Is There Any Hope?

NEW AND IMPORTANT OPINIONS OF MONARY EXPERTS!

CAN THE UNIVERSAL CONSUMPTION BE SUCCESSFULLY TREATED ?

Dr. Borgeon, a leading French doc-

He gives an enema of carbonic acid and sulphuretted hydrogen gases, the latter gas carrying the former into every part of the throat and lungs.

This treatment, too, is directed at

effects-the cause remains undisturbed. What this cause it has been stated by perhaps the highest pulmonary authority in the world, i. ϵ , the

Brompton Hospital for Consumptives, in London, Eng.

This malady every year carries off from one seventh to one-lifth of the entire population of England! Dr. Payne, M. D., M. R. C. P., Lon-

don, is authority for this statement. The same or a greater proportion of deaths obtains in America. Dr. Payne also says that one-half

the total number of deaths from all other causes have seeds of this disease in the system which only require some irritant to devolop!

German authority, says that consumption is caused by deficient nutrition of the lungs, by poor blood. These authorities cannot be disputed. The medical world recognizes them. The nric said is the irritant in the

blood that causes the development of the seeds which Dr. Brehmer says lie dermant in the blood. Every particle of blood which pass

es through the lungs and heart, also goes through the kidneys, and if they are in the least deranged they cannot rid the blood of its killing poison. The thousand little hair-like sewer tubes of the kidneys very easily get blocked up corrupt instead of purifying the blood. Kidney disease may exist, and yet no paid occur in that organ, because it is deficient in nerves of sensation.

Dip your finger in acid every day and it soon festers and is destroyed. Send seid poisoned blood through the lungs every second, and they soon give

The Brompton Hospital investigation showed that 52 per cent. of the victims of consumption were afflicted with deranged kidneys, which permitted the acid poison to remain in the blood and irritate the lungs. This uric acid is always fighting every vital organ, and if there be any inherent weakness in the lungs it inevitably causes pneumonia, cough and consumption.

The real cause of pulmonary troubles being so authoritatively shown to be faulty even though unsuspected action of the kidneys, explains why, in order to master the dreaded consumption, one must rid the blood of the uric acid irritant which inflames and burns up the lung substance. For this purpose there is nothing equal to that great specific, Warner's safe cure. This has now the favor of medical men all over the world purely on its merits. We have no doubt that if the kidneys are kept in natural sction, consumption and a great many other diseases, caused by urio-acid, will not only be cured but will be prevented.

When the kidney is healthy, no albumen appears in the water, but albumen is found in the water of more than half of those who die of consumption!

that always precedes consumption: First, weakened kidneys; second, re-tained uric acid, poisoning the blood; third, the development of diseases in the lungs by the irritant acids passing through them. Then there is a little cough in the morning; soon thick yel-low matter is spit up, followed by loss flesh and strength, with dreadful night sweats; and when the patient goes to his school physician for help, he is put on cod liver oil which his stomach, weakened also by uric acid in the blood cannot digest. Because there is no pain present in the kidneys the patient does not think they are affected, but the kidney acid is doing its work every minute, every hour day and night, and by and by the dis ease of the lungs has advanced until pus is developed, then come hemorr-hages, and at last the glassy stare which denotes that the ead is near! A post-mortem examination of such

cases shows that the terriable uric acid has completely destroyed the substance It is impossible to cure lung disease

when the blood is poisoned with uric

The Man from Toms River.

A lot of us were sitting in the depot waiting-room at Trenton, and the only man who had a newspaper was read-ing away for dear life, when a stranger entered with two satchels and a tall girl, chucked the baggage under a seat, waved the girl to another, and walked up to the man with the newspaper and

"Mister, is there anything in the paper about our coast defences ?" 'No, sir !" was the graff reply. "That's singular. Have they given up the idea, do you think?"

