never used ; and (3) that the schools have not deteriorated, but improved.

In our first communication we showed that the word method of teaching reading is philosophical, being based upon well es-tablished psychological principles; it can-not therefore be erroneous. It is, too, the method employed by the large majority of intelligent and early of the start of th fell November 21 from \$1.25 to the sentence method—both of which are more difficult than the word method. The assertion made in the preamble, that the word method of teaching reading is a fail-

ure, is consequently a mere invention and without the shadow of truth ; and since the directors did not express any doubt as to the qualification of the teachers (because That sinch fairs is a they could not), there remained but one party to whom short-comings could be charged, if there were any, and we do not loubt that they existed. Can those of the mous.

lirectors who preferred the charges, see It can make little difference to any one Our schools are in a flourishing condiwho "Justice" is, as long as he seeks noth-ing but truth and justice. Frothy articles headed Methods of Instruction, New Methtion under the jurisdiction of Miss Amelia ods, or anything else, and containing igno

rant assertions, misrepresentations, and evasions, do not irritate him ; even the truth would not do so. Those who write Lu Frantz knows how to yend the bes trath would not do so. Those who write the articles in question, need not worry themselves about the feelings of Justice ; but he would gently remind them of this fact, namely, that if they continue to make such unfounded statements as they have been doing he will not hesitate to show them up in their true light, whenever he finds the it The COLUMBIAN is welcome here owing Isuac Hess of Beach Haven shot 28 cents. ducks in one day lately. evidence of their unfitness. We are told, further, that the graduates of the Normal have always had the prefer-ence in the Bloomsburg schools; if giving them inferior positions, such as those of as-sistants, is considered a preference, then truly they have, until within a few years, had the preference. Wonder-ful preference: One of the directors for the past "six or eight years, whenever an opportunity was afforded him to do so, spoke in opposition to what he called the new methods, and yet we are told that these methods were to have a fair trial, and that the directors come to their "careful a prosperous time. We are

that the directors come to their "careful that we make it brisk by just examination" unbiassed. Remarkable asthat we make it brisk by just sertions ! But the new methods are so unpractica. E. D. Hagenbuch lost a valuable young

skipped the mention of-the

ble that the Biomsburg directors could not find among the graduates any who could carry them out. Another assertion that needs to be taken with many grains of allowance. Perhaps, however, the lan-terns with which the directors groped their way had been filled with an inferior quality

There remain yet a few questions which we should like to have the directors an-swer fairly and equally 1. Why is it that a number of the teachers now in these schools have elsewhere taught the new workhold with a start of the new The Christmas thousands of knowing people don't come here for nothing. methods with uniform success, but have been unable (?) to do so here ? 2. Why are these methods, a success, in the neighbor. "hestnut, Thirteenth and Market streets. and City-hall square. ing towns of Catawissa and Berwick, but not here? 3. Why are these methods a success wherever they have had a fair trial, except here? 4. Why are the graduates of the Normal considered among the most skillful and successful teachers wherever methods and hot here?

The whole tack, the whole time, the whole desire, the whole offort of L W Hartman & Son, for the next two weeks will be to please the people with Christ may grade employed, but here? Nothing could a test better the success of the graduates of this school than the increased number of students who annually come here to f
