

The Columbian.

BLOOMSBURG, PA., FRIDAY, JANUARY 16, 1885.

Correct Railroad Time Table.

Table with columns for Train No., Destination, and Time. Includes routes to Philadelphia and Harrisburg.

Club Rates for 1885.

A CHANCE TO GET THE BEST DEMOCRATIC PAPER IN THE COUNTRY.

The New York World is acknowledged to be the leading Democratic paper in the United States.

We do not believe in the chromo business. All the county newspapers are published at rates so low that the margin of profit is very small.

Lafayette Keeler, administrator of Thomas McHenry, deceased will sell valuable real estate on the premises in Benton township on Saturday, January 24, 1885.

J. Howard Kline, administrator of estate of Moses Everett, deceased will sell real estate on the premises in Orange township on Saturday, January 17th, 1885.

Wesley Raup administrator of Daniel Raup will sell real estate in Locust township on the premises, on Monday, January 19th, 1885.

John Applem of Hemlock is able to get out again, after having a short illness.

Col. Jamison registered at the Bingham house, Philadelphia, on Tuesday.

Mr. J. P. McHenry of Stillwater, will please accept our thanks for courtesies shown during a recent visit to that place.

Elisha Ager, a former resident of this town, made his friends a visit here recently.

Mrs. Nathan Dreshbach of Van Camp, who has been ill for some time, has sufficiently recovered to sit up in bed.

W. A. Driesbach, son of Nathan Driesbach is in business at Altoona came home on Tuesday to visit with his parents for a few days.

G. P. Frymire came from Philadelphia, on Tuesday last week, very ill. He was confined to his bed and a physician summoned.

Have you seen the cloak man? E. E. Orvis, formerly of this town, died recently at Knoxville, Tenn.

Travel has resumed between Kingston and Wilkesbarre. A son of T. C. Fowler, aged 14 years, died on Monday morning.

Goods at cost at the COLUMBIAN store, to close out. For SALE—A large bay horse, suitable for any kind of work, and not afraid of the cars. Apply to HENRY S. REAY, Rupert.

According to the Mt. Carmel News, the finances of Northumberland County are in a good condition, in its late issue they say...

SALE on EXCHANGE—A good, sound work horse, 9 years old, will sell low, or exchange on a prompt driving horse. Apply to J. R. SCHULTZ or at the Exchange Stables.

By the explosion of a boiler in the mill of Veigel Brothers at Williamsport last Monday afternoon, two men were killed, and six badly injured. The two dead men were found over 100 feet away from the mill. The explosion was caused by lack of water in the boiler.

If you need any thing in the line of a silver or gold watch or any article of jewelry, silver ware, &c. Call at I. Bernhardt, Jewelry Store, and get the best for your money.

The closing out sale at the COLUMBIAN is not simply for the purpose of disposing of old stock to make room for new goods. Everything on the shelves will positively be disposed of at cost, as the retail department of this office is to be closed and the room used as a law office, and newspaper business office, by the proprietors of this paper.

CHURCH SERVICES.—The Rev. D. F. Stiles will deliver a centennial sermon in the Greenwood M. E. church next Sabbath evening, January 18. He will speak of the "Organization of the M. E. Church, Methodist Then and Now, and the Growth of Methodism."

Religious services are held at present every evening in several of our churches—the Baptist, Lutheran, Methodist and Presbyterian. Such efforts to do good ought to be encouraged by a full attendance. To mention only the lowest motive, the prosperity of the churches lies at the foundation of our material, social and civil welfare. There is no surer way of making our boys good, useful, happy citizens, than by making them true Christians.

ATTRACTIVE AND USEFUL.—The Brown Chemical Co., Baltimore, Md., the owners of the celebrated Brown's Iron Bitters, have just issued a beautiful Hand Book and Almanac for ladies, and a complete and useful Memorandum Book for men. These publications are attractive, containing a great many valuable and interesting things. They are furnished free of charge by druggists and country store keepers, but should they not have them the Brown Chemical Co. will send either copy on receipt of a two cent stamp by post.

