BLOOMSBURG, PA.

FRIDAY, APRIL 10, 1885.

Governor Pattison has re-appointed Dr. Higbee as Superintendent of Public Instruction. Dr. Higbee is a republican and has been a satisfactory official, but it is likely that the governor could have found a democrat fully as competent for the position if he had competent for the position if he had is now on the files of both Houses for the position of the position of the position of the had is now on the files of both Houses for the position of the proposed New Road Law.

An act for the establishment of a general and uniform public road system throughout the commonwealth has been introduced in the legislature, and is now on the files of both Houses for the position.

THE PRESIDENT'S LETTER.

say that to me it clearly seems to be my duty to exercise, by prompt action in this case, all the power which the present condition of the law has left in my hands, so far as it may be done independently of the state to protect the interests of the government, to vindicate the laws which have been enacted for the regulation of the postal service, and to impress upon the federal office-holders the fact that no indulgence will holders the fact that no indulgence will be granted by the executive to those Sec. 41. United States revised statutes and regulations of the post-office department, was required to transmit to the department weekly a report of the business done by him in the money order branch of his office. It appears from the official report of an inspector of the postoffice department now before me, and which was submitted to a committee of the senate, while the proposition to remove this official was before it, that an examination of his office was ordered on the 26th day of January, 1885, in consequence of the fact that no such weekly reports had been made since the 6th day of December, 1884. It further appears from this report that such examination developed the most disgrace ful confusion in all that perof his office. It appears from the offibeen no entry in the money-order book since July, 1884, and that, as might have been expected, there was a defien cy in the money-order account of more than \$700 and in the postal account of more than \$400. There is, I think, no dispute touching these facts. The deficiency has been refunded to the government under an arrangement with one of the sureties of the delinquent of lowed in any case for the opening of cial, and he attempts to excuse the such new road. wretched condition of his office by alleging that his assistant had the entire in the bill, but the above is a general charge of the money-order business as well as all other details of the office.

In making such an excuse this officer admits, it seems to me, a violation of the plain duty in turning over the operations of his office to an assistant without any pretext of the sickness or unavoidable absence of the postmaster, which is contrary to a reasonable con-struction of section 4031, revised statutes, which provided that "in case of the sickness or unavoidable absence of the postmaster of any money-order post office, he may, with the approval of the postmaster-general, authorize the chief clerk or some other clerk employed there, to act in his place, and to discharge all the duties required by law of such postmaster. By the claim now fall charge, is responsible for the delinquencies and irregularities complained of, the postmaster also appears to
contradict his owr sworn statement,
made to the department as late as September 30, 1884, to the effect that he
himself had performed, for the preceding quarter, all the money-order business in his office, except when necessarily absent. I shall do all in my powness in his office, except when necess-arily absent. I shall do all in my pow-er to rid the public service of officials entire confidence in his bonesty and fidard of political honesty.

If I cannot remove this delinquent

A member of the senate committee on post offices and post-roads, who was asked by an Associated Press reporter for an explanation of the failure of that committee to act upon the nomination of Mr. Corcoran to supercede the incumbent of the postmastership at Rome N. Such failure, he said, did occur in the case of a nomination to fill a vacancy in Pennsylvania, and he added that he is confirmed in his belief that it occurred in this case, because it is an iron-clad rule of the committee to vote in favor of ___ the removal of every postmaster in whose accounts a deficiency is shown to exist, whether that deficiency has or has not been made good.
