

Office-Seeking.

The order of the President including office-seekers and Senators and Representatives in pursuit of the same purpose for their constituents from executive interviews is an act of moral courage which sustains all that has been claimed for Mr. Cleveland as a man of conviction and fearlessness in the path of duty.

In the very earliest days of Washington's administration he was terribly annoyed by the importunities of men getting the machinery of an Executive office in motion.

At last, he tells us, the rivalry became so great that the most bold crowded into his sleeping apartments before he was out of bed in the morning.

During the earlier administrations, the number of offices being comparatively few and political contentions having higher aims than a war of spoils, the changes in office were few.

In Jackson's time the cry of the victors belonging the spoils infused this disgraceful doctrine into American politics.

The clamor of Congress, on the contrary, has increased the number of clamorous aspirants, reinforced as they are by the Senators and Representatives.

J. H. Mercer would especially recommend to the ladies Acker's Dyspepsia Tablets. As a laxative they have no equal.

J. H. Mercer wishes to make an assertion, which he can back with a positive guarantee. It is all about Acker's Blood Elixir.

Only Genuine Bitters Known.

He Was Afflicted with Stone in the Bladder.

Mr. S. W. Hicks, of Pleasant Valley, Dutchess county, N. Y., the son of Mr. S. V. Hicks, whose name may have appeared in this journal in connection with an article similar to this was, like his father, afflicted with stone in the bladder, only that his case was more serious than his father's.

The Bloomsburg Public Schools.

In November 1873 the issue of the Congressional Record was published, containing the Educational Directors of Bloom District and their Remedies.

The writer also declares, "No wonder the better sense of the teachers refer to the board of directors of the town of Bloomsburg, I desire to say publicly that my better sense has never revolted against the process to which the writer refers; but on the other hand when by comparing the public school of Bloomsburg with like schools of other towns and cities; I find that the upper grades of the Bloomsburg school of the year 1872 were the corresponding grades of the Wilkes-Barre, Williamsport schools.

It is evident that a great wrong has been committed in the public school of Bloomsburg and it is one for which the fathers and mothers, who have been paying the taxes for the purpose of educating their children to investigate this matter and decide which is the proper manner to instruct, to teach a child to read before he learns to write.
