Marrying for Pensions.

Congressman Bragg, of Wisconsir has discovered a new and peculiar con-spiracy against the national welfare. seems, according to his showing, that the American girl is systematically marrying the American old soldier for the sole purpose of getting herself placed on the pension rolls in a few years as a widow, contrary to the true intent and meaning of the law. Un-less steps shall be taken to limit widows' pensions to women who were wives of soldiers when the war was in progress. Mr. Bragg gives us to understand, the government must ultima-tely find itself burdened with a large assortment of young women having no just claims upon its beneficence.

MISS MCKEE, OF THE SALVATION ARMY. ELOPES WITH A MARRIED MAN.

WILLIAMSPORT, Feb. 7 .- The latest was sinking rapidly. The doctor came speedily and he found the General in a instance of ungodliness in the Salvation Army is the elopement of Jerome H. Smale, of 44 Railroad Avenue, with Miss McKee a member of that organization. Miss McKee is a goodlooking buxom young woman, and is fond of the attentions of men. Latterly she has not been in good standing in the Salvation Army, but not long ago she was a shining light. Jerome itizens who can read Mr. Gibson's H. Smale, the gay eloper, is a respected citizen, and he leaves a wealthy and very devoted wife. Ever since the Salvation Army be-

gan working in Williamsport Smale has been a devout salvationist, and for some time past has allowed his zeal for the army and his passion for Miss

McKee to cause him to neglect his wife. Yesterday he abandoued her entirely and went off with his new found love. Mrs. Smale has the sympathy of all her neighbors. She has no children, the only child having died some time ago.

Attorney Generals Brewster and Garland.

When the Western Union Company's tant, and in the Fall of 1850 was counsel asked Attorney General Brew ster to allow the government to intervene and cancel Colgate's patent, the application was referred to Solicitor eneral Phillips for action, and by his West, and in 1857 was engaged in the direction suit was begun in the Circuit Court in this city. When the Pan Electric Company-or the National Improved Telephone Company, for they are practically one-asked Attorney General Garland to allow the government to intervene and cancel the Bell patent, the application was referred to Solicitor General Goode and by his direction suit was begun in the Circuit Court in Memphis. Attorney General Brewster had been counsel for the Western Union Telegraph Com-pany in Pennsylvania and he acted with discretion and propriety in referring the company's application to the Solicitor General. Attorney General Garland was interested as a stockholder in the Pan Electric Company, and he acted with discretion and propriety in referring the application to Solicizon General Goode. We think that "Hon esty" and the Post will be satisfied now that the cases are "quite parallel. And this parallelism will not be dis turbed if we add that no corrupt act or intent was ever charged against Mr Brewster for his course in the Colgate case, and no corrupt act or intent can be justly charged against Mr. Garland for his course in the Bell case. how has the traveling public shown its appreciation of the courtesy ? Simply by trying, in every possible way, to swindle the railroads whenever they saw a chance. A man wants to go to Buffalo-what does he do ? Buys a ticket to Chicago, and when he gets to Buffalo sells the unused portion of his ticket to a scalper. The railroad is doubly cheated. First it carries the original swindler to Buffalo for less than it takes a passenger who is too honest to indulge in the luxury of cheating the railroad ; and, second, it carries another man from Buffalo to Chicago at less than the regular rate. The posted traveler, who cannot arrange to buy more tickets than he intends to use, never thinks of going to the railroad office for the tickets he waats. He patronizes the scalper, and