"I don't know what you mean, sir."
"You don't? Why, they've been talking for the last year about building forts to protect our coast. I live down near the mouth of Toms river, and I rather expect they'll build a big fort there. The way things are now England, France or Germany could de-clare war against us and land forces at Toms river before we had our eyes They'd land right on my farm, and nobody knows the damage they'd

"Well that's singular. If this governcould lick one nigh-sighted man. So the paper dont't say anything.
"Did'nt I tell you no, in the first

"S ty! mebbe you don't keer a copper about coast defences?" exclaimed the two satchel man, as a red spot ap-

peared on either cheek. "Not a copper, sir." live in Michigan, or Indiana, or Illi-

Ob, no; you don't keer." "Father !" chided the tall girl, as she half rose, but he turned on her with:
"Mary, you keep shet. I have allus thought if Europe declared war agin us they came. It is a republic of toler-we'd have plenty of enemies right at ation, and mind your own business is home, and here's a case to prove it. the constitution,

who don't keer how soon the hull of Europe jumps on this country, you have found a man who'd dig up the bones of Washington and sell 'em to a junkman for five dollars."-Detroit

The Texas Pan-Handle.

If the truth were known, the Panit in this country or any other country. It is strictly original, stands out by itself and freezes on to its peculiarities with a steadfastness characteristic of America in general and Texas in par-

be tolerated by any other State but Texas. The Pan-Handle is a kind of off-shoot of the State. It does not consider itself a part of the commonwealth

in good standing.

The Pan-Handle covers a territory about as large as the State of New York. It extends from the Indian Territory, on the north, almost to the Texas & Pacific railroad, on the south, and from New Mexico, on the west, almost to the Fort Worth & Denver railroad, on the east. It is larger than many European countries that sing loud in an international chorus. Within its confines are mountains and forrivers, iron mines, copper mines, silver mines, coal mines that are known of,

and perhaps much more mineral wealth that is not known of, hamlets, ranches, caves, mesas, mineral springs, steep precipices, shady groves, and many verdant plains.

The Pan-Handle is divided into fifty three counties, but not more than six or seven of them are organized. The people of the Pan Handle have a very supreme contempt for law, and have attorney than they have for a grass burner or a cattle thief. When the word "law" is used it should be remembered that it applies to the enactments of what the Pan-Handle folks contemptuously term the "Austin law factory." There is an unwritten code in the Pan-Handle, and woe to the man who violates it. A man must not steal cattle in the Pan-Handle; neither must be cut fences, burn grass, fill up wells with earth, break dams, or kill a man in cold blood. There are less than one hundred women in the Pan-Handle, and they are all good women. There are no jails in the region, fines are looked upon with contempt, and the only punishment awarded to those who violate the code of the region is other in a fight he has to answer before

no law court; his right to kill a man in a fair fight is not questioned. If a man kill another by stealth, that is if he steals up behind him and plunges a knife in his back, or shoots him unawares, Judge Lynch immediately takes hold of the offender, administers rigid justice devoid of technicalities or quibbles, or stays of proceeding, and if the murder was cold attractive features of life on the heach. These are great glass-enclosed shown on testimony, direct or circum-

tles. If he is not able to fight, if he is afraid to fight, if he has any preju-dice against fighting he had better seek some other location than the Pan-Handle of Texas for an abiding place. In fact, the Pan-Handle might be described as one vast region devoid of law, defying law, getting along com-fortably without law. Here may be found murderers from Maine, forgers from New York, defaulters from Ohio, fiends from Georgia, horse thieves from Missouri, deserters from every regiment in the United States army, road agents from California, bullion thieves from Nevada, ballot box stuffers from Illinois, escaped convicts from every state in the Union, and fugitives from justice from every civilized country in the world. In the confines of the Pan-Handle a man is as safe from a writ, from hand-cuffs, from the clutch of a sheriff as if he were a squatter on a quarter section in the arctic circle. Many men with various prices on their heads in different

wire feuces measure many hundred Of course the great majority of the Pan-Handle people are not addicted to reminiscence. The man who received mail matter from a former home in another State is a rarity. But, of course there are exceptions. No doubt many Pan-Handle men could prove that they are wearing the same name now that they inherited from their parents. But it is not considered good taste in the Pan-Haudle to be too inquisitive, and the man who persists in delving into

