To Subscribers Out of the County Our books show that a considerable proportion of loss on subscription arises through the negligence of subscribers out. side of the county. Some take the paper and pay the first year in advance, but after that they allow it to run on, paying no attention to statements sent them, and at the end of two or three years we are obliged to stop the paper and lose the amount, because it is too small to send for collection. This has happened too often, and we are forced to say that all subscriptions outside the county must positively be paid in advance. Those who have received

his many friends will not soon forget him. The deepest sympathy is felt througout the city for his widowed mother, in this, her hour of trouble. An exchange has the following very sensible remark : "One of the great crimes known to the statutes is being taught in our public schools, no more, perhaps, in one town than in another, yet it is a matter which deserves investigation. When the teachers require a pupil to bring an excuse esson begins. The pupil often finds him-

self in severe straits. He knows that his parents will not furnish him an excuse and he knows that unless he does get an excuse in some shape or other, a punishment awaits him at school. A bright thought occurs to him. He will write the excuse. The teacher will not know the difference, and so he goes to work and forges his parents' name to a paper. Or, if he is not able, he has a friend, a young man, perhaps, who is always willing to help the little shaver out of trouble. So the first lesson is learned, and after that the path is

an easy one." St. Paul's Episcopal church was filled to 6 o'clock, there being over 300 people present. The church was beautifully decorated. In each window were two pots of flowering plants, and the chancel was full elsewhere. of calls lilies and other flowers. The was jets were all burning at the opening of the service, but when the sun came pouring through the stained glass windows the gas was slowly turned off, and the effect was beautiful. The music was rendered by the usual choir, consisting of Misses Brower and Hendershott, soprano, Misses Fox and Musselman, alto, Mr. P. E. Wirt, tenor, and Mr. L. S. Wintersteen, bass. Miss Musselman, who is a Normal student, re-

Died near Forks, Columbia county, Pa., on April 5, 1885, Thomas J. Hutchiso age 81 years, 6 months and 8 days.

Mr. Hutchison was born in Centre tov ship in 1803. About fifty years ago he moved to Fishingcreek township where he ourchased a farm and on which he remained until the time of his death. Mr. Eutchson was above the average of men in intelligence. This as well as his social qualities brought him to the first rank and constituted a leading spirit in social at d civil matters. He was accordingly elected to several important township offices which he filled with acceptance. He was a man of principle and not of mere policy. The question of right, and not mere gain was upper-most in his mind. This principle be endeavored to adhere to especially during his several terms of Justice of the

Peace. By industry and economy he suc-

### Exploits or John Weiss.

HIS PAST CAREER AS GIVEN BY THE News-Dealer. The News-Dealer of last Saturday gives his doings for the past few years. Many people in this county know Weiss, some alas, too well. Says the News Dealer :

For the past few days John Weiss, who was released from the Luzerne county prison last Thursday, after serving a term of imprisonment for bigamy, and who was then taken to Bloomsburg, where he was wanted for desertion, has been noticed about this city. Many stories have been published about him, and his exploits during the past year, but they were not correct and we, therfore, think if his career, just for the past seven years, were written up in full it would be very interesting. During the last seven years John has made no end of love, which has brought no end of truble upon him, and his exploits during that time would make plenty of material

Seven years ago John Weiss, the subject of this sketch, resided at Buckhorn, a small town near Bloomsburg, in Columbia county, where he was married to a pretty young lady, named Miss Maggie Miller, who was the daughter of a highly respected and well-to-do farmer named Miller. Weiss' alleged object for wedding Miss Miller was to obtain money, but he slipped up on that point as his wife would not agree to his entreaties and would always answer that she had married him with the expectation of being cared for our landlord, C. H. Deitterick, Friday like all good wives should be, and that she would not ask her father for money to support themselves with. Welss at once saw that he had made a mistake, and a short time after the marriage he told her he would go in search of employment to carr enough money to go to housekeeping with He then bid his wife good-bye, promising to return as soon as he had carned a sufficent amount of money, but from that day to this he has not been near his wife, nor offered her support in any shape or form. Not long after he had gone away a child was born to Mrs. Weiss, and she more than anxiously awaited the return of her hus band, but all in vain. She lost track of him soon after, and did not hear of him

again until he was tried in the Columbia

county courts for breach of promise.

