For the West! Moyer Bros. sell tickets via Penna. R. R.

Mrs. C. E. Girtor died in confinement Saturday last and was buried Tuesday. She was a lady much respected by her neighbors who greatly mourn her death.

The express business of the Phila. & Read R. R. Co. has been transferred to the Adams Express Co. When the transfer is effected it will leave but one express line to this point from Philadelphia, and two from New York, as the D. L. & W. will still continue.

Wednesday, February 3, was a disagreeable day. The sun did not appear during the entire day. We will see the next few weeks will be moderate weather or whether the groundhog falls as a weather prognosticator. According to the old proverb we will have but little more cold weather.

The annual meeting of the stockholders of the Bloomsburg Sullivan Railroad Company was held on Tuesday and the following officers elected: President, Hon. C. H. Kerkhove; Directors, H. J. Conner, J. R. Bokalaw, J. K. Groz, D. Lowenber, H. H. Palmer, L. W. McKelvey, Hon. H. M. Hoyt and W. K. Tubbs.

The ladies of Orange, N. J., are devoted to the use of the bicycle. One lady has ridden 2,643 miles, most of which were ridden on a tandem. Another has a record of 2,005 miles. There is no reason why ladies should not take advantage of this healthful and exciting exercise, and it will not be many years before bicycle clubs composed of ladies will compete with the male bicyclists.

The Blackwell Paint Co. of Mincy has leased the Rupert Paint Mill on H. S. 88 East and expects to commence operations on February 1. Mr. Reay has been engaged as Superintendent. This mill contains valuable machinery and all that is necessary for making first class paint, and there is no good reason why, with sufficient capital and proper management it should not be successful.

The vault in the commissioners' office has been encased with doors and drawers, so that the files and books can be kept free from dust of ages in future. The file cases have an ingenious device for holding papers in place, the invention of Luther Luppert. The vaulting was done by Thomas Gorey, and altogether it is a great improvement, and a much needed one for the preservation of valuable records.

An exchange contains the following very sensible advice which is worthy of thoughtful consideration: The secret of success of some towns is in the fact that all the people join as one man in every effort and enterprise calculated to build up the business interests of the town. It cannot be expected that a town will prosper as it should when the chief occupation of each person is to try to clear his neighbor down.

The entertainment given at the Sanitarium last Friday evening by the Young Ladies' Guild of the Episcopal church was attended by a large number of people, notwithstanding the stormy weather. The programme consisted of music on the Longfellow, songs from Hiawatha and Evangeline, and vocal and instrumental music. A stage was erected in the dining room with appropriate scenery. The costumes of those who took part were very pretty. The receipts were \$130.00.

List of letters remaining in the Post Office at Bloomsburg for week ending Jan. 25, 1887. Francesco Agello, Jack Fox, Pasquale Prolo, (Ship James H. Hess, Miss Katie Horn, Mrs. E. Kerkhove, Misses on the Hill, Sullivan, Conn, Mrs. H. B. Leach, Giuseppe Lullo (Ship), San Lyesonn, Arthur F. Sayre, Giuseppe Antonio Stanholski.

The town owns 800 feet of leather hose, and 500 feet of cotton hose. Belief of different sizes two cannot be connected, and the hose is too small to be thrown on a burning building more than 800 feet from a plug. On May 3, 1882 the council was asked to provide couplers and a committee was appointed, but failed to perform its duty. On July 4, 1883, the council was again asked to procure couplers, and a committee was appointed with like result. This appears on the minutes of the council in January 1884, but there are no couplers yet. This matter should be attended to without further delay.

All Saints' Church, Omaha, Nebraska. Rev. Louis Zahner was again called to the office in January 1884, but there are no couplers yet. This matter should be attended to without further delay.

The Water Question.

Eds. COLUMBIAN: We are pleased to see your article on water supply, etc., in your issue of last week. It has always been the object of the Water Company to furnish a full supply of water to every consumer for all necessary purposes, and we believe we have succeeded in doing so. Your article however implies a possible shortcoming for fire protection, from a lack of pressure in the mains. Whatever shortcoming there may be in due, we believe, to a lack of system, and appliances to utilize the water, and not to a want of pressure.

From the experience of the late fire it would appear that the proper object to be kept in mind is not to let the water in the reservoir as compared with the maximum height at which it is considered prudent or necessary to be kept, has not been sufficient to reduce the pressure over two pounds at any point on the mains, friction and consumption not considered.

