Politics Too Much for Him-

A lady on Fifth Avenue, New York, quickly summoned a doctor:
"Ob, doctor, my husband is nearly dead. He attended a caucus last night. He made four speeches and promised to be with his fellow eitizens again to-day. But oh, doctor, he looks nearly dead."

"Has he been in politics long ?"
"No, only last year. He worked hard for "James McCaulay's election." "He will get well, madam! He has a stomach for any disease, if he work-

Political life, of short or long duration, is very exhausting, as is evident from the great mortality which prevails among public men. Ex. U. S. Senator B. K. Bruce, who has been long in public life, says:

"Daisy! O, Daisy!" almost shricked a stylishly dressed lady at the Union depot yesterday morning as she left her two children and hurried through the crowd. The cries and evident distress of the lady touched the heart of the bystanders, who followed her as she looked under the trains and the platform, crying all the while in a piteous voice: "Daisy! Daisy! where are you?" Several unfeeling men who got near enough to speak to her were heard to mutter "-Daisy! as they moved away with a look of disgust on their countenances. Others were picturing to themselves a pretty, prattling babe wandering about in the unteeling crowd in a vain search for its mother; or, frightful thought! crushed beneath the whells of a car. They followed her as she ran frantically up the elevated waiting-room stairs. At last, unable to find Daisy, the woman returned to the depot, and taking a seat burst into a flood of tears.

"Madame," said Depot Master Rogers as he led to her the two children whom he found wandering an ong the crowd, "I found these two out on the platform and the other can't be far away. Cheer up. We will find your other. If not..."

"Oh, it wasn't a child," wailed the lady between her sobs, "it was my

Origin of "O. K."

In the language of the Choctaw Indians, one of the most frequently re-curring expressions is the oke with which an affirmation or denial is conunder date of 1780, is the contract which they drew up and signed—signed, in "the presence of God, the angels, and these witnesses, to love, ive verb to be, which is wanting in love, ive verb to be, which is wanting in love. Choctaw. Oke, as pronounced in and Choctaw, has exactly the same sound

angels, and these witnesses, to love, to cherish and nourish," and to "love, honor, and obey him," as husband and wife, so long as God should continue heir lives.

Only resperance Bitters Known.

Choctaw, bas exactly the same sound as the alphabetic pronunciation of the letters O K in English.

The meaning of the expression, as nearly as it can be conveyed in English, is: "That is true; that is all so." A few examples out of many that might be cited will illustrate this. "The Choctaw Indian is a good fellow," is expressed thus: Hattack api huma Chahta nehukmah oke, in which hattack api huma means "Indian" (literally, man-body-red), achukman means "good," and oke is the copulative ex-"good," and oke is the copulative expression, "it is so." In Rev. Cyrus Byington's Choctaw new testament, the first sentence of Matt. v. 12: "Ye are the sult of the earth," is: Gakni in huppi huchchia hoke, literally; "the earth its salt ye; that is so."

To General Andrew Jackson is attributed the introduction of the Choctaw word into our Anglo-American speech. Before the war of 1812, in voyages up and down the Mississippi, and in trading expiditions over land from Nashville, Tennessee, to Natchez, Mississippi, through the Choctaw naticn be was brought into frequent communications with the Choctaws.

General Jackson, as everbody knows, was prone to the use of downright and energetic methods of assertion. Hearing this emphatic oke so frequently uttered by the Chocaw people, he learned the meaning conveyed by it to the chectaw mind, and appropriated it out of hand to his own purpose.

From him it passed over to the multitude. This account of the origin of
O. K. has been current in the South for many years. If not true, it is, to

No one who has ever read an auto-graph letter of General Jackson will easily credit the story that he was in the habit, when he was president of the United States, of indorsing in kaltem blue, applicants for office with the letters O. K., under the belief that these were the proper initials for "all correct." Jackson was no scholar, but he was no so ignorant of English orthography as to fall into a blunder of that sort. He may have indorsed documents with the letters O. K. as a jocular symbol of his favorite Choctaw expression. The story that these letexpression. The story that these let-ters were seriously intended by him as an abbrevation of "oll korrect" was probably, as Mr. George Bancroft sug-gests, as a posteriori invention of the enemy—to-wit, the Whigs—during the hot political contests in the days of the roaring '40's. The Telephone Girl.

There had been an unusual electri cal disturbance, and the telephone girl had received several discouraging shocks while answering calls. "All right! Here it is." "Hello! Is Mr. Bullwinkle there ?" "No,ma'am, replied one of the clerks. "Do you know where he is ?"

"She did, ch ?" said Mrs. Bu'lwinkle, sputtering into the transmitter. "The hussy! We'll see!" And when the same number called for a surgeon just before bedtime, the telephone girl knew that Mrs. Bullwinkle "had seen."

A young postmaster of a village postoffice was hard at work when a gentle tap was heard upon the door, and in stepped a bashful maiden of 16, with a money order, which she desired cashed. She handed it to the official with a bashful smile; who after close-ly examining it, handed her the money it called for. At the same time he asked her if she had read what was written on the margin of the order.

"No, I have not," she replied, "for I cannot make it out. Will you please read it for me?" The young postmaster read as fol-

ows: "I sent you three dollars and a dozen kisses. "Glancing at the bashful girl, he said: "Now I have paid you the money

and I suppose you want the kisses."
"Yes," she said, "if he has sent me any kisses I want them, too." It is hardly necessary to say that the balance of the order was promptly paid, and in a scientific manner at that, and eminently satisfactory to the

country maiden, for she went out of

the office smacking her lips as if there was a taste upon them she never encountered before. After she arrived home she remarked to her mother: "Eh, mother, but this postoffice system of ours is a great thing, developing more and more ev-ery year, and each new feature added seems to be the best.
