Mawking and Peddling.

COMMONWBALTH PERSIS CHARLES EDSON. CHARGE OF THE COURT.

The defendant here, Charles Edson, is idleted for an alleged violation of a penal statute of the commonwealth. It is not charged that he has committed any act bad in itself, contrary to good morals and such

as conscience condemns, but only an act forbidden by a statute designed to aid in regulating the business affairs of the comnunity, but not an act interdicted by any natural sentiment or perception of the diference between right and wrong. The law-makers, therefore, restricted the punishment for the breaking of this law to the imposition upon the convict of a fine without imprisonment; a restraint of liberty not seeming to be deserved by one who has committed an offense created so by merely human enactment. And it was doubtless supposed that the imposition of clause would be amply sufficient to deter the person accused and convicted from a repetition of his unlawful act, and, by way of example, to deter all others who might otherwise be tempted to begin.

The law in respect to hawkers and pedlars differs in the different counties of this commonwealth. Before the adoption of he constitution of 1874, local laws were allowed under the provisions of the constitution in force up to that time, and some were passed regulating auctions and sales by licensed vendors variously in the various countles, as you have doubtless observed by what has been exhibited be ore you in the course of this trial. In 1832 a law was passed in respect to auc tions in Lancaster county, and, in 1833, by a supplemental act, provision was made as to the manner of carrying out that law in that county, and the proper mode of procedure against one prosecuted for its viola tion. In 1846 a law was passed for Schuylthe law for Lancaster county, without, however, repeating the terms of that law as to the steps by which the State should proceed to enforce the set or to inflict the punishment for its nonobservance. In 1848 the Schuylkill county act was extended to the county of Columbia (among others), and is in force here to-day. It provides that "no person shall sell or expose to sale, within the county of Columbia, as a hawker, pedlar or traveling merchant, any goods, wares or merchandise, under the penalty of fifty dollars for each and every offense, to be inflicted in the manner provided by the act of Sixth April,

1833, entitled 'a supplement to the act regclating auctions in the city of Lancaster and other towns in the commonwealth, passed the 7th day of April, 1832.1 " That mode of proceeding is by a complaint before a magistrate, a binding over to court, and an indictment in the Quarter Sessions. This line of procedure, pointed out by the act of 1833, is the one that has been pursued in this case, and the defendant here is called upon to answer the general charge of having violated the law by the sale of goods, wares and merchandise within the ounty of Columbia, as "a hawker, pediar

or traveling merchant." It is also particuarly alleged against him, that he made, as ach hawker and pedlar or traveling merchant, sales to certain individuals named ure mean when they used those terms?

Cases involving this question have frequently been before the courts, not only in his State, but elsewhere. In earlier use, the term "hawker" meant one whose occupation was somewhat other than that which is now commonly understood to constitute what has since been made the Patrick Cain, residing in Dark Corner the Legislature employs in a statute words that are current in vernacular speech, had a leg broken, by a plank falling on him known by the people generally, the meaning and construction to be assigned to worthy young men of town, will leave for such words as terms in the law, are setpopular understanding and acceptation What is that, in respect to the words "s

tled by reference to the usual sense of those words among men who habitually hawker, pedlar, or traveling merchant?" A hawker, as has been read to you from person who carries about merchandise rom place to place for sale, as opposed to now popularly applied to designate one is a "hawker, pedlar, or traveling merwho not only carries goods for sale but chant." likewise seeks for purchasers of his goods in any manner, whether it be by outery or by placard or other device upon the ve nicle he drives, or by any other way of in viting persons to buy of him any portable goods, wares or merchandise that he may would soon give to the public, much was have in a pack upon his back or in a wagon at the door or upon the road or even in a which had been effected by them in reed canal boat upon the water, in anything that he moves about with him from place to place and from house to house, solicitemployed in these statutes cited, are iden-

tical in meaning, signify one and the same thing; and I think that "traveling merchant" is merely another added synonym, the Legislature coupling these several terms because the public may make use of one of them in one locality and another in another; so that nothing is more common than to join in a statute, especially by which the thing prohibited is commonwho traffics, trades, in anything as a busi-

in a probibitory one, all the various names ly called. A merchant, according to the present understanding of the term, is one ness, by way of barter or exchange of goods for money, who makes his living by buying and selling or by frequent negotiation, whether as an importer from foreign Fisher—published some letters that he countries or as a wholesale or retail dealer in home productions. There are several sorts of merchants. As distinguished by some writers, we have merchant adventurers, or such who engage in hazardous enterprises, as risks at sea; merchants dormant, silent partners in a firm, that is to say, furnishing capital but not actually engaged in managing the concerns of the house; merhants resident, who maintain a 'stand,'as it is called, a permanent place of business; and arding merchants, who, though they may have a fixed warehouse of supplies, yet do not confine the conduct of their business to

