Fourteen million dollars were paid on the public debt last month, and yet the republican party used to tell us that it was their honesty and superior financial management that kept this country affoat. A few years of democratic rule will convince them that there are some brains outside of the republican party.

It is given out that the President is preparing a special message to congress arging that some action be taken at once to compel the Pacific railroads to meet their obligations to the United States. It appears from the statements officially made to the President at his request that these corporations are in deot to the government in the sum of over one hundred million dollars. Limiting the New Tax Law.

Judge Thayer, of Philadelphia, on Saturday last made a decision material-ly limiting the operation of the new tax law of June 30, 1885, in its effect upon corporations. Corporations are already taxed for their capital stock under the fourth section of the act of 1879, to which the act of 1885 is a supplement. Notwithstanding this fact State ought to collect the tax levied by the act of 1885 upon the bonds, mortgages, debts due by solvent debt-ors, public loans, &c., in which their capital was invested.

The Delaware Mutual and other insurance companies of Philadelphia secured preliminary injunctions restraining such a proceeding, and in continuing these injunctions Judge Thaver says: "If these corporations are within the act of 1885 they will be doubly taxed for the same property. Double taxation, although within the constitutional power of the Legislature, will never be presumed to have been its inunless the language of the statute is clear and unequivocal. The question, therefore, is whether the Legislature intended, by the act of 1885, to apply to corporations a system of double taxation, whether they intended by that act that their capital should be taxed under the act of 1879, and that the several descriptions of property composing it should be again taxed under the act of 1885 under a

different name." The Judge refers to the fact that in constructing the taxation act of 1881, of which the act of 1885 is a substantial re-enactment, Common Pleas Court No. 2 decided against this claim for double taxation. That judgment he regards as correct. "Any other conclusion," he says, "would make the legislation of the State upon this subject incongruous and incomprehensble.'

DIDN'T KNOW IT WAS LOADED.

The foolish practice of playing with fire-arms of any kind is illustrated every day by the dispatches in the newspapers, announcing deaths from their careless use. It is an old, old story that seems to make no impress ion, and it had grown to such proportion that in 1876 the legislature of this state passed a law providing that the pointing or discharging of a gun, pistol or other fire-arms at another, either playfully or wantonly, shall be a mis demeanor punishable with a fine of one thousand dollars, and imprisonment

not exceeding one year. A case of this kind occurred in this county last week, which resulted in the death of a woman at the hands of her husband. He pointed a pistol at her playfully, he "didn't know it was load-

ed." and she was buried in four days While the punishment which con science inflicts upon those who thus carelessly take human life, is undoubtedly terrible, there seems to be no way to put a stop to the playful handling of dangerous weapons, but by a strict enforcement of the law on the subject. The security of society requires that those who playfully point pistols at others shall andergo the penalty of the those who playfully point pistols at others shall andergo the penalty of the law, not only to punish them for their carelessness, but to deter others from amusing themselves by play ully shooting a fellow being.

OVERNOR PATTISON ASKED TO INTER-VENE IN THE CLEARFIELD TROUBLE.

The striking coal miners in the Clearfield regions have presented their grievances to Governor Pattison in a long petition, in which they also ask for intervention in the interest of a solution of the present difficulty. John F. Farrell and F. Lehman, of Houtzdale, presented the petition to the Governor, who is alleged to have indicated his purpose to remedy some of the evils enumerated. The petition sets forth that the strike for ten cents in addition to the fifty cents a ton now received is justified from the fact that the average wages of the miners have been only about \$20 a month, out of which \$5 had to be expended for rent, \$2 for oil, and fifty cents for tool sharpening family. The miners say they had proposed to settle the wages dispute by arbitration, but the operators had re-

fused their overtures; that they are compelled to have the coal mined by them weighed on scales which are out of balance from three hundred to seven bundred pounds in the interest of the operators; that if the miners elect a check weighmaster, in accordance with the law, he is not permitted to touch the scales but simply to stand by and see the cars weighed by the company weighmaster as they are run rapidly across the scales; that at nearly all the mines the workmen are required to deal at the company stores under pain of being dismissed from employment, pelled to pay from twenty-five to thirtyfive per cent, more for the necessaries of life than they could purchase the

The petition closes with the state State at large.
