FOUR ACTS PLAYED! Sad Report About Ex-President Arthur

WILL THE FIFTH AND FINAL ACT BE A TRAGEDY.

"Dr. Lincoln who was at the funer-"al of ex-Secretary Frelinghuysen," says ex-President Arthur looked very "unwell. He is suffering from Bright's "disease. During the past year it" "has assumed a very aggravated"

"form."
That telegram is act IV, of the drama written by ex-President Arthur's physicians. In Act I he was made to appear in "Malaria," of which all the country was told when he went to

In Act II. he represented a tired man, worn down, walking the sands at Old Point Comfort and looking eastward over the Atlantic toward Europe for a

over the Atlantic toward Europe for a longer rest.

The curtain rolls up for Act III. upon the distinguished actor affected with melancholy from bright's disease, while Act IV discovers him with the disease "in an aggravated form, suffering intensely, (which is unusual) and about to take a sea voyage."

Just such as this is the plot of many dramas by play-wrights of the medical profession. They write the first two or three acts with no conception of what their character will develop in the final one.

final one.

They have not the discernment for tracing in the early, what the latter impersonations will be. Not one physician in a hundred has the adequate microscopic and chemical appliances for discovering bright's disease in its early stages, and when many do finally comprehend that their patients are dying with it, when death occurs, they will, to cover up their ignorance of it, pronounce the fatality to have been caused by ordinary aliments, whereas these aliments are really results of bright's disease of which they are unconscious victims.

bright's disease of which they are unconscious victims.

Beyond any doubt, 80 per cent. of all deaths except from epidemics and accidents, result from diseased kidneys or livers. If the dying be distinguished and his friends too intelligent to be easily deceived, his physicians perhaps pronounce the complaint to be pericarditis, pyæmia, septlammia, bronchitis, pleuritis, valyular lesions of the heart, uneumonia, etc. If the deceased be peumonia, etc. If the deceased be less noted, "malaria" is now the fash-ionable assignment of the cause of death.

But all the same, named right or named wrong, this fearful scourge gathers them in! While it prevails among persons of sedentary habits, lawyers, clergymen, congressmen,—it also plays great havoc among farmers, day laborers and mechanics, though

day laborers and mechanics, though they do not suspect it, because their physicians keep it from them, if indeed they are able to detect it.

It sweeps thousands of women and children into untimely graves every year. The health gives way gradually, the strength is variable, the appetite fickle, the vigor gets less and less. This isn't malaria—it is the beginning of kidney disease and will end—who does not know how?

No, nature has not been remiss. In-dependent research has given an in-fallible remedy for this common disorder; but of course the bigoted physicians will not use Warner's safe cure, because it is a private affair and cuts up their practice by restoring the health of those who have been invalids for years.

The new saying of "how common bright's disease is becoming among prominent men!' is getting old, and as the Englishman would say, sounds "stupid"—especially "stupid" since this disease is readily detected by the more learned men and specialists of this disease. But the "common run" of physi-cians, not detecting it, give the patient Epsom salts or other drugs prescribed by the old code of treatment under which their grandfathers and great grandfathers practiced !

Anon, we hear that the patient is "comfortable." But ere long, maybe, they "tap" him and take some water from him and again the "comfortable" story is told. Torture him rather than allow him to use Wainer's safe cure With such variations the doctors play upon the unfortunate until his shroud s made, when we learn that he died from heart disease, pyremia, septicamia or some other deceptive though "dig-

Ex-President Arthur's case is not singular—it is typical of every such case. "He is suffering intensely." This is not usual. Generally there is almost no suffering. He may recover, if he will act independently of his physicians. The agency named has cared thousands of persons even in the ex-treme stages—is to day the mainstay of the health of hundreds of thousands. It is an unfortunate fact that physi cians will not admit any virtue outside their own sphere, but as each school denies virtue to all others, the people act on their own judgment and accept things by the record of merit they

The facts are cause for alarm, but there is abundant hope in prompt and independent action.

The only time that nature gets the "blues" and shows blue blood is when driving a nail a nail is mashed.

There are, it is calculated, 752 miles of streeet railways—tramways, as they are called over there—in England.

The game of war stretches out wonderfully and there is much curiosity to know who will win the India rub-

Amputation of the Leg.