any certain place. What you have to do is to apply this distinction between a traveling merchant and a merchant residentone who resides at a particular point where he transacts his business. The conclusion to which our courts would seem to have arrived is that the term "traveling erchant," as used in this act of 1846, which is our law here, is in meaning subtantially the same as that of "pedlar," so that, when the Legislature used the terms 'hawker, pediar or traveling merchant, they would have accomplished the same purpose if they had used the term "pedlar" done without the others; and with regard to who is a "pediar" or a "hawker and pedlar," I have already instructed you that he is one who goes about with goods, making sales or seeking to make

the position of a "hawker, pedlar, or trav- tection is at stake in the present can eling merchant"-whether he did so during the period when (it is alleged) he vio-

lated this law of 1846. You will notice that the act of assembly forbids a sale by a person traveling, does not forbid traveling about the country with goods, but forbids selling them or offering them for sale. That raises the question as to what is meant by a sale. This is a technical legal term, one to which judicial decisions have attached a meaning referred to in a case cited in your hearing. where it was held by our Supreme Court that a contract in Mercer county for goods to be delivered in Eric county is a sale in Eric, not in Mercer county. I instruct you therefore, that a sale is not made at the time and place of the order being given to the merchant, of a contract being made to send certain goods, when that place i away from the merchants place of business. By such an order as that no title passes to the goods that are contracted for the title remains still in the merchant the amount of fine named in the penal who may or may not send the goods, as he sees proper. If his store were burne down, and all his goods were destroyed by fire, he would sustain the loss, and not the man who ordered the goods. If any goods at the store were stolen, the purchaser in the country, I mean the person who or-

dered them, could not complain; he could not identify any portion of the property in the store as his; he could maintain neither rover nor trespass for any act that any adividual might have committed upon them; therefore the title to the property did not pass; there was an arrangement that the articles bargained for should be sent and that the sale should be consum nated, but the sale is not perfected till the goods are delivered. This incomplete pur chase is to be separated from a purchase made by a customer at the shop or store of a merchant where he orders the goods and either pays for them or the merchant gives im credit for the price of them, and the customer goes away without taking the goods, and they are afterwards sent to him by the merchant, as is the practice now almost everywhere except in the case of persons living out in the country remote from a village or town. There is a difference between the act of a merchant supplying a patron with goods ordered at the store in that way, and the act of a merchant who goes out into the country and solicits custom, takes orders at a distance wards carries out goods in quantity, al- moter of the reform and has not hesipackages, to the places where he had been sections of his own party, from whose spoken to for them; I say there is a dis- hostility thus aroused the Republicans tinction, a material and important one, be- draw their strongest hopes for success tween that case of a purchase at the shop in the pending election. or store, and this of a purchase away from

those facts constitute the person a pedlar. the provision that he had made for him-

The first question which naturally arises canal boat or in a two-horse carriage or in and even more decided rebuff; and to the first question which naturally arises canal boat or in a two-horse carriage or in the his converting his high office into a is, 'What is meant by a hawker, pedlar or a one-horse carriage, or on foot; in other words, it is decided that a man may peddle with any sort of vehicle or without having any, and be liable to the penalty for the violation of the law; but, in judging whether he pursues his business as a pedlar or not, his equipment, the facilities he has, are to be taken into account-the quantity of goods that he carries, the kinds of goods that he carries, the shape in eriminal offense called "hawking." When which he has them, the manner in which he makes his sales and conducts his business generally, the extent of his travels, how much territory he covers in his perc- ed when it nominated as its candidate a grinations, how far he goes, whether simto supply a considerable extent of country, how any citizen can read the corres use them; to their power according to the as evidenced not merely by his means of pondence between Mr. Blaine and Mr. transportation but by the amount and Warren Fisher, Jr., with the evidence

(TO BE CONTINUED) When the Mason & Hamlin Company announced the accomplishment of a great improvement in Upright Pianos, which they expected, because of the vast improvements instruments, and the acknowledged superexcellence of their organs. These expectstions are fully justified by the planes which ing custom, is a "pedlar," So that these have extraordinary purity and refinement terms "hawker" and "pediar" as they are of tone. Every mechanic will see that the peculiarities of their construction must add greatly to their durability and especially

their capacity to keep in good tune. This company have as great a future in their pianos as they are already realizing in their organs, which are confessedly unequalled among such instruments .- Boston

Address of Independent Republicans.

