F. Finerty, a democratic congressman from Chicago, has bolted Cleveland, and declared his purpose to support Blaine. Finerty was a candidate for renomination and his party turned him overboard. He was a democrat "for office only." The party can well afford to lose such a man on the same day that Bristow bolts Blaine.

The Boston Pilot made the leading speech, portions of which are given below. On being introduced Mr. O Reil ly said:

I have been handed a copy of a morning paper published in your city, containing some questions addressed to me, which I shall begin my few remarks this evening by answering. The first is: that Bristow bolts Blaine.

Bristow, secretary of the Treas-ury under Grant's administration, has declared his intention to vote for Cleveland. These men are not politicians. They are all men who have held high positions in the republican party and have made for themselves an honorable record. They see the rottenness that has crept into their Nothingism-that "leopard" cannot party, and they know the record of James G. Blaine, and like honest men that they are they repudiate both. To account for this defection the howling organs must raise some other cry than

Their hopes are based on the opposition of the Sun to Cleveler is expected to draw from the Demnot proved all that was desired, and it is probable now that Mr. Dana would swing around again so as to get on the winning side if he could do so without appearing ridiculous. The Butler side show has failed to capture the labor vote of the State, and all his demonstrations have been a farce. Last, but not least, Tammany has declared strongly in Cleveland's favor. Many prominent Republicans are announcing their intention to support the Democratic candidate, and every day adds to the certainty of Cleveland's success in New York. This makes his election sure, though from present indications he can be elected without that

## NO BOLTING THIS YEAR.

Already the republicans of this county are beginning to cherish hopes of electing at least one prominent official at the coming election, and their organ, the Republicas, thinks it hears rumblings in the air that indicate the defeat of the democratic candidate for Prothonotary. From this time forth our contemporary will be constantly engaged in an effort to show that there is great disaffection in the Democratic ranks, and will do and say all in their power to encourage a bolt. Will they neceed? Are the democrats of this county ready to assist the republican organ in breaking down our great majority that for years past has been con-stantly increasing?