States of the Union are now prosper-ous citizens in the Pan-Handle of

Texas-men who now count their cat-

tle by the thousands, whose barbed-

the affairs of another man is almost certain to have a fight on his hands without unnecessary delay. Nearly half the men of the region are known mainly by a nickname. Such appellations as Curly Bill, Broncho Joe, Whisky Jack, Poker Dave, Irish Tim, Dutch Henry, Frenchy, Scotty, Fatty, Slim, Keno Mike and Don't see anything about a fort Rowdy Jim are among these frequently heard at ranches and other centers of population. The people are social "Well that's singular. If this government expects me to get down behind a rock with my old shot-gun and keep Europe from landing at that point, it's expecting a leatle too much of one arrival wants a job at wire pusching expecting a leetle too much of one or line riding it is taken for granted man. I'd fight to the death, of course, that it is his intention to become a perbut the chances are that a hull navy manent resident; if he loafs around without attempting to secure a job at wire punching or line riding it is taken for granted that it is his intention to become a permanent resident; if he loafs around without attempting to secure a job at anything he becomes an object of suspicion. Detectives sometimes have the hardihood to penetrate the Pan-Handle, but if "I thought so from the start. You should be suspected they are invariably re in Michigan, or Indiana, or Illi-treated to hospitable graves. Detec-

nois, and are tucked away in some tives and law officers are not wanted holler where the sheriff can't find ye, let alone an invader of our sacred sile. Handle. The permanent sojourners in the region make no pretense of denying that they are there because of a disagreement with the rules of action prescribed by law in the regions whence

New York Home Journal, January 26th 1887.)

PENING OF THE SEASON UNDER FAVOR ABLE AUSPICES-EXTENSIVE IM-

There is an air of newness and fresh ness about Atlantic City now which no one can fail to recognize. The carpolitical, social and material curiosity since its evacuation by the summer of this country. There is nothing like army, and have left their marks on it in this country or any other country. It is strictly original, stands out by dations and moved down toward the beach. In their new locations they have also been enlarged and improved so as to become practically new houses The political and social condition of things in the Pan-Handle would not these hotels have found themselves getting farther away from the sea. Land was being made for them by the recession of the ocean, and as Neptune seemed inclined to retreat, the lands men determined to pursue, and the winter guests of these houses will find

their quarters overlooking the waves Another large hotel has been com-pletely remodeled and considerably en-larged. In all these improvements the latest appliances have been used which ute to the luxury of the guests. The houses will be thoroughly heated, and large spaces have been set apart for ests, lakes and stream, valleys and glass-enclosed portices, wherein the most delicate invalid can enjoy all the blessings of the glorious sunlight with out exposure to the wind or weather

Very many of the other hotels have been improved and refitted, and several new ones have been erected. The their new dresses of fresh paint, and the genial winter sunlight, bathing all in its brightness, makes the city by the sea more attractive than ever.

There has been no storm this winte to injure the piers or the board walk. The board walk is a distinctive feature of Atlantic City. It is the common property of all, and it is broad enough d long enough to accommo late everybody. A morning walk over the boards from Excursion House to Inlet with the great Atlantic breaking against their supports, and the genial preeze from the Gulf Stream fanning one's cheeks, will bring the raddy glov of health to the faces of those who

The sanitary arrangements of the city are now excellent. The new system of drainage adopted last year works very satisfactorily, and over-comes the only natural disadvantage the city ever had to contend against. With an excellent system of artificia drainage, and every essential element of health-making in location and sur roundings, Atlantic City is certain to win and maintain high rank among the famous sanitaria of the world.