When Weiss left Buckhorn he left for good, at least it is thought so by the persons who are acquainted with all the facts in the case. He went from Buckhorn to Mainville, a small village along the Catawissa and Williamsport branch of the P. & R. Railroad, where he found employment. He was not there many months before he of beer, for the jollification, which was ha became enamored of a young lady who was only seventeen years of age, and was con- with the beer in the vehicle, and passed up sidered one of the prettiest girls in that section. She was young and innocent when Weiss first became acquainted with her, but she did not remain so long after. He was not long in telling her that he loved her, and she believed him. During the courtship he told her that he was a single man, and she began to flove him in return. When this state of affairs was discovered by Weiss, he soon accomplished her ruin, at the same time promising to make her his wife. The marriage day was set, but, wife entered into a life long business of luckily for the girl, a few days before the happy event was to take place she learned that per lover had a wife and child living at Buckhorn, and at ouce caused Weiss' arrest. Weiss was apprehended by Constable Woodward, of Bloomsburg, and lodged in the Columbia county jail Soon after he had a trial in the courts of that county, was found guilty and sentenced to mprisonment in that jail. elaborate turkey feast for last Thursday She anticipated a grand time and so did Weiss, but both were sorely disappointed, for as soon as Weiss' cell door was opene and he walked out to be a free man again Constable Tammany of this city, stepped up and arrested him on a warrant issue I by Weiss' father-in-law, William Miller. Buckhorn. The charges against him wer desertion and non supporting his wife and Constable Tammany, assisted by Mrs

Harrold's son-in-law, John Schmidt, the ho tel keeper on West Market street, took Weiss to Bloomsburg, Columbia county, on Thursday last, and from thence to Buck Horn. At the latter place Weiss was given a brief hearing before 'Squire Moore, who held him in \$1,000 bail for his appearance at the May term of court. As no one that section was willing to become Weiss security the magistrate committed him to the same county jail from which he made his escape several years ago, but it would be an utter impossibility for him to escape from there now as Sheriff Mowrey is

## SILAS YOUNG. LIGHT STREET, PENN'A.

Should you ask our boys and girls what nation was first to use this article, the prompt answer of many would be, I don't know. Indeed you may expect a similar answer from some of the older people This being so, it is not surprising that many of our kitchen women think nothing about it, except for the sweetness it conains. Of those who do think, the extent of their thoughts are varied. Some know it as a home production; others, aided by imagination, can trace it coming from the West Indies Islands and other places; or even trace it to the place where the word originated.

When in the family circle the ancient na

tions of Central Europe are discussed, the

idea is generally received that these people our ancestors knew little or nothing of the common things of to-day. In part this is true, but they have taught many useful things, among which is the commonest of articles, sugar. And it should be remem bered when we use this article in our coffee or enjoy our sweetmeats, that, in the oldest language now known, a word is Liver Complaint, and is getting strong and found which represents the same article, Also, it should be remembered that one nation after another has borrowed from the Sanskrit language this word, sugar. It is not to be supposed that the Sanskrit word was spelled or pronounced the same as the word which we use, but each nation made such modifications from the original word as was best suited to their language. It Sarsaparilla is the proper remedy to take would be a curiosity to have collected all in the spring of the year to purify the the words that are used to represent this blood, invigorate the system, excite the the words that are used to represent this liver to action, and restore the healthy tone rticle. Indeed, it would be a beneficial study for any one to arrange and analyze all these words, tracing them back to the root from whence they came. The way we received our modified word is in this wise: The Persians borrowed the Skr. and I have tried almost everything, for I

to o, calling it Sokkar. The Spaniards borrowed this word which in their language was pronounced Azucar; from this the French has their word, Lucre, and from the French was obtained our middle English Sugre (chan. C. T. 10928), afterward modified into sugar. I do not know how those old nations used the sugar, but I am quite sure that they did not use it in the same manner in which we use the present article. Through Jeremiah, the information is obtained that the Jews knew it as the sweet cane from a far country. This proves that it was not grown on their fertile soil. Strabo, on mak ing mention of it says that Nearchus, an admiral of Alexander, found it in the East Indies, three hundred and twenty-five years before Christ. Lucan says that an oriental nation in alliance with Pompey used the juice of the cane as a common beverage It is prescribed as a medicine by Gaten, in