Some of the enterprising people of Northumberland county are making an effort to have the county purchase the bridges between Northumberland and Sunbury, and make them free for public use. We wish our neighbors success. Several attempts have been made to have our county buy a free bridge, in order to connect the south side, and give the farmers of the north side, a free passage for their products to the coal regions. While we wish our neighbors a all the success possible at the same time we would like to see our county equal with them in having a free bridge.

A Bethlehem paper announces the death of Mrs. Maggie Luch, formerly Stineman. She was a native of Bloomsburg, and about four years ago united in matrimony with Prof. E. W. Luch. The young couple removed to Bethlehem and later to West Bethlehem. The deceased was an earnest Christian lady, and a devout member of the M. E. Church. Although a resident of the Bethlehems last very few years, by her pleasing manners she won a host of friends who will learn of her sudden and early demise with deep regret. Besides her grief stricken husband, an infant daughter survives her. The funeral took place from her late home, on Brogd street, West Bethlehem, at 10 o'clock Thursday morning.

Closing Out. Some lines of our goods are all gone. We still have Fooding, Legal Cap, Letter and Note paper, in packs of ten and five quires, very cheap. Ruled Note paper for school use at 10, 15, 20 and 25 cents per pack of five quires. Ink, Mucilage, Penholders—but we cannot enumerate everything. The goods are such as everybody uses, and are going positively out at the COLUMBIAN store.

Glen City Looming Up. Our Glen City correspondent writes us that there are bright prospects in store for that village. Mr. George McAlarney, of Plymouth, one of the owners of the coal lands in that vicinity was around lately lecturing some of the leases for the land located in Scott Valley, and ordered Mr. Thos. Lynch to proceed to at once to clean up the breaker and put it in shape. Mr. McAlarney said that the company of Pittston men had been organized to take hold of the Glen City mines and put them in operation. The work of pumping the water from the mines will be commenced as soon as possible, and the breaker machinery will be put in first-class working order. They also propose to prospect for other veins of coal with the intention of increasing the capacity of the breaker. We trust that the movement will be a success.—Hed.

Mt. Carmel Murders. TWO FRIENDS MURDER A COMPANION FOR HIS MONKEY. John Mike and Jehor Baranow were last seen in Mt. Carmel, September 13th, 1884. They were seen at the Lehigh Valley Railroad depot receiving messages from their countrymen to be taken to Prussia. They had with them a considerable sum of money, some of which should have been used in paying their bills before departing. After being on board ship a few days they met a Pole named Payewski, bound for the land of his birth. As time passed the three became quite intimate. Payewski informed his companions that he had been employed at Nanticoke and by habits of industry had accumulated a snug little sum of money with which he proposed lightening life's burdens in Poland. Mike and Baranow at once determined to secure either by fair or foul means the fruits of Payewski's honest toil. The ocean was crossed and the journey inland begun. Up to this time numerous attempts had been made to steal Payewski's gold. At last just before reaching their Russian home, and while walking on the highway, a ball was sent whizzing through Payewski's brain. Patrolmen discovered the murdered man and instantly word was sent to the passport officers. Mike and Baranow were suspected and arrested. The Russian government employed Gustave Hahn Esq., a prominent German lawyer of Wilkesbarre, to gather all the facts that were possible to learn about the men. Mr. Hahn was in Mt. Carmel on Thursday and spent an hour in the Ness office in the photo gallery. He has a paper which is a word graph of Payewski in which it is believed would be plainly seen. It is Mr. Hahn's opinion that Mike and Baranow will not return to Mt. Carmel this year.—Mt. Carmel News, Jan. 10.

