Paul E. Wirt, Esq., is the owner of a Calligraph Typewriter that works in the most satisfactory manner, the proficient use of which can be learned by a child in a very short time. It is made by the American Writing Machine Company of New York. Besides the advantage in the matter of neatness, the difficulty which is often experienced by lawyers and others who sometimes write so illegibly that it is difficult for anyone to read what they write, is obviated by the use of this instrument. Mr. Wirt obtained it in a trade and for that reason will dispose of it at a bargain. Any one desiring such an instrument will do well to call on him, for terms.

The case of Mrs. Cain of Centuria, excited much interest in court on Tuesday. She was indicted for selling liquor without a license, and entered a plea of guilty. On being called before the court she stated that her husband was killed in the mines several years ago, that she had no boys to work for her, and that she sold liquor for a living the same as many others were doing. The court said it was an unpleasant duty for her to do so, and she was a poor widow, and regretted very much that some of the men who are violating the liquor law down there were not before her to be made an example of. The sentence was that Mrs. Cain pay a fine of \$50.00 and the costs, which was the least that could be imposed.

Why Deeds should be Recorded. Examine your old deeds and see if the Recorder's certificate is endorsed thereon, and if not record it. You will save trouble by observing the following reasons why they should be recorded: 1. Because a deed which is not recorded within six months after the execution of the same, shall be adjudged fraudulent against any subsequent purchaser for valuable consideration.

2. Because where two deeds are made of different dates from the same grantor to different persons, neither of which is recorded within six months, that which is first recorded will take priority.

3. Because purchasers who neglect to place their deeds upon record as prescribed by law incur the risk of former owners giving liens upon the same.

4. Because moneyed men will not make any loans to parties whose deeds are not recorded.

5. Because if by accident a deed should be destroyed or lost, it would be very expensive to get another.

6. Because to preserve a chain of title it is requisite to have all deeds recorded.

J. W. Perry, the popular host of that well-known resort for sportsmen in Sugar-loaf township, was in town on Wednesday. His hotel is right in the tourist region, and is visited annually by hundreds of fishermen from far and near. Those who can not fish are sure to have trout to eat, for there is always someone there who can supply the table. The scenery at Perry's is grand. The hotel is located in a valley, while on every side great mountains rear their lofty heights, clad in a thick growth of timber, so that in summer they look like immense mouldy pillars in solid green of every shade. The running brooks alone disturb the quiet with their babblings. Here one can find rest, recreation and enjoyment. Perry is a jolly good fellow and knows how to make it pleasant for his guests.

Sheriff's sales. The following properties were sold by the Sheriff on March 1st: A tract of land, containing 60 acres in Fishing Creek sold as property of Jacob M. Beshline to William Crisman for \$600.

Trial of a Dead Mute. The case of Albertson, the deaf and dumb man accused of stealing a live of beef from Samuel Creveling of Centru township, was tried in court on Tuesday. Messrs. Keeler and Robison were appointed to defend the accused. District Attorney Buckingham called several witnesses to prove the taking of the live, and also to show that Albertson has sufficient intelligence to make him responsible for his acts. The prisoner was not sworn, as the court was of the opinion, after receiving answers to several questions in writing, that he did not understand the nature of an oath. Mr. Keeler read a series of questions that he had put to Albertson, with the answers, in which it appeared that the defendant took the live because he claimed that Mr. Creveling had not paid him for some work. Mr. Robison, in his maiden speech since his return to the Bar, argued that the defendant was not responsible for his acts, as he has no moral perception, and was a mere child in intellect. He took the live because he believed that Creveling owed him money, and as he refused to pay, the defendant thought he had a right to take his property in this way.

In charging the jury the court said that a deaf mute may be convicted of crime, but it is incumbent on the commonwealth to show that he has sufficient intelligence to know right from wrong. The jury was out two hours, and brought in a verdict of not guilty on the ground of moral inability. As this is the second time Albertson has been tried and acquitted of larceny on the same grounds, something should be done with him now to teach him that he has no right to take the property of other people.

Messrs. Breslin and Murphy of Mt. Carmel spent Sunday in town.

A young man named Cliff was interred in the Catholic Cemetery on Friday last.

Although hardly ever, yes, seldom, worth one's while, still in justice to myself but especially to Mr. Lenahan, our worthy Chief Burgess, I desire to reply to his letter of last week. In the first place, Mr. Burgess, I never inferred that you were an ignorant or a negligent officer, far from it. But since Mr. Lenahan is so kind to state that on my night there was a fight, and that on the Main Street. This, dear Burgess, I do not by any means charge to you as being negligent. Far from it! I merely desire to substantiate the assertion I made. Again you speak of the intelligence of the members of our town council. Grant it. From one of the most prominent of that body of men, I received the story that there was a fight, which evidently occurred on Monday, and that our worthy Chief Burgess desired to stop them but found them outside of the borough limits. Naturally coming from such a reliable source I could not, nor can I now come to any other conclusion. As to my identity you are a little bit off. I am from the next town to Raven Run. I would infer from your communication, that my letters dragged the morals of our citizens in the mud. I deny that I ever in all my letters wrote anything derogatory to the good name of Centuria. We, no doubt, have some wild young men, who can