Not only is its winter temperature mild, genial and bright, but there is always a fresh, bracing air which makes out-of door exercises a positive

ceeding, and if the murder was cold blooded and cowardly the murderer is more certain of being hanged than he would be in St. Louis, Chicago, New Orleans or Galveston. If a man is convicted of cattle-stealing before Judge Lynch he is certain of being hanged. If a man is caught cutting a fence, or setting fire to grass he is shot down without hesitation, or, if subsequently arraig. hesitation, or, if subsequently arraig-ned before Judge Lynch and it is fast as it falls, and rain makes no mud. stantial, that he was guilty of the of-fense, he will be hanged. This is hours of the day, all too short, are about all the law they have in the Pan-Handle. A man must take care of himself. He must fight his own bat-

To the people of New York and the East. Atlantic City is peculiarly attractive. Even if they are southward bound Atlantic City is on their way, and a stay of a few weeks will always result in pleasure and benefit.

From New York the express train

leaving foot of Courtlandt and Des brosses streets at 1.00 p. m., makes direct connection for Atlantic City by way of Trenton and Camden. through parlor car is attached to this trair, which runs through to the sea in four and three-quarter bours. About February 1st the season was fully opened, and the engagements in

advance indicate a very successful winter and spring. Representatives of the best society of all the cities of the Eastern and Middle States gather here during February and March, and form a brilliant social circle, who take their recreation in a restful and their pleasure in an unconventional way.

To have a fine crop of cherries and no worms, simply spray them with London purple water right after the blossoms are dropped and then two or three times afterwards. Use a tea-spoonful of the purple to a large pail of water.—Fruit Recorder.

Setro Pasio died near Stillwater Dec. 26 1886, and was buried in the grave yard of the Christian church, aged 25 years. He was a laborer on the B. & S. railroad and dled in one of the shantles. His country men and colaborers gave him all the care and attention during his sickness possible under the circumstances, gave him a very decent burial and have since erected a marble slab to his memory. For a stranger, his death and burial awakened a good deal of sympathy among our people. Nationcovered by the more noble sentiment of the common brotherhood of man, and many turned away sadiy as they left him, far from his country, his kindred and home, to mingle his dust with strangers. He was born in the city of Columbria, Italy, a land that is far famed for its beautiful skies, its rich historic treasures, and for its monu ments of antiquity. A land

Where nature profusedly scatters her gifts and art in perfection is found, where music seemed to be a natural inheri tance of the people, and song the joy of the soul. But dearer to his heart, no doubt, than either or all of these, were the wife and children he left behind him eight months ago. The hero of a land, though very far off,

On the western side of the sea, Where life is more equal and toil better paid Where the people are prosperous and free. Thither he came, hoping by industry and economy to accumulate a small capital and then return to his native land and build up home of his own, and feel some of that independence a man feels when he can gather his wife and babes beneath a roof raised by his own exertions and paid for from the proceeds of his own houest toil. But, alas, how uncertain are human ar-

rangements,
Our wisdom and prudence of little avail,
Our plans for the future are full of derangements, Our best calculations oft utterly fail.

All his bright hopes and all the pleasing anticipation of his wife and children gather here at this little mound and here they terminate.

John Sutton.

Stillwater, Pa., Feb. 3, 1887.

WHY IS IT

That rheumatism and neuralgia are so prevalent? This question has not been satisfactorily answered, but it is certain that these diseases are not only the most painful but among the most common, and some member of nearly every family in the land is the victim of one of these dread torneutors. Ladies seem to be peculiarly liable to neuralgic headache, pain in the form of neuralgic headache, pain in the back, or nervous pains are of constant occurrence. Not until the discovery of Athlophoros had any remedy been found for either rheumatism, neuralgia or nervous headache, and they were generally conceded to be incurable, but Athlophoros has been proved to be not only a certain cure for these diseases, in all their varied forms, but a safe remedy. If, in the use of Athlophoros, the bowels are kept freely open, its success is certain, and to aid this, Athlophoros Pills are recommended, which, while providing the necessary cathartic, will be found to be a valuable aid to the action of the medicine. Athlophoros is no experiment, it has been tested and has proved its wonde rful efficacy.