For the year 1885 days and dates of important events, anniversaries and holidays will fall as follows: Epiphany, Tuesday, Jan. 6; Septuagesima Sunday, Feb. 1st; St. Valentine's Day, Saturday, Feb. 14th; Shrove Tuesday (Fat Tuesday), Feb. 17th; Ash Wednesday, Feb. 18th; Washington's Birthday, Sunday, Feb. 22nd; First Sunday in Lent, Feb. 29th; St. Patrick's Day, Tuesday, March 17th; Palm Sunday, March 29th; Good Friday, April 3rd; Easter Sunday, April 5th; Low Sunday, April 12th; Rogation Sunday, May 1st; Ascension Day, Thursday, May 15th; Decoration Day, Saturday, May 23rd; Trinity Sunday, May 31st; Corpus Christi, Thursday, June 4th; Independence Day, Saturday, July 4th; First Sunday in Advent, Nov. 19th; Christmas, Friday, Dec. 25th.

Berwick. Dr. Reagan's drug store presents a fine appearance. It is one of the finest drug stores about here. The Doctor has a fine practice. E. M. Itemley is the accomplished druggist in the store. Doc. McCrea has gone to Nanticoke to practice medicine. His numerous friends wish him success. Mattie Peas, we are happy to note, is convalescent, after a month's sickness. Dr. Little's man "takes the cake" for speed.

The Evangelical Church has a successful revival. Mrs. S. C. Payne has received a beautiful letter from her cousin, President Cleveland, in response to congratulating him as to his election. We have just seen one of the finest sleighs to be found in this section of the county, built in Berwick by Prescott Bros. On each side is a drab reindeer with all the antlers. They look exceedingly appropriate and beautiful. The design of the sleigh is very unique, such as we have never seen before. It gives character to the skill and workmanship of these young men. It is to be seen in their shop back of Main street. If anyone has a prettier sleigh, we want to see it. They make carriages and buggies of the finest mold and shape. Savage, the toll-keeper, still keeps up his popularity. Nemo.

Catawissa. Our teachers have again commenced their usual routine of business after their vacation. There was quite a wreck on the P. & R. Railroad last week in which four cars were thrown down an embankment and two others off the track. No one hurt. Would it not be well for the people of this town to look after their pavements. As it is, we can hardly tell whether they are mudholes, or sidewalks. The skating rink is yet in full blast with a constant change of programme. Whether it is a benefit to the town, we will leave others discuss. We are sorry to hear that our friend Mr. Holsbee intends taking Horace Greely's advice and go west. Thos. E. Harder's new building is approaching completion. It is quite an ornament to the town. The wages of the men have again been reduced the first of this month. How will a poor man pay his bills after while a question that employers ought to consider. The new M. E. church will be dedicated on Sunday, Feb. 15th. The annual hop of Sylvania division No. 23, O. & R. C. we understand was quite a success. There is to be a local institute held in this place the latter part of March for the lower end of the county. All persons ought to subscribe for the COLUMBIAN; as it is the only, good Democratic paper in the county. Novus.

Centralia. The Continental colliery owned and operated by the L. V. Coal Company, suspended operations on Monday morning for an indefinite period. Over six hundred men and boys are thrown out of employment. The Reno tunnel at Montana, after being driven over 500 feet through the solid rock has at last terminated with very satisfactory results. A vein of coal varying from 17 to 20 inches has been struck, which causes no little joy among the residents of this borough. The company will erect a breaker as soon as the gangways are driven, where at least 500 men and boys can find employment. Thomas Callien, stable boss at Logan Colliery, was severely hurt, by being jammed between mine wagons last week. The lower boiler house at Centralia Colliery caught fire on Thursday, but was discovered in time to prevent any serious damage. Daniel Curry had a force of men engaged in filling his ice house the past week. James McElroy, the boy who was injured at North Ashland colliery last week, is rapidly improving, at the hospital. In a fight on Friday evening, among the Polanders on the outskirts of town, John Melowsky was seriously, if not fatally, stabbed. No arrests have been made, as the affair has been kept very quiet. Daniel Sweeney, the dry goods "King," received an immense stock of goods last week. The Sodality connected with St. Ignace's church, are making preparations to hold a reception some time next month. Over one hundred members attend the meetings, and the reception promises to be a very successful one. Mrs. John Hanley, who has been visiting in Clearfield county the past month, returned to town on Saturday. Judging from the manner in which our clergymen went for the skating rinks, and those who patronize them, on Sunday, the rink about to be erected here will be but simply attended. The Lehigh Valley Company have built a very cozy little house on the corner of Railroad street for the gate tender, Mr. Kelly. The Logan colliery suspended work on Monday on account of high water, caused by the heavy rains of Sunday night. Dr. Gwerner is a frequent visitor to the Ashland skating rink. Doc's whole ambition, at present, is to become an easy and graceful skater. We wish him success. Miss Mary Murphy will leave for West Chester on Monday, where she will attend school.

