The contract for printing 2000 catalogues or the Normal School, has been awarded to the Columbian because our bid on the ob was \$35 less than the Sentinel, and \$20.50 less than the Republican. This looks like a wide margin, but we are able to do work of this kind much cheaper than any other office because of our greater facilities. With our new job press we can turn out books with about half the amount of press work that others have to do, while our press is run by water power and all others go by foot power, which greatly diminishes the labor, and enables us to print much more rapidly. Another of the promised articles on the great industries of America will be given n the July Harper's, the subject this time being the making of "A Silk Dress." The Philadelphia ladies of the "Woman's Silk Culture Association," who are endeavoring to promote the growing of silk-worms in this country, speak of it as "America's new industry," but as a matter of fact silkgrowing was attempted in the new world oon after its discovery, and all through our colonial history schemes in this direction were numerous. The moris multicastis mania of about 1837 was the most extraordinary outburst of the silk fever, and some amusing stories are told of it. There is now little slik-growing in this country, but silkmanufacturing has become a leading industry, so that more than a third of all the silks worn in this country are made here. The Harper paper will describe each step in the process of manufacture, with many illustrations and ladies may learn from it some thing as to the differences between good and bad silk which may help them in their

If thunder and lightning ever strikes ter

or to the heart, the occasion for it was presented during a series of thunder storms on last Sunday night. The one in question passed over this place a few minutes after deven o'clock p. m. It was only about ten ninutes duration. The aerial artillery pened up with fearful rapidity. The vivid, glaring and blinding flashes of lightning were accompanied by deafening peals of hunder which echoed and re-echoed from the hills till there was a fearful and continyour roar, mingled with terrific and incesant discharges followed in rapid succesion till one was seized with fear over which he had no control, and which made im shudder in the awful solemnity and threatened demolition which the angry ele-ments played in defiance of all, desire of their absence. There was a sense of thankful relief when this electric battery had passed over. There was no hall, nor strong wind, neither excessive rain. The distant nutterings of its approach gave warning of the character of its dealings, as also the ireadful sounds of thunder indicated as it passed away in the dis tance. Susquehann : Synod. The Fifth Annual Convention of Wom ens' Home and Foreign Mission Society of Susquehanna Synod met in the Lutheran church on Tuesday afternoon at half past wo o'clock. The session was begun with H. Schleppy, after which was an enrollment of delegates and appointment of committees. An essay was given on the subject of "India," by Miss Mary Tilson of Danville.

The evening session was opened by election of the choir, followed by prayer by Rev. Hughes of Williamsport. Miss Miss Emma Jones gave a very entertaining and appropriate address of welcome which was followed by a written response by Miss Sharpless of Catawissa. A selection of music was given by a number of young ladies Mrs. Brooks presiding at the organ. Miss Eva Schoch of Selinsgrove did herself credit in giving a recitation. The address of the evening was given by Rev. J. Wager of Hazleton.

On Wednesday morning after the deve tional exercises, Mrs. F. J. Schoch of Se-linsgrove, president of the Society gave an address, following which was a solo by Lottie Kuhn. The secretary and treasurer's reports were given, after which was an essay by Miss Lizzie Gundy, also one by Miss Anna Bricker, subject, "The Savior's ast Command." The afternoon session was comme

with devotional exercise conducted by Mrs. F. J. Schoch of Selinsgrove. Officer's for the ensuing year were elected as follows President, Mrs. Ramsdel of Hughesville Secretary, Miss Mary Tilson of Danville Corresponding Secretary, Miss E. Dengler of Bloomsburg ; Treasurer, Mrs. Schleppy of Hazleton. Addresses were made ministers, reports of committees given &c., which closed the session of the Wo

men's Convention. Synod proper was commenced Wednesday evening. The opening address was given by Rev. S. P. Barnitz, Western Secretary of home missions. The sessions have been well attended, and much inter est shown. We expect to give a full report next week.

We had quite an extensive fire in our town on Sunday morning. As Mr. F. L. breakfast the cry of fire was heard and on running out they discovered the back part of the house to be on fire. Every effort was at once made to save the house, but it was found impossible to accomplish it, though the citizens, with the aid of the fire engines did all they could to save the building, but the greater part of the furniture was saved. The fire would have caused the entire destruction of that part of town had it not been for the new water works, but unfortunately we have not yet hose to use the water to the best of advantage. We hope that some one will take the matter in charge and organize a hose company at once and I am sure this lesson will each the citizens to encourage it financially. Mrs. Shuman's clothing after being carried to Maj. Seesholt's house caught fire

from sparks hid in them and were consum e I with some of Major's furniture. No in Mr. C. F. Harder's lumber yard caught fire on Tuesday forenoon, but it was extinguished by one of his men before it Lad time to do much damage. The fair and festival held at the Tank school house by the United Brethren church was well at

Pay day this week on the Philada. Reading R. R. There is a thought in connection with pay day, that I shall give free. Quite a number of men who do, and who do not find employment, on the railroad are quite demonstrative, when their pay does not come regularly, but they have payments to be made which have been standing a year, and when they get their we still hear from the direction of many pay they never think of those debts, but

Dip one end of a sponge in water and the whole will soon be saturated. So a disease in one part of the body affects other parts. You have noticed this yourself. Kidr ey and liver troubles, unless checked, will induce constipation, piles rheumatism and gravel. A timely use of Dr. Kennedy's Favorite Remedy will prevent these results. It is pleasant to the taste and may be taken freely by children and delicate females. It gives the elasticity, life and checks with roses on them.
