Excitement Unabated.

PROOF THAT THAT PHYSICIAN'S TERRIBLE CONFESSION IS TRUE.

Cleveland, O., Herald.

Yesterday and the day before we copied into our columns from the Ro-chester, N. Y., Democrat and Cron-mad, and there is no use in sending the icle, a remarkable statement, made by J. B. Heuion, M. D., a gentleman who is well known in this city. In that bitten persons to him for treatment for hydrophobia. This advice accords is well known in this city. In that article Dr. Henion recounted a wondet-ful experience which befell him, and the next day we published from the same paper a second article, giving an occount of the excitement in Rochester and elsewhere, caused by Dr. Henion's statement. It is doubtful if any two articles were ever published which

statement. It is doubtful if any two-articles were ever published which caused greater commotion both among professionals and laymen. Since the publication of these two articles, having been besieged with letters of inquiry, we sent a communi-cation to Dr. Henion and also to H. H. Warmar & Ca. asking, if any moof Warner & Co., asking if any proof could be given, and here it is:

GENTLEMEN: I owe my life and present health wholly to the power of Warner's Safe Cure, which snatched me from the very brink of the grave It is not surprising that people should question the statement I made (which is true in every respect) for my recovery was as great a marvel to myself, as to my physicians, and friends.

J. B. HENION, M. D.

ROCHESTER, N. Y., Jan 21. Sirs: The best proof we can give you that the statements made by Dr. Henion are entirely true, and would not have been published unless strictly so, is the following testimonial from the best citizens of Rochester, and a card published by Rev. Dr. Foote. H. H. WARNER & Co.

The Color of the Eye.

Some curious researches have recent. ly been undertaken by Swiss and Swedish physicians on the color of the eye, but without any japparent practi cal purpose. For convenience all eyes were divided into blue or brown, the various shades of gray eyes being clasaified according to the prominence of blue or brown in their color. Some of the conclusions drawn from a great many observations are these : That women with brown eyes have better prospects of marriage than those with e ; that the average number of children is greater with parents whose eyes are dissimilar in color than with those whose eyes are similar. In children both of whose parents have blue eyes 93 per cent, inherit blue eyes; but in children both of whose parents have brown eyes only 80 per cent. have brown eyes. The above results were reached in Switzerland. In Sweden the discoveries were not quite the same. The women with brown eyes are more numerous than the men with brown eyes, but brown eyes are apparently increasing there, as in Switzerland.

The story that John W. Wilson, the self-confessed murderer of Anthony Daly, was starving himself to death

in the Montgomery County jail is untrue. Wilson is in good condition. His trial is set down for March.

The preliminary suit for the sale of the Beech Creek Railroad property has begun in Clearfield County. The suit is for \$1,300,000 coupon bonds held by the United States Trust Company. The Court has been asked to name a day of sale, and it is thought that the property may go into the hands of the friends of the Pennsylvania.