Beaconsfield. Mrs. Amands and Elizabeth Shoemaker and Mrs. Kiefer, visited our schools on Tuesday. We learn from some of the pupils that they are preparing for rhetorical exercises on Friday afternoon of this week. All who are interested in the work of education, will undoubtedly, be gladly welcomed by both pupils and teacher on that occasion. Protracted meeting in the M. E. Church, still in progress. At present writing we learn that Frank Parnel, who was badly hurt by a falling tree, is very slowly improving. Some hopes are now being entertained of his recovery. Lewis Hartman and family will cast their lot with the western emigrant train in the spring. Wellington Crossley moves on the Abram Stauffer lot, which he has purchased for \$740. Answer to last Benton puzzle: THE COLUMBIAN. FAIRY.

Horton. We hope our young friends everywhere enjoy the long winter evenings around their cheerful fires and comfortable fires, amusing themselves by reading useful books and papers, among which should be the COLUMBIAN, and improve their golden moments. Would you like a problem? A and B bought a side of beef weighing 102 lbs. for 7 cts. per lb. A took the hind quarter which weighed 55 lbs., and paid 1 1/2 cts. per lb. more than B did for the fore quarter which weighed 45 lbs. How much did each pay for his quarter? How much per lb.? Let each one who solves it send the answer to the editors COLUMBIAN. Should you, however, fail, ask your teacher to assist you. Up here we have March weather and muddy roads, but now it froze again. They are still boring for coal on Iphor's farm near Cambria, only that we should live in the heart of a coal center. There is a large number of coal fields hereabouts. Freeman Bower and wife of Berwick are visiting friends in Fishingcreek, Germany, this and other neighborhoods during work suspension of the Jackson & Woodin M. F. G. Co. Let the weather prophets try again and see what they will make of it. What a fine string of fish Tony Crawford, Gus McHenry, Samuel and Philip Seck, Shomo hooked out from under the ice in Edger's mill pond in Pine Creek on Monday last. If I were Willie Ashelman, I would borrow a shotgun and shoot that red squirrel that is running up and down the corner of the house so much. Another volume of history is written and completed by every person young and old. Only think how many volumes some people have written. From 80 to 100 and upwards. And now they have all commenced another volume with a dozen or more pages completed, but many will not finish. Let each one who writes seek the pen and read their contents, what astonishing and appalling history a great deal of it would be. Beware what you write every body! These books will all be opened to us and every item charged to our account in the day of settlement. A PUZZLE. I am composed of twenty-two letters. My 1, 3, 17, 4, is an expectation. My 17, 8, 6, 22 all should have for the post. My 11, 18, 3, 12, 7 is a sweet substance. My 13, 18, 15, 10, 2, 3 is a state capital city. My 8, 2, 19, 9, 10, 20, 21, 14 is the point that marks the commencement of summer or winter. My whole is a proverb whose truthfulness is attested by all who practice it.

