BLOOMSBURG, PA.

FRIDAY, JANUARY 2, 1885 Correct Railroad Time Table.

Trains on the Philadelphia & R. R. leave Rupers follows: MOBTH.

Trainson the D. L. & W. R. H. leave Bloomfaburg SORTH.

The 4.68 a.m. train connects at Northumbertan vita the 9.35 train on Pennsylvania read, readiin, miadelputa at 8.1 ° p. m. The this train connects with Pennsylvania roas at Sorthumberland at 150, reaching initial entities

The 4.36 p. m. train connects with Pennsylvania rows at Northumberland at 8.55 p. m., and reache Partadelphia at 3.55 a. m.

Trains on the N. & W. B. Rallway pass Bloom

Club Rates for 1885. A CHANCE TO GET THE BEST DEMOCRATIC

The New York World is acknowledged to be the leading Democratic paper in the United States. Everybody ought to take a city paper in addition to a local one. We have made arrangements with the Weekly World to club with the Conumnan. price of the Weekly World is \$1.00. O

receipt of \$2.20 we will send the two papers to any address in the county, for one year. Clubs of five persons at one post office can get them for \$10,00 if ordered at one time. This is a very liberal offer, and circulation and not because there is any money in it.

We do not believe in the chromo business. All the county newspapers are published at rates so low that the margin of profit is very small, and unless all subscribers pay up, the loss is nearly equal to the profits. We consider that our readers get the full worth of their money out of this paper at \$1.50 a year, and we cannot afford to give every subscriber a gold watch or a plane, at that price. But we will do this: Every subscriber who will pay up all arrearages and one year in savance will receive for one year, Good Cheer, a monthly paper devoted to the int rests of home and family, and containing much valuable reading matter. A sample copy can be seen at this office. This offer will stand only for a limited time, and all who wish to get \$2.00 worth for \$1,50, should attend to it at once.

Personal,

Hon, T. J. Vanderslice returned from the west last week. Mrs. Joan Deily is lying ill with typhoid

W. R. Tubbs has been quite ill during the past week, but is gaining health again. Mr. and Mrs. Chas. Unangst were home with their friends during the holidays.

Philadelphia Monday evening. Charles Reice visited his friends in Pailadelphia during the holidays. He returned

home Monday. Miss Cora L. Hess, of Rupert, daughter of Reuben Hess, is visiting friends in

Distniectants.

The following article from Sinitary Gleangs will prove of use in cases of sickness:

or diluted. The housekeeper should not be deterred by the unp'easant odor of carbolle acid from using it freely. An unpleasant odor is not necessarily an impurodor; on the contrary in this case, and in some others, the unpleasant odors are the pure ones, which must be used to destroy the less objectionable and the impure. Di tute pure carbolle acid with 80 or 90 per cent, of warm water, and you have a bear able article. Be very careful in handling carbolic acid: it is quite poisonous in the crude state. In the form of a mixture

formed into a powder, newever, the dan

ger is minimized; it can in this way be used much more freely. Concerning the practical uses of carbolic acid, a celebrated chemist says: 'A con-Gracle, a fine, interesting tittle daughter siderable saving might be effected by per of Daniel Nyer, died of diphtherm, on some who use it largely if the mixing wer Monday evening This dreadful disease done by themselves instead of by the man ufacturers, and the same this used over E. S. Brown sold his personal property again, while the article so made would A protracted meeting is in progress in first place, be made as strong as the necessities of any particular occasion might require, and in the next place the pure acid may be used for house disinfection, and so lessen the disagreeableness of the smell while the common kinds may be employed. for yards, stables, fowl-houses, etc. The method of making powders is very simple. About four ounces of the acid, by weight or measure, should be added to one pound of precipitated chalk, or fine sand, or mould, or any other harmless isubstance i a finely subdivided state, and thoroughly mixed in a large bowl. This powder will be suitable for all ordinary purposes, and will be far superior to many of the distnfeeting powders sold at twice the cost.' Colorine gas is a good disinfectant in scarlet fever cases. There is no use in em ploying this, however, unless it is thor-

