THE INAUGURATION.

Precisely at 12:30 p. m., on Wednesday, the head of the procession appeared, coming out of the main east door of the capitol. President Arthur step-ped to the front of the platform, fol-lowed by the president-elect, Chief Justice Waite and the sergeant-at arms of the senate. All uncovered as they stood facing the crowd, and the vast assemblage cheered again and again for several minutes. hand. By a compliance with the requirements of that law all the vaults of the Federal Treasury have been and are heaped full of silver coins which are now worth less than 85 per cent. of the gold dollar prescribed as "the unit of value" in section 14 of the act of Feb. 12, 1873, and which, with the silver certificates respresenting such coin, are receivable for all public dues. Be ing thus receivable, while also constantly increasing in quantity at the rate of \$28,000,000 a year, it has followed, of necessity, that the flow of gold into the treasury has been steadily diminish-

ed. Silver and silver certificates have displaced and are now displacing gold, and the sum of gold in the Federal Treasury now available for the pay-ment of the gold obligations of the United States and for the redemption of the United States notes called "greenbacks," if not already encroached upon, is perilously near such encroachment. These are facts which,

streets, the hotels, the shops, and the faces have a holiday appearance, and

of course, the festivities on the fourth of March are the all absorbing topic. The President-elect will arrive to morrow night, and will be escorted to the Arlington hotel by an appointed committee. His first glimpse future home on the morning of the inauguration will be pleasant, for, from the windows of the Arlington, beyond trees, fountains, and Lafavette park. an excellent view of the White House can be obtained. At about ten o'clock, Mr. Cleveland will proceed to the Executive mansion, accompanied by a committee of Senators where he will be introduced to President, and they will go together, in an open carriage, in the midst of a grand civic and mili

tary procession, to the Capitol. A broad stand has been erected on the Eastern front of the Capitol, and there the President elect will take his oath of office, and the President will deliver his inaugural address. Only a few hundreds will be able to hear his voice, but tens of thousands can see for the first time a Democratic President. After the ceremonies, President Cleveland and ex-President Arthur will quickly proceed to the White House, and after lunching, will take their places on a covered stand that has been erected in the grounds of the Presidential mansion, and review the procession. The latter will be five miles in length and embrace about twenty-five thousand. It will approach the Presidential stand from different rcutes. Its line of march will include portions of Pennsylvania avenue, Twen ty-second street; Connecticut, Rhode Island and Massachusetts avenues, and tion of the shattered condition of hi K street. During the progress of the procession, Pennsylvania avenue will be kept entirely clear from curb to curb, both from vehicles and people, and the police have orders to arrest any one increaching upon the street. ball room on the fifth of March for a small fee, so that those who felt unable to pay five or ten dollars for admisssion to the regular bill, might at least be gratified with a site of the decorations, and wander around in the "banquet hall deserted."

Republican Partisanship.

The practical defeat of Mr. Randall's proposition to give the Secretary of the Treasury the power to suspend the coinage of the silver dollar in his dis cretion cannot of course be fairly regarded as the work of either party. In the vote Democrats and Republicans were found on both sides.

But the proposition came from the Democratic side. The Republicans could have secured its adoption if they had chosen to do so. The vote stood 145 against Mr. Randall's motion and 118 in its favor. Of the 144 Republican members 33 voted against it and 47 ran away and dodged the vote. We do not desire to remove the re-

sponsibility from the Democrats who voted against the proposition. But the Republicans, Mugwumps and casehardened, have professed intense anxiety to suspend the silver coinage, and they are in harmony in the poor excuse make for not adopting a method for doing so when the opportunity of-

THE CABINET.

It is quite certain that the Cabinet portfolios are all disposed of. There may possibly be some changes from the generally accepted slate, but the indications are that the following persons will be President Cleveland's adrisers: Secretary of State, Bayard of Delaware; Secretary of Treasury, Manning of New York; Attorney General, Garland of Arkan as; Secretary of Interior, Lamar of M'ssissippi; Secretary of Navy, Whitney of New York; Secretary of War, Endicont of Massachusetts; Postmaster General, Vilas of Wisconsin. As the nomina-tions will not be sent in until after we go to press it is impossible to state fore definitely who they will be.

A CONGRESSIONAL BLUNDER.

The vote on the silver bill last Frilay resulted in a defeat of the proposition to give Secretary of the Treas ury power to suspend the coinage for one year. The opposition was made up of both parties. The letter of Mr. Cleveland which we print in full, gives measure.

Gen. Grant's Condition.

A special despatch from New York lated Feb 27th, and based on reliable medical authority, says :