The nineteenth century is an age of marvellous exploits and wonderful invention. Every thing seems to move with a system, and to its utmost tension. The arts are in the highest state of development and perfection, and their appliances utilized and adapted to every conceivable industry, and they have also become the great motive for transportation of huge and colossal burdens, which are carried in every direction, and from every point over our vast domain, and all over the world with the velocity of the wind, not by strength, nerve, or muscle, but by the force of steam, and by the will, ingenuity and skill of man. Not only will this continue until every portion of the inhabitable globe is peopled, settled and supplied with products, commodities and industries in all countries alike, but until every barrier and vestige of national supremacy are broken down, and an equilibrium produced in civilization, christianity and social conditions, and all tariff and labor protection swept away as naturally and surely as water seeks its level. The sciences emphatically demonstrate this idea, and every decade it becomes more evidently manifest. Ignorance and superstition fade before their glaring light as the darkness flees from the light of the sun. The full and complete realization of such a result in the natural order of progression is as inevitable and irresistible as the growing sun which courses his way through the heavens unobstructed by the shadows which continually recede on his approach. Messages are now sent all over the globe with lightning speed, and all people are brought face to face, and near neighbors in point of news, by the use of the telegraph, cable and phone, while the press, and all other educational machinery are fast battering down all partition walls of inequality, whether with a zeal of intention or prevention, knowledge or forethought, or without such an end in view, either to consummate, or oppose it, matters not, they nevertheless, all the same hasten the period as fast as time, events and circumstances will permit. Art is but the lever by which science lifts the savage and semi-civilized world into the domain of civilization and tradition to plain of equality, civilization and universal brotherhood. BESTOS.

Blockhorn. A. P. Young of Millville, visited the Patrons of Husbandry at their regular meeting on Friday evening last.

The fox chase on Saturday last caused some excitement for the day. If we would have had a few more dogs, and better ones, and some more men and boys, and it had not been so dry and windy, and there had not been so much snow on the ground not so deep, but damp and wet, and the fox had not run in a hole; in all probability Sly Reynard would have been caught.

Jesse Shoemaker of Bloomsburg, drove through these parts on last Sunday evening.

Messrs. J. Thomas and D. Stroup were with friends at Mt. Pleasant, Sunday, and returned Monday morning. Storm struck, on course.

We are pleased to know that the side walk question is being agitated, and we hope that some action will be taken upon it. This is all we need to make our town compare with other country vills. Why not have them?

Mrs. Amanda and Elizabeth Shoemaker and Mrs. Kiefer, visited our schools on Tuesday. We learn from some of the pupils that they are preparing for rhetorical exercises on Friday afternoon of this week. All who are interested in the work of education, will undoubtedly, be gladly welcomed by both pupils and teacher on that occasion.

Protracted meeting in the M. E. Church, still in progress. At present writing we learn that Frank Parnel, who was badly hurt by a falling tree, is very slowly improving. Some hopes are now being entertained of his recovery.

Lewis Hartman and family will cast their lot with the western emigrant train in the spring. Wellington Crossley moves on the Abram Stauffer lot, which he has purchased for \$740.

Answer to last Benton puzzle: THE COLUMBIAN. FAIRY.

Horton. We hope our young friends everywhere enjoy the long winter evenings around their cheerful fires and comfortable fires, amusing themselves by reading useful books and papers, among which should be the COLUMBIAN, and improve their golden moments.

Art is but the lever by which science lifts the savage and semi-civilized world into the domain of civilization and tradition to plain of equality, civilization and universal brotherhood. BESTOS.

Puzzles. The answer to last week's puzzle is "THE COLUMBIAN." It was answered by Miss Lou Westler of Berwick, Miss Blanche Ammerman of Orangeville, Miss Hattie Lantieri of Benton, W. F. Dostelich, Esq., Mr. Art Oiger of Peoria, Ill., correctly answered the puzzle in Jan. 2nd number. A Berwick correspondent sends us the following:

No. 1. I am composed of 17 letters. My 1, 9, 10, is an adjective. My 3, 5, 6, 8, is what a great many desire to be. My 14, 16, 2, is a garden implement. My 17, 16, 10, is part of a tree. My 11, 16, 3, 12, 2, is an animal. My 13, 17, 16, 6, 7, is a time keeper. My 4, 15, 7, is what tramps dislike. A Benton lady sends the following:

No. 2. My name is composed of 13 letters. My 1, 9, 10, is part of a wagon. My 12, 13, 6, 8, is what a rogue will do to his best friend. My 4, 11, 5, 7, is part of an animal. My 1, 2, 3, is worn by a person.

