Two new companies will soon be incorporated in this town. One is a Milling Company and the other an Electric Company. The former intends creeting a large flouring mill, and the latter will furnish heat, light and power for those who need them. Such enterprises help to build up a town and should be encouraged by those who have the means.

The Court House is to be heated by steam, and most of the apparatus has arrived. E. B. Brower has the contract at Messrs, Rhawn and Yocum addressed a \$2,205.