We believe that a public fire alarm, properly located is a necessity, not only to advise the firemen and citizens, but also to notify the engineer at the company's works. From this station proper signals could be given the engine-men to turn the water pressure on or off, as that should be done cautiously in order to avoid any possible accident to the works.

It is well that you have called attention to the important matter and the "immediate investigation" will be gratifying to the company, believing that the course, if there be occasion for any, will not be laid at their doors. We will be glad to meet the committee you suggested at any time.

Mrs. M. A. Smith gives lessons in vocal and instrumental music. She will be pleased to call on any one desiring information as to terms, who will notify her, or can be found for the present at Judge Elwell's. She has had many years' experience as a teacher, and has had charge of the music department in high grade seminaries. (4w.)

Death is always an unwelcome visitor to surviving friends, though the spirit has long been struggling to be released, and the tired and suffering body has prayed for eternal rest. No matter how long anxious friends have watched by the bedside of a dear one, knowing that the death angel must soon invade the household, they are never quite prepared for his coming; and though they know that the separation of the body and spirit is a happy release from the pain consequent upon the ravages of disease, when final dissolution does come, it leaves a terrible sting behind it.

The death of Mrs. Mary N. Harman is a peculiarly sad one. She was the youngest daughter of William McKelvey deceased, and widow of the late J. H. Harman. She leaves three children, viz: Harry W. Harman and Helen Harman, children of her second marriage; and a step-children, Mrs. Lizzie Fulton. By the death of Mrs. Harman, they are all deprived of an affectionate, christian mother, their home is broken up, and they will be separated. Though kind friends may do all in their power to lighten the sorrows of the bereaved ones, the mother's place can never be filled, and no one can be to them like their own home.

Mrs. Harman was born on Feb. 17, 1839, and died January 31, 1887. For several years past she knew that she was a victim of consumption, and for some months previous to her death she was confined to her room. She was for many years a member of St. Paul's Episcopal Church, and took an active interest in all church matters as long as her health permitted. Her faith was steadfast, and she frequently expressed a desire to close her eyes in the sleep that knows no waking until the great judgment day. For her, death had no terrors, for she had lived the life of the righteous, and her end was peace. The funeral took place on Thursday afternoon at half past two o'clock at the residence, and the attendance was large. The beautiful burial service of the Episcopal Church was read by Rev. W. P. Levert, and the remains were interred in Rosemont Cemetery. Many floral designs, the gifts of sorrowing friends, rested upon the casket.

The Susquehanna river rose rapidly at Pittston last Saturday night and next morning at 8 it reached twenty-one feet above low water. The ice up by Pittston broke and ran a short distance. It soon gorged again at Port Griffith, four miles below Pittston, and the water commenced backing up. It poured over the dam on the West side and inundated them to the depth of six feet. A number of small houses were surrounded and their lower floors invaded by the water. West Pittston was also invaded by the water, and on River Street it was two feet deep. A row of five small houses occupied by miners and standing close by the river were surrounded by water and ice which reached almost to the second floor. One was moved from its foundations.

When you get among the Upholstery Goods there's something novel and striking at every turn. We have never before sold some of them so cheap. Think of Coin Curtain Muslin 54 inches wide at 37 1/2 cents a yard! And Nottingham Curtains as low as 75 cents a pair! The whole list is built on the same rock-bottom prices. Look at the goods and the marvel is greater than to read of them, great as that is.

Not very long ago we had 7000 dozen Ladies' white linen hemstitched initialed Handkerchiefs, inch borders. Less than 1800 dozen now. Wonder how many dealers stocked up out of them? However many they paid just what you must, 15 cents each. You couldn't get them for that of the manufacturer. JOHN WANAMAKER, CHEMIST, Tailor and Dress Maker, 5th St. - 1st Floor.

Eds. COLUMBIAN: We are pleased to see your article on water supply, etc., in your issue of last week. It has always been the object of the Water Company to furnish a full supply of water to every consumer for all necessary purposes, and we believe we have succeeded in doing so.

Wanamaker's.

where here. We know of no other place where you can get such value for your money. Dollar goods—we sold them for 50 cents.

"Why I paid \$1.25 a yard for those very goods in New York," said a lady buyer. Stylish, desirable goods and only 50 cents a yard! Do you suppose they were made for that? No concern of yours; here they are and you can reach them—now. We promise nothing for any to-morrow on these Pin Stripes Serges, 25,000 yards in three weeks and no pushing!