MINIMA. The prop business is booming again. Samuel Snyder visited his brother at Milton on Thursday.

The farm, saw mill and grist mill known as the Yohe Mill has been sold to John Bailes, Francis Becker and Chas. W. Gearhart, for 3rd district, James Robbins, Thomas Kester and Cora Keeler.

Kinney Cressy has been unable to walk for nearly eight weeks caused by hip disease. At present he is improving. Wm. Keller is sinking a well on his farm. The German Reformed and Lutheran church was torn down a week ago was built in 1809. There are two or three persons living in town who were present at the laying of the corner stone and remember it quite well.

Harvey Hess travelling salesman for Steph. Engel of Erie, spent Sunday with his father A. W. Hess. Minna has a skating rink too. Free to all. Hiram Hons of Nanticoke visited his brother G. A. of Hetterville on Saturday.

The Reforms will hold services in the English Lutheran church during their building period. Rev. Donat will preach on Sunday next at 10 A. M. Since our last writing four deaths have occurred from diphtheria. Willie Nyer, John Ervin, Lulu, and Chester Slusser. The disease, however, has not been spreading for the past two weeks.

Hurley Seybert of Illinois is spending the winter with his parents at West Milton. E. O. Jones received the sad intelligence of the death of his mother on Wednesday. She had been living with her brother near Evansville.

Court Proceedings. Court met on Saturday pursuant to adjournment. His Honor Wm. Elwell, President Judge and Hon. F. L. Shuman and James Lake associates on the Bench. In Hess vs. Wm. Patterson. Rule granted to show cause why new trial shall not be granted. In Estate of Camden Mears. Exceptions to and a report of Sheriff sold. Argued by counsel. Alfred Bower vs. William Kiser. On motion of E. R. Keler, judgment is taken for and with an appearance. Assigned estate of Jacob M. Beshline. Appraisal filed. Assignment of Beshline Bros. Appraisal filed. Bonds of Assignee of Beshline Bros. and Jacob M. Beshline approved. Edwin Jones vs. Elsie J. Jones. Depositions filed. John C. Jones vs. Denison Brink. Petition to open judgment filed. Rule to show cause granted. E. Keeler & Co. vs. Beshline and Bro. and J. M. Beshline. Petition of Sheriff for Interpleader. Public road in Greenwood near Millville. The name of Ed McHenry stricken off the viewers and Iram Derr substituted. Court adjourned to Monday.

Estate of Thomas McHenry. Specific performance of contract decreed. Road in Main township, near W. H. Fisher. Petition of Joseph Snyder, filed. Estate of Joseph Snyder. Petition of Jno. G. Quick Administrator to pay balance of \$37.00 in his hands to parties entitled thereto, filed. Estate of Hagenbach Administrator, &c., vs. John S. Shuman Administrator. Judgment reversed.

J. W. Evans vs. L. Brodennor. Rule to show cause why judgment should not be opened. Rule discharged. Commonwealth vs. J. L. Bauer. Recognition of Dr. Jos. L. Bauer with G. E. Meyers as surety in the sum of \$200 for appearance of defendant at May sessions. Commonwealth vs. B. F. Dallman. On motion costs to be paid within 30 days or non. pros. to be stricken off. Commonwealth vs. J. L. Bauer. On motion costs to be paid within 30 days or non. pros. to be stricken off. Road in Catawissa near M. E. Parsonage. William Stoker, Moses Hower and Joseph Reeder appointed reviewers.

