of these slabs can be polished in about fifteen minutes, or twenty times as fast as the old hand method. There is possibly no establishment in this section so well arranged for furnishing fine marble work as that of T. L. Gunton of Bloomsburg. He keeps on hand specimens of all kinds of granite, which he takes pleasure in showing to all who call. Our readers should be pleased to learn that they can procure all kinds of marble and granite work at our county seat, and at a cost far less than that charged by other similar establishments.

Miss MacArthur has finished her instructions in art to a class of young ladies and started for Scranton, where she will remain for the Sabbath, leaving Monday morning for a visit with friends in Litchfield county, Conn. In October she begins her connection with an art school in Philadelphia—Carbondale Advertiser.

I. W. Baird's show came from Hazleton to Catawissa on Friday morning, and expected to reach Bloomsburg in ample time for the afternoon performance. They arrived too late to take the train, and were brought over from Catawissa with wagons. The afternoon performance was cancelled, but in the evening they gave a good entertainment, although they had a small audience.

A skating rink was opened in Evans' hall on Monday evening by Messrs. Towner and Bennett, of Bradford county.

A skating rink was opened in Evans' hall on Monday evening by Messrs. Towner and Bennett, of Bradford county. They have shown themselves to be very gentlemanly and are using every effort to conduct the rink in such a manner as to make it an attractive place for ladies, for healthful enjoyment. Skating rinks are very popular in all the surrounding places, and we see no reason why this one should not be a success. Next week a professional skater will be in instruct.

Cleveland and Hendricks Club.

There will be a meeting in the Opera House, Bloomsburg, on Saturday evening of next week, September 13th, for the purpose of organizing a Cleveland and Hendricks Campaign Club for this place. There should be a full attendance of all those who favor the election of the Democratic nominees. Speakers have been secured for the occasion. Let there be a grand rally, that we may lend our assistance to the election of the Democratic standard bearers.

This association, but recently organized, gives its first exhibition on their spacious grounds just south of Berwick, on Wednesday, Thursday, Friday and Saturday, September 24, 25, 26 and 27, 1884. They have secured as the site of their exhibition a beautiful section of land embracing some 30 acres, and almost entirely surrounded by a grove of natural trees, which will afford ample shade for visitors. Water will be supplied in abundance all over the grounds. The grounds outside of main track will be filled with exhibition buildings, sheds, stables, dining hall, etc., of an improved design, for the more perfect display of all articles entered for exhibition. Accommodations will be furnished for the bedding of horses, and oats will be sold for sale by superintendent of this department, while the dining hall and eating stands will be well supplied with the substantial life. The Association has made liberal offers to exhibitors and it is to be hoped that they will be largely patronized. This being the first exhibition all should assist in making it a grand success, that such a good enterprise may be engaged.

The following is a description of an Indian fig tree which he saw growing in America:

The following is a description of an Indian fig tree which he saw growing in America: "The tree, grow, in a mossy ground, and in this manner: After they are first shot up some twenty or thirty feet in length (some more, some less, according to the soil) they spread a very large, flat, having no bough nor twig in the trunk or stem; for from the utmost end of the head-branch, there issue out a gummy juice which hangeth downward like a cord or snew, and within a few months reacheth the ground, which it so soon toucheth that it taketh root, and then being filled, both from the top boughs and from his own proper root; this cord maketh itself a tree exceeding hastily. From the utmost boughs of these young trees there fall again the like cords, which in one year, and less (in that world of perpetual spring), become also trees of the bigness of the nether part of a lance, and as straight as a rule, and art can make anything as grove, as no other tree in the world can do. Now, one of these trees, considered with all his young ones may, indeed, shroud four hundred, or four thousand horsemen, if they please, for they cover whole valleys. But that they bear any such huge leaves, or only such delicate fruit, I could never find."
