Dangerous Drugs.

HOW TO CONTROL EFFECTUALLY ALL

A gentleman who has spent the sum mer abroad, said to our reporter, that the thing that impressed him most of all was the number of holidays one en counters abroad and the little anxiety the people display in the conduct of business affairs. "Men boast here," he said, "that they work for years without a day off; in Europe that would be considered a crime."

Mr. H. H Warner, who was present at the time, said, "This is the first summer in years that I have not spent on the water. Been too busy.
"Then, I suppose you have been advertising extensively!"

Not at all. We have always heretofore closed our laboratory during July, August and September, but this summer we have kept it running day and night to supply the demand, which has been three times greater than ever

before in our history at this season," "How do you account for this? "The increase has come from the universal recognition of the excellence of our preparations. We have been nearly ten years before the public and the sales are constantly increasing while our newspaper advertising is constantly diminishing. Why, high scientific and medical authorities, now publiely concede that our Warner's safe cure is the only scientific specific for kidney and liver diseases and for all the many diseases caused by them."

"Have you evidence of this ?" "Abundance! Only a few weeks ago Dr. J. L. Stephens, of Lebanon, Ohio a specialist for narcotic, etc. habits told me that a number of eminent scientific medical men had been experimenting for years, testing and analyzing all known remedies for the kidneys and liver, for, as you may be aware, the excessive use of all narcotics and stimu lants destroys those organs, and until they can be restored to health the habits cannot be broken up! Among the investigators were such men as J. M. Hall, M. D., President of the State Board of Health of Iows, and Alexander Neil, M. D., Professor of Surgery in the college of Physicians and Surgeons and president of the Academy of Medicine at Columbus, who after exhaustive inquiry, reported that there was no remedy known to schools or to scientific inquiry equal to Warner's safe cure !"

"Are many persons addicted to the use of deadly drugs ""

"There are forty millions of people in the world who use opium alone, ard there are many hundreds of thousands in this country who are victims of morphine, opium quinine and cocaine. They think they have no such habit about them—so many people are un-conscious victims of these habits. They have pains and symptoms of what they call malaria and other diseases, when in reality it is the demand in the system for these terrible drugs, a demand that is caused largely by physicians' prescriptions which contain so many dangerous drugs, and strong spirits, and one that must be answered or si lenced in the kidneys and liver by what Dr. Stephens says is the only kid-ney and liver specific. He also says that moderate opiem and other drug eaters, if they sustain the kidney and liver vigor with that great remedy, can keep up these habits in moderation."
"Well does not this discovery give

you a new revelation of the power of

"No, sir; for years I have tried to convince the public that nearly all the diseases of the human system originate in some disorder of the kidney or liver, and hence I have logically declared that if our specific were used, over ninety per cent, of these ailments would disappear. The liver and kidneys seem to absorb these poisons from the blood and become depraved and

"When 'hese eminent authorities thus publicly admit that there is no remedy like ours to enable the kidneys and liver to throw off the frightfu effects of all deadly drugs and excessive use of stimulants it is an admission of its power as great as any one could desire; for if through its influence alone the opium, morphine, quinine cocaine and liquer habits can be come, what higher testimonial of its specific power could be asked for ?" "You tealty believe then, Mr. War-

ner, that the majority of diseases come from kidney and liver complaints?" "I do! When you see a person mop ing and groveling about half dead and balf alive, year after year, you may surely put him down as having some kidney and liver trouble."

"The other day I was talking with Dr. Fowler, the eminent oculist of this city, who said that half the patients who came to him for eye treatment were affected by advanced kidney discase. Now many people wonder why in middle life their eye sight becomes so poer. A thorough course of treatment with Warrer's safe core is what they need more than a pair of eye glasses. The kidney poison in the blood always attacks the weakest part of the body; with some it affects the eyes; with others the head; with others the stomach or the lungs, or rheumatic disorder tollows and neuralgia tears them to pieces, or they lose the powers of taste, smell or become impo tent in other functions of the body What man would not give his all to have the vigor of youth at command?