Estate of minor children of John Sands. Bond of John E. Veres guardian in the sum of \$6000 with Veres as surety filed and approved. Estate of Christian Young deceased. Return of office, confirmed absolute.

H. G. Creveling vs. John Hiltner et. ux. Opinion filed and judgment reversed. Teachers Institute. After the resolutions were adopted Prof. Balliet continued his talk on primary arithmetic. He would not touch figures during the first six months or year of the child's schooling. Children cannot think of number without thinking of things. He showed the several processes of thought in the child's mind in learning its first lessons in figures. This closed the forenoon session.

The afternoon session was well attended by the teachers. They are not required, by law, to attend longer than till noon. Prof. Balliet then answered and discussed a few questions asked by some of the teachers. He would not teach the multiplication table. To understand a number the child must understand all the process in that number. The child has learned processes before it came to school; but those processes must be repeated with numbers till it understands all the process in connection with number and number itself. He would teach all the processes, addition, subtraction, multiplication and division in the same recitation and of the same numbers. He contended rapid calculation; because it is a mechanical operation rather than one of reason. As soon as the child can think of objects without having them present to the senses, then figures can be introduced and will be as attractive as not. It is to be taught to be taught to the contentment and admiration of the object itself.

To reform a bad boy he would try personal attachment; and keep him busy at work, giving school grounds, farms, houses, &c. evil boys should not be expelled; but fogged. Prof. Harrison then recited "The Little Girl's Wish." Dr. Waller spoke on school discipline. The school must be properly heated and lighted. The teacher must be wide awake. He should have a smooth temper and a disposition to be impartial. Prof. Walker spoke of the greatness and grandeur of the teacher's calling. The fog ought to know for he has been in the larnes for well nigh a half century. Prof. Balliet then made his last and the last speech of this institute. Study the child. Watch that you do not get in the rut. Make the child the object of study and apply the means and methods used in its education to its capacity and needs. In compliance to a resolution passed by the institute, the county was divided into three parts as follows: 1st Berwick, Milford, Briarcrest, Centre and Scott, 2nd Beaver, Bloomsburg, Montour, Hemlock, Centralia and Conyngham, 3rd Benton, Fishingcreek, Jackson, Pine, Greenwood, Orange, Mt. Pleasant and Madison. For each of these districts a committee was appointed whose duty it is to arrange for a local institute—time, place, etc. The committee are as follows: for 1st district Amelia Armstrong, H. M. Evans, Anna Millard and J. L. Snyder, for 2nd district, O. H. Bailes, Francis Becker and Chas. W. Gearhart, for 3rd district, James Robbins, Thomas Kester and Cora Keeler.

A resolution was passed that a committee be appointed to audit the treasurer's accounts. No such committee was appointed that I know of, nor has the treasurer reported to me the condition of the institute's funds. I suppose that he intends to furnish you with a copy of the receipts and expenditures of the institute. If I had not already taken up so much space I should like to digress on the probable good the institute has done. That it was a complete success there can be no doubt. The instruction was the very best and was as a rule well received by the teachers. There are, however, too many teachers who attend the institute for the purpose of having a good time, with no thought of being made better teachers. I have no thanks for the persons who saw fit to make me their scribe. I had the misfortune of not hearing a great part of what I have here reported. I will say in conclusion elect a reliable person for your scribe next time and don't forget that the absence of which makes all disinterested labor unavailing. (We have followed the phonetic spelling of the Secretary.—E.)