The Independents and Republicans have issued an address from their head quarters at 142 South Fourth street, Philadelphia, which reads as follows To the Voters of Pennsylvania:

The settlement of the questions aris-

ing from the war, as admitted by the Republican presidential candidate, gives to thoughtful voters the opportunity of casting aside the dead issues of the past and of acting on the living issues of the present and the future. As regards the currency, much has already been settled rather through the force of circumstances than by the fore-

vass in the sense in which the Repub lican managers would have us believe The atterances of both parties in their respective platforms are so nearly iden tical that there can be found no definite contention between them. Besides, the power of the Executive to determine the revenue legislation of the country aug 22-3m

is too remote to render this a controll ing factor in a presidential canvass. The decision rests with Congress, and the intelligent voter can have no diffi culty in separating his Congressional from his Electoral ticket and in thus satisfying his convictions in both directions. Many of the members of this Association are pronounced protectionists whose interests are largely dependent, as they believe, on the continued prosperity of the manufactures fostered by the tariff, and they can recognize no danger to these interests from the success of the candidate of a strong the success of the candidate of a shingles No 1, 2 and 3, chestnut, number a shi gress only showed in its efforts at tariff
Thave made arrangements with a couple revision its own hopeless division on of steam saw mills if there is any thing the subject, and was forced at Chicago

to adopt an expression of policy nearly akin to that of its rival. As regards the reform of the Civil Service we see the Republican National Committee has been seeking every ingenious device whereby to evade the legal penalties of assessing office holders, and it has recognized, as its representative in Virginia, General Mahone, well known as one of the most reckless spoilsmen of the age. The permanent establishment of the principle of this reform now depends mainly upon the faithful execution of the present law in letter and spirit. A President earnestly in its favor can infuse its spirit throughout the service: a President secretly opposed to it can render it virtually nugatory. It would therefore be impossible for any friend of the reform to justify the support of one who, like Mr. Blaine, as Speaker of the House, delayed its progress for years, when, to use the language of the New York Tribune, of June 19, 1874 : "Mr. Blaine, with 'distinguished ability,' appointed a committee on that subject civil service reform) which strangled the reform and scalped it, and then executed a wardance over it." No stronger contrast can be presented than that which exists between his record on this subject and that of his subject and from his residence, and then a day or two that of his principal opponent, who or a week or at any interval of time after- has been the faithful and efficient prothough perhaps not in bulk, done up in tated for its sake to alienate powerful

Not the least of the material interthe shop; the law recognizes a difference ests involved in the canvass are those between transacting business at one's place of business and going abroad seeking buyers for one's goods, wares or merchandise. In the former case no question can be set involved in the canvass are those which would be at the mercy of the foreign policy of the Executive if it should fall into the hands of Mr. I can honestly recommend it." E. H. Perdine the few months in kins, Creek Centre, N. Y. arise in respect to the legality of the sale which, three years ago, he occupied while in the latter case the legality of the sale depends upon the surrounding facts.

In judging whether a person is a pediar pregnant warnings for the future. We or not, all the circumstances are to be need only refer to his neglect to vinditaken into consideration; first, settle what cate the rights of the American citiare the facts, and then inquire whether zens imprisoned abroad without trial, while inviting a rebuff from England Look at his equipment for carrying goods, by his blunders over the Clayton-Bulwer Treaty : to his uncalled for interself. The law, as you have heard, makes ference with Mexico about the Gauteno distinction as to whether one goes in a mala boundary, resulting in another

claim-agency for adventures in his ouano policy with unhappy Peru. an intellect so unbalanced at the head of affairs, the country could never feel secure that it might not at any moment find itself involved in complications rendering war virtually unavoidable, and all industrial and mercantile interests would suffer incalculably from this prolonged and continued uncer tainty. Yet above all in its importance is the issue which the Republican party rais-

man convicted out of his own mouth ply in his own immediate neighborhood of prostituting for gain the public that he may sell some goods, or prepared trusts confided to him. We fail to see character of his load, indicating the goods taken by the Judiciary Committee of that he expects to dispose of in his trips. the Forty-fourth Congress, and not be So the frequency of his being on the road, convinced that Mr. Blaine was eager Abbot's Law Dictionary, is defined to be a and whether he carries goods for sale sim- to sell his official influence as Speaker ply or for exchange, follows a regular of the House, in whatever manner route or diverges from it, these and all might best serve his personal interests. or distinguished from one who sells at an other surrounding facts are to be taken in. Whether it was in Little Rock bonds established shop or store. But the term to consideration in determining whether he or a National bank charter, or a share in the Northern Pacific Railroad, he exhibited himself as an active trader whenever official influence was to be exchanged for money or money's worth. Nor was his position improved by his attempts at defence, consisting of falsehood, evasion and refusal to explain on the ground that these were his "private affairs," —as if the Speaker of the House of Representatives could have any "affairs," of business involving his personal honesty and offcial honor, too "private" for acknowl edgment and explanation. Conspicu ous as he has been in Congress, Mr Blaine's name is not prominently con nected with a single act of well-devised statesmanship; he has risen from poverty to wealth on a meagre Conressional salary, and the revelations of his correspondence suggest the way in which that wealth has probably been acquired. These charges are directly relevant to his candidacy; they have

not been newly sprung on the country for political purposes in the heat of presidential campaign.
This Committee has delayed its appeal to its fellow-citizens to see wheth er any explanation of the charges against Mr. Blaine would be made which would relieve him from their weight, but the apologies offered thus far have only admitted the truth of the accusations while seeking to extenuate

HENRY C. LEA, President. LINCOLN L. ETRE,