Every thread had twisted; every fibre wool except the stripe—a mere suggestion in quantity, like a row of stitches, sometimes two rows; a mere suggestion but clear and distinct.

We had white, old gold and red Pin Stripes on navy, electric and gendarme blue, and on brown, green and black; we have just added grounds of medium and light brown, tan and wood shades.

52 inches: 6 or 7 yards for a dress pattern; \$3.00 or \$3.50 for enough for Early Spring, Mountain or Shore dress, and such a dress! Do you wonder that nearly 10,000 yards a week have slipped off almost without help?

Already two grades of our Black Cachemire "Guaranteed" Silk are going fast. The other grades are going fast. Not a yard of either would have been taken if you hadn't believed your eyes as well as to use your eyes and all your senses. We expect you to. We told you there was no dye loading in these silks, that only so much pure dye was used as was needed to give the color. That you must take on your faith in us. But no word of ours is needed to show you the deep lustre, the perfect finish, and fine material of the fabric.

Six grades left: highest price \$3.25; still some at \$1.25. The Black Satin Rhadames at a quarter off can't hold out long. Makers might better stop than keep up the supply. They don't work for fun. Good, 75 cents (might well be \$1); better \$1; highest, \$1.25.

Not that you can't get Black Satin Rhadames of other dealers as low as 75 cents. But where else can you get such Black Satin Rhadames at any of our prices?

You have cleared many of our racks and counters of ladies' garments again and again in the past three weeks. It has paid you more than ever now we have made prices such as should cause the slowest of the goods to move.

When Baby was sick, we gave her Castoria. When she was a child, she cried for Castoria. When she became a woman, she clung to Castoria. When she had children, she gave them Castoria.

DRINKERS OF LIQUOR HARM CAN BE CURED BY DRINKING THE PURE GOLDEN SYRUP. It can be given to a cup of coffee or tea without the knowledge of the person taking it, effecting a speedy and permanent cure, whether the patient is a moderate drinker or an alcoholic wreck. Thousands of drunkards have been made temperate men with the use of Golden Syrup. Specific in their effect without their knowledge, and to-day being free will, no harmful effects result from its administration. Cures guaranteed. Send for circular and full particulars. Address in confidence: Geo. W. Peck, 155 E. 11th St., Cincinnati, Ohio. Price 38c per lb.

DRINKERS OF LIQUOR HARM CAN BE CURED BY DRINKING THE PURE GOLDEN SYRUP. It can be given to a cup of coffee or tea without the knowledge of the person taking it, effecting a speedy and permanent cure, whether the patient is a moderate drinker or an alcoholic wreck.

Lightweight.

It is quite a long time since anything worth reporting has occurred in our town. The principal topic of discussion on the street corners and in hotels and stores is of the mill factory we want to get here. The chances of getting such a factory here are very good. Will give you all the details when we get it.

The unexpected death of Charles Brown is much lamented by our people. He became sick several weeks ago but recovered so that he was able to go out, when he had a relapse a week before his death, which occurred at 8 o'clock last Saturday morning. He was born in the town of Bloomsburg 59 years, 3 months and 5 days before his death. More than 35 years ago he opened a tailoring establishment in this town. Four years after he removed to Bloomsburg for one year and then to Mauch Chunk where he was in the employ of D. E. Borch for 10 years. There by close attention to his work, he acquired a reputation and he returned back to this town where he has since lived, beloved and respected by all. He leaves a wife, four sons and two daughters to mourn his loss. He was buried in the Light Street cemetery at 10 o'clock a. m. Tuesday Feb. 1. The ceremony at the grave was conducted by Oriental Lodge F. and A. M. of which he was a member, being its Worshipful Master for the last year.

The attendance at the M. E. Sunday school last Sabbath was larger than at any time in a year. The Bible Class of Prof. Heck's is attracting a large number. Our genial old friend Thomas Trench is in New York city at present. He will be back in a few days and then will leave for the West. He intends to spend the rest of the winter.

Most of the Italians that have been employed on the railroad have left. The work of Hoffman's mill and dam is about finished. There was an old fashioned spelling bee at our school house last Friday evening. Mr. Rusch proved to be the speller. There has been protracted meeting at the Evangelical church for several weeks. The attendance is large and the interest in the meetings is on the increase. A large number have already declared their purpose of leading Christian lives.