MARRIAGES. STRAUCH-FRITZ.—At the residence of the bride's father, Mr. Ezekiel Fritz, Jackson, Pa., January 1st, 1885, by Rev. D. M. Kinter, Mr. Eimer P. Strauch to Miss Laura Fritz, both of Waller, Columbia county, Pa. SIDLER-HARTZEL.—At the Reformed parsonage in Orangeville, January 6th, '85, by Rev. A. Houtz, Mr. Ambrose Sidler of Centre township, to Miss Anna Elizabeth Hartzel of Mt. Pleasant township. ANDREWS-RUCKLE.—At the Lutheran parsonage in Berwick, December 27, 1884, by Rev. J. P. German, Mr. Frank Andrews to Miss Hattie Ruckle, both of Conyngham, Luzerne county, Pa. THOMAS-CROSBY.—At the Lutheran parsonage in Berwick, January 1st, 1885, by Rev. J. P. German, Mr. Charles E. Thomas to Miss Lucy May Crosby, both of Kingston, Pa. MICHAEL-SHAFFER.—At the residence of the bride's parents, December 31, 1884, by Rev. J. P. German, Mr. David A. Michael to Miss Emma B. Shaffer.

One bale of good unbleached muslin 6 1/2 cts. per yd., at I. W. Hartman & Son's. Running off remnants of cotton and wool goods at I. W. Hartman & Son's. See the fine and common shirting at I. W. Hartman & Son's. You can see the Spring of 1885 in white Dress Goods, Light Coloreds, Cambrics, Percales, Gingham, &c., at I. W. Hartman & Son's. BUSINESS NOTICES. HIS SLEPPY GLASS EYE. "The Squire," says the author of "The Hoosier Schoolmaster" wore one glass eye and a wig. The glass eye was constantly slipping out of focus, and the wig turning around sideways on his head whenever he addressed a crowd of people of the Flat Creek District. Sad spectacle. Parker's Hair Balsam preserves and promotes the growth of the natural hair, or on earth, or in the natural color to hair which has faded or become gray. Clean, elegant, beneficial, highly perfumed. Sent by mail. Price 25 cents. Sept. 29-20 cent.

plation and admiration of the object itself. To reform a bad boy he would try personal attachment; and keep him busy at work, giving school grounds, farms, houses, &c. evil boys should not be expelled; but fogged. Prof. Harrison then recited "The Little Girl's Wish." Dr. Waller spoke on school discipline. The school must be properly heated and lighted. The teacher must be wide awake. He should have a smooth temper and a disposition to be impartial. Prof. Walker spoke of the greatness and grandeur of the teacher's calling. The fog ought to know for he has been in the larnes for well nigh a half century. Prof. Balliet then made his last and the last speech of this institute. Study the child. Watch that you do not get in the rut. Make the child the object of study and apply the means and methods used in its education to its capacity and needs. In compliance to a resolution passed by the institute, the county was divided into three parts as follows: 1st Berwick, Milford, Briarcrest, Centre and Scott, 2nd Beaver, Bloomsburg, Montour, Hemlock, Centralia and Conyngham, 3rd Benton, Fishingcreek, Jackson, Pine, Greenwood, Orange, Mt. Pleasant and Madison. For each of these districts a committee was appointed whose duty it is to arrange for a local institute—time, place, etc. The committee are as follows: for 1st district Amelia Armstrong, H. M. Evans, Anna Millard and J. L. Snyder, for 2nd district, O. H. Bailes, Francis Becker and Chas. W. Gearhart, for 3rd district, James Robbins, Thomas Kester and Cora Keeler.

A resolution was passed that a committee be appointed to audit the treasurer's accounts. No such committee was appointed that I know of, nor has the treasurer reported to me the condition of the institute's funds. I suppose that he intends to furnish you with a copy of the receipts and expenditures of the institute. If I had not already taken up so much space I should like to digress on the probable good the institute has done. That it was a complete success there can be no doubt. The instruction was the very best and was as a rule well received by the teachers. There are, however, too many teachers who attend the institute for the purpose of having a good time, with no thought of being made better teachers. I have no thanks for the persons who saw fit to make me their scribe. I had the misfortune of not hearing a great part of what I have here reported. I will say in conclusion elect a reliable person for your scribe next time and don't forget that the absence of which makes all disinterested labor unavailing.
