BLOOMSBURG, PA. FRIDAY, APRIL 2, 1886.

The bill introduced in Congress to increase the rate of postage of fourth class matter has failed in the House.

Secretary Bayard was again afflicted last week by the death of his brotherin-law. Afflictions never comes singly.

The total number of postmasters of the fourth class removed from March 4, 1885 to March 3, 1886 was 8,635. Of these 938 are in Pennsylvania.

It has recently been made known that Col. Nutt who was killed by Dakes at Uniontown a fe ' years ago was short in his accounts as cashier of the State Treasury \$42,500. It is said to have been lost in oil speculation.

The Philadelphia Press which has been posing as the friend of the labor ing man, is being boycotted in some sections because it does not employ members of the Typographical Union

The Senate committee on public buildings and grounds has authorized a favorable report to be made on Sena-tor Morrill's bill appropriating \$300,-000 for the erection of an extension to

The investigation at the McAllisterville Soldiers Orphan school has developed not only that the children are not properly fed and clothed, but that gross immeralities have been practiced there. The Governor has completed his visits to these schools, and will soon ling disclosures may be expected.

Keeper Laverty of the New Jersey state prison is now on trial by the sen ate of that state under articles of impeachment. He is charged with im-proper conduct and criminal intimacy with female prisoners, and a number of them have given very damaging testimony against him. One of the wit-nesses named Mionie Schaefer swore a local idease law passed in 1866, be-that Laverty is the father of her in-cause he has ruled that the penalties fant, born since she left prison. She said that Laverty seduced her under a promise that he would procure a pardon for her, and that he subsequently which applied only to Blair, Indiana promised to pay her \$1600 but failed and Westmoreland counties.

It is truly wonderful what modern medical science can accomplish. Last week an operation was performed in a New York hospital that is almost without parallel. The patient was a female about twenty-five years of age, and one of her limbs had become diseased by injuries to the bone received from a fall. She was placed under the influence of chloroform, her leg was cut open, the he privately thinks it ought to be. diseased bones sawed off and taken out, and the bealthy bones connected by a silver wire, and the flesh sewed up a-The operation took two hours, and it is expected that the patient will regain the use of her leg, which will be in no way distigured by the treatment

The Philadelphia Times thinks it is or philanthropist dies, it is well enough for the public to commemorate his life and deeds by the erection of a suitable up and close them altogether, proposes monument over him, but when an ap "good fellow" who shuffles off this mortal coil, be he actor, politican or what not, it is going to far. The funds had far better be devoted to the wants of his family, or to some charitable object, where they will be of more value than simply to please the eye.

THE LABOR TROUBLES.

All over the country the spirit of striking has struck the laboring class-The railroad troubles in the west have thrown thousands of men out o employment, stopped the running of freight trains, and thereby brought untold losses upon the business men, as well as on the employees themselves. The cause of this difficulty was the discharge of a single member of the Knights of Labor, and the object was to force his reinstatement, and not for higher wages. In this matter the organization known as the Knights of Labor has taken the bit in their own mouths, and are acting against their own principle and contrary to the advice and wishes of their chief officers. Master Workman T. V. Powderly, the head of the organization has written a letter, in which he condemns the strike, and urges moderation. He covers the whole subject when he says that "while an injury to one is the concern of all it is not wise to injure all for the sake of one." The document is long, but he sums the situation up in his closing

lines as follows: "I write this circular to lay before the order the exact condition of things. I am neither physically nor mentally capable of perorming the work required of me. I am willing to do my part, but must not be asked to maintain a false position before the world any longer. One of two things must take place: either the local district assemblies of the order must obey its laws or I must be permitted to resign from a position which obliges me to play one part before the public and nother to our members. I say to the world that the Knights of Labor do not approve of or encourage strikes, and in one day dispatches come to me to come to Troy, New York; Manchester, New Hampshire: Chicago, Cincinnati, Lynchburg, Va.; Springfield, Ohio, and Montreal, Canada. It is impossible for human nature to stand the strain any longer. I must have the assistance of the order or my most earnest efforts will fail. Will I have it? If so strikes must be avoided; poyeotts must be avoided. Those who boast must be checked by their assem blies. No move must be made unti the court of last resort has been appeal ed to. Threats of violence must not

Politicians must be hushed up driven out. Obedience to the laws of Knighthood must have preference over

those of any other order. If these things are done the next five years will witness the complete emancipation of mankind from the curse of monopoly in our members. We require secreey, obedience, assistance, patience and courage. If with these aids you strengthen my hands I will continue in the work. If you do not desire to assist me in this way, then select a man better qualified to obey your will and I will retire in his favor."

After occupying much valuable time in the discussion of the Edmunds resolutions concerning the production of papers relating to the removal and appointment of officers by the President, the Senate finally adopted them last Friday by a majority of one vote. The resolutions virtually amount to nothing, and the discussion was opennothing, and the discussion was open-ed by the republican senators simply in the hope of making some political capital for themselves. In this they were worsted by the President, and they can now proceed to public busi-

The alleged discovery of M. Pasteur, the French chemist, that hydrophobia can be prevented by inoculation, has received a severe shock by the death of a Russian patient who had been biten by a mad wolf. The Newark children who were sent over to Paris a few months ago to be treated by M. Pasteur have none of them shown any symptoms of rabies, but it is said nov that the dog that bit them was not mad. The Russian's death occurred in nine teen days after the wound was inflicted, and seven days after Pasteur began his treatment, so that the value of in oculation as a cure for this disease is not yet satisfactorily established. But as there are exceptions to all rules, and as the Russian was very severely bitten by the wolf a part of his jaw being torn away, and a piece of the tooth of the animal left inbedded in his check, the failure ought not to be taken as finally conclusive that the remedy has no value whatever. urther experiment may prove its efficacy.

Indiana county liquor-dealers are murmuring louder than ever. Judge Harry White has again committed the wholesale refusal act in dealing with the license question and the hotel-keepers are naturally anxious to know how ong this thing is going to last.

Judge White's extraordinary refusal of licenses is based on the general law of 1867, which provides that "it shall be lawful for said Court to hear remonstrances against the application and in make known the result. Some start- all cases to refuse the same whenever, in the opinion of the Court, having due regard to the number and character of the petitioners for and against such application, such license is not necessary for the accom-modation of the traveling public and entertainment of strangers and travelers." His opponents argue that he is inconsistent in making this law apply to Indiana county, which is covered by imposed by a later general law cannot be substituted for the penalties imposed by the local law in question,

But whether the general law of 1867 applies to these three counties or not, it certainly applies to the other counties of the State. It seems to assume that stimulating drinks are necessary to the traveling public, while Judge White assumes the contrary. The law may be right and White wrong, or White may be right and the law wrong, but he is on the bench to enforce the law as it is, not as it ought to be or as he privately thinks it ought to be. This is the reason why the thousands. who agree with him as to the fact disagree with him as to his right to make and numake law .- Times.
