Who does not delight to see a good looking face? Tet erysipelas distigures the features almost beyond recognition. But that is not the worst of it. The disease is as dangerous as it is repulsive. It is sometimes called "St. Anthony's Fire," and often causes sudden death. Mr. S. B. Carpenter, of Grandville, N. Y. had it in both legs and was cured by Dr. Kennedy's Favorite Remedy. This medicine excels all others for the blood. Especially adapted to persons in feeble health.