There will be more than the usual number of fittings next spring. Mr. Reese Farms will move to West. Heaton will be taking charge of the Natural Growth Hotel. We know of no one who will be more missed than he. We wish him success in his undertaking. Hope he may make money enough in a few years to retire and settle down among his old friends. Mrs. Mary Est will move to Bloomsburg. We can't get along very well without Mary. Her services as dressmaker are in demand by all the families in town. Ed. Stittler and Henry Oman will move to Nanticoke. Their stay there will likely be only temporary for they go now only to have their families near their work.

How to Gain Flesh and Strength. Use after each meal Scott's Emulsion; it is as palatable as milk and easily digested. Delicate people improve rapidly with its use. For Consumption, Throat Affections and Bronchitis it is unequalled. Dr. Thomas, Prime, Ala., says: "I used Scott's Emulsion on a child eight months old; he gained four pounds in a month."

Brit Miller of Finsberg, a foundryman, died the 18th from typhoid pneumonia and was buried at St. James the 20th of Jan., aged about 36 years. Frederic Hilly of Benton, died the 24th, from gangrene on the leg, and was buried at Hulin Jan. 26th, aged about 74 years. Mr. Hilly emigrated from Germany about 38 years ago in destitute circumstances. Frugal and industrious habits he secured a pleasant and comfortable home not far from the head waters of Ravenack.

While on his road to Bloomsburg from Van Camp, last week one day, Charley Moore's horse dropped in the shafts and died without a struggle. Heart disease is thought to have been the cause. The great hen strike is about over, which is inferred from the fact that a dozen eggs were marketed last week at Camden. But the question was, were they fresh or not? It, however, had an effect on the market. Eggs are not so high any more.

On account of the great storm last Saturday, we did not attend the local institute at Benton. Presumably that none was held. We hope that another appointment will be made. Supt. Grimes, while visiting the schools of our township gave us a pleasant call. He is an affable gentleman and very entertaining.

L. M. Creveling and family paid us a long promised visit last Friday afternoon and evening and were staid warmly at home. But we talked the storm all away. A gang of jockeys were operating for some time in Shickelshuney. Several of our farmers were wise, but not better satisfied after swapping horses. The condition of the roads is in a bad shape; neither good wagoning nor sleighing.

Will "Coon day" have any effect on the winter? They say if the sun shines or if it rains it will have. Battle of Gettysburg. The people of this town had the pleasure of seeing Monday and Tuesday last, ten magnificent oil paintings representing the great battle of Gettysburg. The paintings gave the figures life size, and with the clear explanations of Gen. St. Clair A. Mulholland, who participated in the battle, the interest was almost unbounded. There was a good attendance of school children and many veterans Tuesday afternoon. It was a good lesson in history for them, one that will impress itself upon the memory, and being so accurately portrayed, must certainly more than repay them for the small price of admission.

WHAT THIRTY MARY WILL DO.—The superintendent of Bloomsburg's German group which has been organized, has announced the world. It is without doubt the safest and best remedy ever discovered for the cure of all kinds of rheumatism, neuralgia, and the severest lung troubles. It acts on an entirely different principle from the usual remedies given by Physicians, as it does not dry up the system, but on the contrary removes the cause of the trouble, leads the blood to the affected parts, and in a purely healthy condition. A bottle kept in the house for use when the disease suddenly comes on, and leaves them in a few days. Price, 75 cents, large bottles. Jan 25th 1887.

For Toilet Use. Ayer's Hair Vigor keeps the hair soft and pliant, imparts to it the lustre and freshness of youth, causes it to grow luxuriantly, eradicates dandruff, cures all scalp diseases, and is the most efficient of all hair preparations.

Ayer's Hair Vigor has given me perfect satisfaction. I was nearly bald for six years, during which time I used various remedies, but without success. Indeed, what little hair I had was growing thinner, until I tried Ayer's Hair Vigor. I used two bottles of the Vigor, and my hair now will grow as thick and as fast as I desire.

HAIR that has become weak, gray, and falling out, may have been revived by the use of Ayer's Hair Vigor. My hair was thin, faded, and fell out in large quantities. Ayer's Hair Vigor stopped the falling, and restored my hair to its original color. As a dressing for the hair, this preparation has no equal.

VIGOR youth and beauty in the hair. The preparation of the hair may be preserved for an indefinite period by the use of Ayer's Hair Vigor. It is a disease of the scalp caused by the hair becoming harsh and dry, and to fall out. It is cured by the use of Ayer's Hair Vigor.