oughly done. In typhoid cases, chloride and sulphate of zinc, and sulphate of copper are excellent substitutes for carbolic acid. Excreta from patients should in variably be disinfected with a dilute form comment we will make a note of it. The of one of these substances. It is well to exceedingly cold snap, commencing on boil bedelothes and beds with the addition county court, gave a severe reprimand to Friday week made the snalls draw in their of some sulphate or chloride of zinc solu

it may be interesting to our readers to learn why we employ disinfectants. In cimen stake their practical knowledge disease decomposition takes place; decaying matter is present, full of minute organ isms, and a fermenting process is continually going on. The gases produced by this process, by this decomposition, are, so far as we know, without exception, harmful. A good disinfectant either absorbs or ton township, and the people of that destroys the poison of these gases. Prerestion is the first care of the sanitarian; but then if the poison is present, destruction must be thought of next. Good sewers We wish you all a happy New Year with well-laid drains, and properly arranged the subjoined greeting. The royal road to pipes will frequently present the need of fame is an easy and a plain one, and yet disinfectants; but if disease find its way ot found by so many. Guide boards are into the house, it is of the most absolute all along the pathway of life, and yet necessity that we know how best to meet . THOMPSON - VANHOUTON. - I :

County Institute

No one should be more interested in institutes than those who have children to send to school. The Dr. made one mis take in saying that not a single district of the county had a library; but instead of coals, sore throat, hoarseness. Troches one every district in the county should 15c. Liquid, 25c. have a library, if not every school.

Dr. Groff of Lewisburgh who is the author of many admirable little works on hygeine and the natural sciences, followed with a talk on the care of the eyes. The Dr. has written a small book called "Plain Rules for the Care of the Eyes." If those plain rules which he gave the teachers are followed they will do much good.

Prof. Noetling completed the exercises for the afternoon with a talk on penmanship. He spoke of the value of position and penholding only in so far asithey were in the line of forming right habits. The Prof's, talk on habit cannot be repeated too often. Teachers are entirely too careless on this point. The Prof. includes in talization, punctuation and orthography. In the evening Dr. Groff gave an illustrated lecture on the Wonders of the hu

of this report.

TUESDAY'S SESSIONS.

The first lecture of the morning was given by Prof. Sanford of Middletown, New York. The Prof. is authority on methods of teaching primary classes. He teaches \$1. Druggists. the word method using the script letters first. He advises that the words be written upon all parts of the blackboard to overcome "local knowledge." He claims that there will be no trouble in passing from the written to the printed word.

Dr. Groff then gave a very interesting if instrated lecture on Physical Geography. The several geological ages of the earth were represented by colored charts showing the animals and vegetable life in each age. He spoke of the origin and extent of Renewer."

Ladies who would retain freshness and vivacity. Don't fail to try "Wells' Health Renewer." the coal deposits in the U. S. of the time and manner of mountain making, of water as an agent in the formation of the physicial features of the earth.

Prof. Noetling spoke upon graduation Every family is obliged to make use of He said that many people made a mistake disinfectants to a greater or less degree. It in supposing that their education was is therefore important that the housekeeper completed when they graduated from a should know which disinfectants to use college. We never are done learning, and and which to avoid; for many substances when we do not learn we go back. The and which to avoid; for many stostances when we do not learn we go back. The children slow in development, puny object of the Institute is to get thoughts on scrawney, and delicate, use "Wells' Healti tenching and not to make limitators. On Renewer." for another, and failing to destroy the the use of text books he said that those use of intoxicating liquor. A few days germs of disease. Such, for example, is who could teach better with text books afterwards the priest met Patrick, and seeing that he had forgotten his promise, and addressed him thus: "Well, Patrick, I am sorry to see you in this condition, very

Among the best-known and most power- teachers who crammed a text book into the

of the most reliable of all disinfectants, fallure or success of the teacher instead of but it must be mixed with other substances the pupil. Dr. Groff followed with some very simple but very interesting physical experiments, to show how easy it is for teachers to obtain a reputation for wisdom and at the same time interest and instruct his pupils.

