A number of citizens met at the Exchange Hotel parlor on Saturday night last discuss some measures by which a bridge can be secured across the river at this place. The meeting organized by electing W. S. Moyer chairman and J. C. Brown secretary. After some discussion the following resolution was adopted :

Resolved, that the following proposition be made to the Penna. R. R. Co.—

That if they build a railroad bridge in connection with a drive bridge across the usquehanna river at Bloomsburg to con-ect with the N. & W. B. Railway with the town of Bloomsburg, we will secure to them free of charge the right of way from he river and a place to locate the depots; That we will subscribe and pay \$10,000 owards the crection of same and accept an four per cent; the revenue from the drive bridge to be collected and returned by as and applied first in payment of the interest on the amount contributed by us and the surplus applied to the payment of the prin-cipal.

On motion the following committees were appointed :

Right of way, C. W. Miller, A. Z. Schoch and I. S. Kuhn ; Solicit subscriptions, R. C. Neal, F. P. Drinker and W. C. McKin ney. On motion the meeting adjourned to meet on Saturday evening next at the same

Newspapers of To-day.

People generally, and even those may be termed steady readers and close observers, have but a faint conception of the magnitude and influence the press of this country has attained. From a careful examination of the advance pages of the 1885 edition of the American Newspaper Directory, issued May 1st by Geo. P. Rowell & Co., of New York, it appears that there are 14,147 newspapers and periodicals published in the United States and Canada; of these the United States has 12,973, an average of one paper for every 3,867 persons. In 1884 the total number of newspapers was less by 823 than at present, and while the gain this year is not so marked as in some previous years, it is still consid-Kansas shows the greatest in crease, the number being 78, while Hilnois follows with a gain of 77. It is curious to notice that New York, the scene of so much political activity during the last cam. papers as the State of Pennsylvania. As an index to the comparative growth and prosperity of different sections of the country, especially the Territoriers, the number lemic are Robert Hower, a young man of of new papers forms an interesting study, and may well occupy the attention of the

Epidemic at Plymouth.

INDUCED BY RAD SANITARY CONDITIONS.

A disease resembling typhoid fever has appeared in Plymouth, Luzerne county. Forty deaths have occurred and over 600 persons are sick. The disease frequently ends in peritonitis. The doctors, thirteen in number, are kept working night and day. They have 70 to 100 cases each, and finding that they cannot give all proper attention have appealed to the County Medical Society for aid. The distress and consternation among the people is great. Nearly all belong to the mining classes and are poor. In many cases whole families are down with the disease. The epidemic, in the opinion of the physicians, is caused by the journalism of this county, characteriz- the bad sanitary condition of the place. properly constructed gutter in the town. In the side streets, alleys and vacant lots garbage, offal and refuse of all kinds have accumulated and the recent hot weather has ed. There were nine funerals on Sunday. BUSINESS NOTICES.

names. We cannot, however, go into the subject now, except so far as to say that Dr. Kennedy's "Favorite Remedy" was called by that name, in an informal fashion, long before the Doctor dreamed of advertising it for public use. Speaking of it he would say to his patients, "This is my favorite remedy for all troubles of the blood," dc., and its success was so great that he finally spelled the name with capital let-