Money is the universal necessity, and none but a grate or a foot will affect to despite it. Mr. Abram Ellsworth, of Port Ewen, Ulster County, N. T., had realized this truth. His disease involved Abrain Ellsworth, of Port Ewen, Ulster County, N. T., had realized this truth. His disease involved the whole of his thigh-tone, and the suffering man looked forward, not without apparent reason, to death as his only delivery. The family physicians retues to amputate the limb, asserting that the operation would kill the patient on the spot. Dr. Breid Kinnielly, of Rondout, N. Y., who was consulted, heid a different opinion and amputated the limb. The Doctor then administered freely his great Blood Specific FAORITE REMEDY to afford tone and strength to the system and prevent the return of the disease, and Mr. Ellsworth remains to this day in the bloom of health. This, gentleman's disease was the offspring of foul blood, and Kennedy's EAVORITE REMEDY purified the blood and restored to him the power once more to enjoy his life. Are you suffering from any disease traceable to the same cause? Try Favorite Hemedy. Your druggist has it. ONE BOLLAIR abotile. Bear in mind he proprietor's name and address: Dr. David Kennedy, Rondoud, N. X.

To keep the blood pure is the principal end of inventions and discoveries in medicine. To this object probably no one has contributed more signally than Dr. Bavid Kennedy, of Rondoud, N. Y.

It removes all impurities of the Blood, regulates the disordered Liver and Kidneys, cures Constipation, Byspepsia, and all diseases and weaknesses peculiar to females.

Office ever Kicim's Drug Store, season, by the color of all hours during the day No. 25 -17 Pigeon Catching in Samoa.

The ground being cleared, the chiefs stationed themselves at distances all stationed themselves at distances all round a large circular space, each concealed under a low shed or covering of brushwood, having by his side a net attached to a long bamboo. and in his hand a stick with a tame pigeon on a crook at the end of -it. This pigeon was trained to fly round and round as directed by its owner, with a string at its foot thirty feet long, attached to the end of the stick. Every man flew his pigeon, and then the whole circle looked like a place where pigeons were flocking round food and eons were flocking round food

water. The scene soon attracted some wild pigeon, and as it approached the spot, whoever was next to it raised his net and tried to entangle it. He who got the greatest number of pigeons was the hero of the day and honored by his friends with various kinds of food, with which he treated his less success-ful competitors. Some of the pigeons were baked, others were distributed about and trained for further use. Taming and exercising them for the sporting season was a common pas Sugar Corn .- There is no more pro

fitable crop to plant in the truck patch

than sugar corn, and it comes off in

time for lace cabbage or celery. There are a great variety of kinds that riper at different seasons and a succession may be had by planting at different times, several varities of the evergreen. Sweet corn at all seasons of the year is not only a luxury but has come to be a necessity of the well set table. It is very nutricious and wholesome and eaten in moderation, it is quite healthful for all kinds of animals and all but humans will consume fodder and all, so that nothing is wasted. It will pay to plant for hogs alone and they thrive better on it than all the time on dry sorn. Those who are handy to mark t can sell fifty dollars worth per acre and have enough left in stalks and small ears to pay all expense of rais-ing, if they feed it to pigs, cattle and horses. We advise farmers to plant nore at different times and learn the profit in it for themselves; then they will not be satisfied with a few nubbings once a year as has been the prac-tice with the many.

War Statistics.

From official records of the war de partment, based on losses given, and the total number of men furnished by the States and Territories during th war, it appears that :

Out of every sixty-five men, one ma vas killed in action. Out of every fifty-six men, one man lied of wounds recived in action. Out of every thirteen men, one man

died of disease Out of every nine men, one man died while in service. Out of every fifteen men one was aptured or reported missing. Out of every ten men, one man wa

Out of every seven men one died while in captivity. Wise Words.

vounded in action.

It is not what we earn, but what save, that makes us rich. Be graceful if you can : but if you can't be graceful be true.

A man needs a strong, genial companion, and not a shadow. As every thread of gold is invaluable so is every minute of time.

Too great refinement is delicacy, and true delicacy is solid refinement. Do not say "It does not pay to begin what we will probably never finish." The beginning may be the part assigned to you.

Many people take no care of their money till they have come nearly to the end of it, and others do the same with their time. Money will make us work, but mon

ey will not make us give our hearts to the work—nothing but love for our work or real good principle can make us do that. Death is the liberator of him whom freedom cannot release, the physician of him whom medicine cannot cure, and the comforter of him whom time

annot console. No article of furniture should be put to a room that will not stand sunlight, for every room in a dwelling should have the windows so arranged that some time during the day a flood of sunlight will force itself into the

For every life there is a summit Happy are they who gain it, and sad the lot of those who faint and fall in the strugle. Short or long to the top. it can only be scaled by persistent climbing. There must be ambition to climbing, There must be ambition to do and dare or the prize will not be

What a vast deal of time and ease that man gains who is not troubled with the spirit of impertinent curiosity about others; who lets his neighbor's behavior and thoughts alone; who confines his inspection to himself, and cares chiefly for his own duty and con-

There is economy in laying out the beds of a garden that should not be overlooked. A grape trellis in the cen-tre, instead of training the vines along one side near the fence, is a perpetual hindrance to orderly arrangement and convenient working. The strawberry bed, also, if not to be plowed, should e on one side, and not come between beds designed for the plow.