"The intelligent physician knows that there complaints are but symptoms they are not the disorder, and they are symptoms not of disease of the head, the eye or stomach, or of virility, necresarily, but of thekidney poison in the

blood and they may prevail and no pain occur in the kidneys." It is not strange that the enthusiasm which Mr. Warner displays in his appreciation of his own remedy, which restored him to health when the doctors said he could not live six months, should become infectious and that the raure world should pay tribute to its nower. For as Mr. Warner says, the sa'es are constant y increasing, while the newspaper advertising is constantly diminishing. This speaks volumes in praise of the extraordinary merits of his preparations.

Should Poorman decide not to sign Boston, which is likely, he will probably be found with the Louisvilles next season.

During the season just closed the American association clubs signed 104 men and released 44, the league 108 men and released 35. The New York club has already n pitchers than it ever had before. Welch, Keefe, Tiernan, George and Mattimore are

among the number. Harkins, the pitcher of the Holy Cross col-lege-team, of Boston, is credited with having thrown a ball the remarkable distance of 129 yards 8 inches on Oct. 13,

After paying all the expenses of its big deals it is said Detroit will have \$25,000 in its treasury at the close of the season. D. LANCELL'S ASTHMA CATARRH

SOLD BY ALL DRUGGISTS. Having struggled at years between life and desth with ASTHMA or PHTHISIC, treated by cannent physicians, and receiving no benefit. I was compelled during the last 5 years of my library to the last of the last o

different states—nothing afforded relief like your preparation.

T. E. Gates, County Treasurer, Philadeiphia, Miss., writes: "Have used the Remedy. Would not live without it. Every one that uses it recommends it."

L. B. Pheips, P. M., Griggs, Onlo, writes: "Suffered with asthma 40 years. Your medicine in a minutes does more for me than the most efficient physician did for me in three years."

H. C. Plumpton, Joilet, Ill., writes: "Send Catarrh Remedy at once. Cannot get along without it. I mad it to be the most valuable medicine I have ever tried."

Geo. W. Brady, Neison Co., Ky., writes: "I am using the remedy. Gained s pounds in 3 wocks. would not be without it."

Martin Fox. Little Palls, N. Y., writes: "Fina Ramedy excellent, Could not live without it."

We have inany other hearty testimonials of cure or relief, and in order that all sufferers from Asthma, Catarrh, Hay Fever, and kindred discusses may have an opportunity of testing the value of the Remedy we will send to any address Thilal PACK AGE FREE OF CHARGE. Address,

The Vanity of Fame.

Ill in bed, poverty-stricken, in a small room over a shop in this city, lies the alleged Sir Roger Tichborne, who came to these shores some months ago to reap the golden harvest which he was so assured would fall into his lap from Americans eager to see him and hear him tell his story. His hopes received a severe blow on his first lecture, for there were only thirteen persons present and nothing has occured to revive them. Well may the sufferer dilate on the vanity of fame. The principal figure in one of the most celebrated lawsuits of the century in England, the alleged titled martyr of a packed jury and ten years' penal servitude, he cannot get enough money by exhibiting biaself to take him home, or probably

even to the wharf. And weil may foreign celebrities who approach his stripe correct their on the imagined gullibility of the American people. Even an un-doubted lord has some reason to be lieve that he is not likely to be successful in the show business on this side of the Atlantic. Evidently the time has come when foreign importations must possess some substantial merit to gain the recognition they seek here. The fate of Sir Roger is a sad but instructive one.— World.

Lovers of imported fancy chesses will find food for thought in the statement that nearly our-half of the oleo margarine exported from this country returns again as foreign cheese.

Dudes now register only their last names, the same as English noblemen. This is a great idea. When a man reads "Jones, New York," on a hotel register he recognizes the man at cuce.
