FRIDAY, SEPTEMBER 25, 1885.

Taxes must be paid thirty days before election. See to it at once.

The chairman of the Democratic county committee requests that each member of the committee shall appoint three or more active democrats as a vigiliance committee, and send the names at once to the chairman.

C. C. Evans Esq. is a gentle man of ability, and a lawyer with a promising future, but we advise him not to accept the republican nomination for district attorney, unless he wants to be snowed under by an avalanche of democratic votes.

A conference of the Democratic County Chairmen and State Committeemen of Carbon, Columbia, Schuylkill, Bradford, Wayne, Wyoming, Luzerne and Lackawanna counties was held at and is liable to change hands soon, and Mauch Chunk on Tuesday. Chairman Hensel and C. B. Day candidate for State Treasurer, were present besides many other prominent democrats. The plan of the campaign was discussed, and the reports from the several count-ies were greesent besides the several count-ties were greesent to be the several count-ties were greesent to be the several count-ter the several count-ter the several counties were encouraging. David Lowen-berg, Geo. E. Elwell and William Bryson represented Columbia county.

Messrs. Hensel and Day are holding similiar conferences all over the State.

We are authorized by Robert Buckingham Esq. to say that the allegation of a bargain between him and Thomas Chalfant of Montour county concerning the senatorial nomination next year, is utterly false. He denies ever having a word of conversation with Mr. Chalfanlt on the subject of the senatorship. Mr. Chalfant favored the appointment of a Montour county man for deputy collector, from which it would appear that he did not want Mr. Buckingham appointed.

We are also informed that Mr. Chalfant is a candidate for the Danville post office, and if this be true, he would not be seeking the senatorship at the same time, a circumstance which would corroborate Mr. Buckingham's denial of the alleged bargain.

For some reason or other it takes about two years for the State reporter to prepare and print the opinions of the Supreme Court, so that when the State reports are ready they are two years behind time. The term of the present reporter, Mr. Outerbridge, will soon expire, and if the Governor has any desire to do a good thing for the membra be all people he will appoint some one as his successor who will perform the duties of the important office with much more promptness. There is no reason why the Supreme Court decis-ions should not be published within a very few months after they are handed nity, as well as benificial to the peo-ple generally by making known the feet below the present surface of the their mouths. They st law as soon as it is declared by the ground. This long delay is utterly inexcus-ble. When the nameblet laws delay is utterly inexcus-This long delay is utterly inexcusable. When the pamphlet laws used to make a book of one thousand pages or more, they were printed and distributed in much less time than it takes the state printer to get out a book of two or three hundred pages now. If the state printer has not the facilities for doing the work of the state within a reasonable time, he onght to be removed, and let some one be appointed in his stead who can furnish copies of the laws with some degree of promptness. Just now This method is adopted to save ex-ice cream tables, puff ance of the law is no excuse. Just now it would be a hardship to enforce this strictly so far as the laws passed at the last session of the legislature are con-cerned. It is more than three months since the legislature adjourned, and up to this time the lawyers and even the contractor feels assured that he can finish the North and South parts of the terrace before the close of the present building season. Preparations are now being made to lay the flagging of the North terrace, which also forms the roofs of the vaults. There will be twenty large rooms on the North side.