This closed the forenoon session. Miss Guie began the afternoon session with a talk on reading and voice culture. Prof. Wilbur thought that all should knaw/more about civil government. He began on the subject of elections, the times holding both general and lecal, the qualification of electors—when he got into a discussion which took up all the time of this period. This matter should claim the attention of all teachers. Everylone should have a respectable knowledge of our election laws by the time they come to vote. Dr. Groff then followed with a talk on Success." He gave the best advice to teachers that I have ever heard. Every sentence of it should be carefully considered by every teacher. Teachers ought to have many advantages. It could, in the be the greatest readers. Every teacher should spend their tobacco and beer money for good books. Teachers should be proud of their profession and determine to succeed in it. Teachers should teach more than they find in books-practical knowledge, such as they can learn from tradesmen. There should be a limit to examination of teachers. Teachers should take up new studies. They should become learned in one branch at least. They should save the minutes for study, Prof. Sanford then introduced the sub-

> for the day. WEDNESDAY'S SESSIONA

Dr. Monroe gave a short talk to the eachers, in which he recommended a good bit of "horse sense" to them. Prof. Noetling said that every teacher should have a school journal.

A cold wave is reported to be coming eastward. It reached Denver, Col., New Year's Eve, where the thermometer fell to 10 degrees below zero.

A Boy's Glittering Find-

The Philadelphia Times

Aims to cover the whole field of progressive journalism. No subject is too great for it to discuss intelligently and without bias escape its notice. It lays the world tributary to its wants, and everywhere its agents may be found, alert to gather the particulars of all passing events and send them by telegraph up to the last moment of going to press. It is a brief and abstract chronicle of the time and contains all that is worth knowing in the history of the world for the past twenty-four hours.

THE NEW IMPROVED-

Western Washing Machine Which is now being introduced in this ection, and is already largely in use in nimost every State in the Union, commends itself by the simplicity and ease of its operation, and by the good work that it does. The machine is easily handled, and makes no slop, whatever.

The following testimony to its merit will be of interest to the ladies of Bloomsburg and Vicinity. and all who are interested in an im-

portant improvement : TESTIMONIALS. Bloomsaurg, Pa., Dec. 8, 1884.

We bought from your agent, Mr. C. Mears, one of your New Improved Western Washers. Have used it for three weeks and are much pleased with it. It ern Washers. saves labor, washes cleanly, does not wear out the clothes and works easily. We can heartly recommend it to everyone who has washing to do. Resp'y. Yours, Mrs. P. M. Trats. Вьоомнично, Ра., Dec. 8, 1884.

Camden Mears, Agent:-I have been in

Vandergrift Mfq. Co. :

the laundry business constantly during the past ten years, and have tried very many different kinds of family washing machines, one of which is the New Improved Western Washer, sold by you, and I cheerfully recommend it as being the best one for my work that I have ever tried. It gives perfect satisfaction, and I would not gives perfect satisfaction, and I would not part with it for double the amount I paid for it if I could not procure another one. Any person wishing to see it in operation can do so, by calling at my laundry, Yours Respectfully, C. H. Brows,

Proprietor Bloomsburg Laudry, Dent-ler's new block, Main Street. Вьоомянино, Ра., Dec. 8, 1884. Vandergrift Mfg. Co.:
GENTLEMES:—When your agent, Mr. C.
Mears, solicited me to purchase one of
your Western Washing Machines, nothing at a desire to be courteous prompted me to give one moment's attention to it, as all the washing machines I had ever seen had proved utter failures. But when your agent, in a commendable spirit of fairness, offered to sell your machine on its merits, I could not refuse to give it a fair trial. It

has now done service in my laundry three months, and I must say that it is perfect in every respect, doing its work thoroughly and with it one girl can do the work of two, without fatigue. It is simply match less.

Very Truly Yours,

L. A. Shattuck, M. D. TRY ONE! And if you are not satisfied after giving it a fair trial return the machine to our agent, and he will refund your money.

Vandergrift Mfg. Co.

I would say that I have secured the agency for the sale of the above Popular Washing Machine. American Hand Planters and other manufactures of the above him, for the counties of Columbia, Mentour, Luscius and Schuykill, and would be pleased to deliver, and instruct in the use of the washer anyone who desires to buy oke. C. MEARS, Agent.
