An excharge suggests that the public would be greatly accommodated if every farmer would erect in a conspicuous place on the farm his name, in order that travel ers might be guarded thereby. This would save every husbandman the thankless and arduous task of answering hundreds of questions and would direct persons to them who had business to transact.

Now that Mountain Grove is owned by steck company and pays a dividend of four per cent. it would be well to use some of the earnings in improving the sanitary ondition of the grounds. OFF SANDY HOOK.

SANDY HOOK, N. J., July 31,-During the thunder storm last night, the schooner yacht Sarah Craig, lying off the governnent dock here, capsized. was almost phenomenal. From Sandy Hook Lighthouse it was seen that several persons were on deck, but no signs of confusion could be observed. Her course was directly for the shore, as though it was the intention of her sailing master to beach her. The yacht neared the government dock at the Hook, when a gust of wind, which had the force of a tornado, came, and the vessel seemed to be entirely lifted from the water, she did not righ herself quickly enough and the water poured into the cabin and she overturned. Al though the sea was exceedingly high, in Sullivan county as for a similar official boats were put off for the wreck but i could not be reached. Finally a tug appeared and then it was discovered that seven of the pleasure party which had made use of the yacht were clinging to the rigging. They were promptly rescued and

brought ashore. The ill-fated yacht, Sarah Craig, arrived at Spruce street wharf from Norfolk, with a load of watermelons on Thursday of last week and on Tuesday morning last, at 10 both to the people and the office-holders, o'ch e't, took on board a party of Philadelphia pleasure-seekers, was drawn out and set sail down the river. The last effort in this direction, the act of 1883, has been deand Mrs. Askin, two sisters, Miss Emma clared by the Supreme Court unconstitutional. It applied only to the counties of Berks, Lancastor, Luzerne and Schuylkill as having a population of more than 100 .-000 and less than 150,000 and was declared others are supposed to be in the cabin. The desirability for fixing salaries for county officers, particularly in the larger counties cannot be questioned. Some of them have grown so in business and population that the fees of the county officers are unreasonably large, and there is no to meet at 1:30 p. m. reason why the whole sum should go into the pockets of the official when he can be adequately paid by a less amount, The principle of the act of 1883 is right, and while it was still believed to be good law, bare poles, and leaped from wave to wave it any backwardness on the part of candias the wind struck her with a speed that dates for office. They showed every dis-school scholar, R. S. Taylor, Influence of position to regard the places as worth having, even with the salaries, and there was as much of a contest to be chosen as there ever had been.

What is needed in order to secure a general law on the subject is to reconcile the interests of the smaller counties, where the fees are generally less than a fair salary, and the interests of the larger counties, where the fees are often two and three times in excess of a reasonable salary. It would be quite out of the question to think of providing the same salary for an official in Schuylkill county. In some of the larger countles the business is divided and there are more officers, but even with this there is a great lack of uniformity in county officers, throughout the State. It is possible that in some counties the fees do not amount to a fair income, and yet there is to trouble to get people to serve.

Sooner or later all will have to come t the salary basis. It is the only fair thing, and the question should receive the carnes and intelligent attention of the next Legis lature. If a salary law can be passed i will be a great saving to many counties. their county officials.

It Receives No Recruits.

The Minneapolis Messenger with beauti ful pathos remarks: "The Grand Army of the Republic has this peculiarity over all military organizations; it receives no re cruits. Other armies are kept up and augmented by constant accession to their ranks. The discovery of this and the exposure that followed caused a change of programme, and Bogert allowed the Danvilles to disband. But the Danvilles had begun to carry out their contract and lost two games to the Wilkes-Barre. Shannon, a good pitcher, allowed himself to be hit for eighteen hits on Friday, and on Sarurday the Wilkes-Barres were given twenty-six hits, a total of forty-four hit in the two games, and this too by the Wilkes-Barres, a club that has but five men in their team that stand higher in batting than Brief. The disbandment of the Danyilles gets rid of the last of the dead wood on the hands of the state association, and it will now go on with four very well balanced clubs.

There Will Be Darkness.

A total eclipse of the sun occurs Augus 29, which will be visible as a very small partial eclipse in the southern part of New England and the Atlantic States. The path of totality commences at the Isthmus of Panama, crosses the northern part of South America and some of the adjacent islands, crosses the Atlantic ocean in southeasterly direction, strikes the coast of Africa near Benguela, and ends in Madagascar. The conditions for observing i are more favorable than they were in th total eclipses of 1883 and 1885, when the ines of totality passed almost entirely over the Southern Pacific ocean. Doubtless stronomers will be on hand at many points to observe the eclipse. The limit of the eclipse is one degree north of Boston, so that we must be contented with a touch of the phenomenon.

bowels are constipated, or if the stomach fails to perform its functions properly, use Ayer's Pills. They are invaluable For some years I was a victim to Liver Complaint, in consequence of which I suffered from General Debility and Indi-gestion. A few boxes of Ayer's Pills restored me to perfect health.—W. T. Brightney, Henderson, W. Va. For years I have relied more upon Ayer's Pills than anything else, to

Regulate my bowels. These Pills are mild in a tion, and do their work thoroughly, have used them, with good effect, cases of Rheumatism and Dyspepsia. G. F. Miller, Attleborough, Mass.

Ayer's Pills cured me of Stomach and Liver troubles, from which I had suffered for years. I consider them the best pills made, and would not be without them. — Morris Gates, Downsville, N. Y. I was attacked with Billons Fever, which was followed by Jaundice, and was so dangerously ill that my friends despaired of my recovery. I commenced taking Ayer's Pills, and soon regained my customary strength and vigor.— John C. Pattison, Lowell, Nebraska. Last spring I suffered greatly from a troublesome humor on my side. In spite of every effort to cure this eruption, it in-creased until the flesh became entirely raw. I was troubled, at the same time, with Indigestion, and distressing pains in

The Bowels.

By the advice of a friend I began taking Ayer's Pills. In a short time I was free from pain, my food digested properly, the some some my body commenced healing, and, in less than one month, I was cured.—Samuel D. White, Atlanta, Ga. I have long used Ayer's Pills, in my family, and believe them to be the best pills made.—S. C. Darden, Darden, Miss. My wife and little girl were taken with Dysentery a few days ago, and I at once began giving them small doses of Ayer's Pills, thinking I would call a doctor if the disease became any worse. In a shor-time the bloody discharges stopped, al pain went away, and health was restored. —Theodore Esling, Richmond, Va.