The Athlophoros Pills were originally prepared as a remedy for use in connection with Athlophoros, for rheumatism and neuralgia and kin'fred complaints. Used in connection with that remedy, they are a certain cure for either of these very common and distressing diseases. They have also been found to be an invaluable remedy for any and all diseases arising from vitiated blood or general debility. They are especially valuable for nervous debility, blood poisoning, dyspepsia, distress after eating, headache, constipation; loss of appetite, and all stomach or liver troubles. For diseases of women they are invaluable. These pills are perfectly harmless and may be safely used by adults or children.

Testimonials of those who have been cured will be sent free on application.

Every druggist should keep Athlophoros and Athlophoros Pills, but where they cannot be bought of the druggist, the Atilophoros

CAN BE CURED.

CANANDAIGUA, N. Y., May 28, 1886. Pardee Medicine Co.,

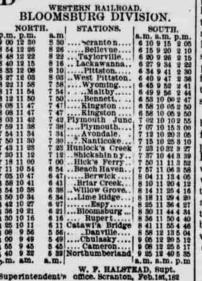

Gentlemen:—Nearly all winter I was confined to my room with inflammatory rheumatism. I commenced using Dr. Pardee's Rheumatic Remedy, but after taking it for a time the pain became more intense, and I was naking me worse, but continued its use and soon the pain left me, and I gradually improved, the soreness leaving my arms and shoulders and seeming to pass out at my toes. It has completely cured me. At the time I commenced using the remedy I had a throat difficulty and the catarrh, which I found to be better after taking it, and it occurred to me to use it as a gargle, which I did, and to my great satisfaction I improved rapidly, and to-day am free from both rheumatism and catarrh. I consider it indispensable as a family medicine. I take one teaspoonful after breakfast and find it a splendid tonic. I would advise you to recommend it as a would advise you to recommend it as a gargle for throat troubles and catarit, for I know it will cure. I have seen some remarkable cures from the use of this remedy, and it is one I can recommend to all. I am, very truly yours, E. R. McCALL

Less than one-half the Amount cured him.

John C. Heron, of 46, 4th street, Rochester, has been troubled for years with rheumatism in the shoulders and about the heart. He gave a physician ten dollars for an examination, and he merely informed him that he had rheumatism of the heart. He was cured by Dr. Pardee's Rheumatic Remedy, and for less than one-half the money paid for the examination.

Ask your druggist for Dr. Pardee's Remedy, and take no other. Price, \$1 per bottle; six bottles, \$5. Pardee Medicine Co., Rochester, N. Y BAILE CAD TIME TABLE.

PERRINE'S BARLEY WALT WHISKEY.

RHEUMATISM AND CATARRH In Case of Fire.—How Women Should Act When their Clothing is in Flames.

Dr. John Marshall, F. R. S., writes

A girl or woman who meets with this accident (of setting fire to her clothes) should immediately lie down on the floor, and so anyone who goes to her assistance should instantly, if she still be erect, make her lie down, she still be erect, make her he down, or, if needful, throw her down into a horizontal position and keep her in it. Sparks fly upwards and flames ascend with great rapidity, and, as a result well known to experts, the fatality of disfigurement in these lamentable cases is due to the burns inflicted about the body, neck, face, and head, and not to injuries of the lower limbs. Now the very moment that the person whose clothes are on fire is in a horizontal position on a flat surface the flames will still ascend, but only the air and not the flames encircle their victim. Time is thus gained for further action and in such a crisis in a fight against priceless. Once in a prone position, the person so afflicted may crawl to a bell-puil or to a door, so as to clutch at one or to open the other to obtain help. The draught from an open door into the room would serve to blow the flames, if any, from the body; or again, still crawling, the sufferer may be able to secure a rug or table cloth or other articles at hand, to smother any remaining flames, for as soon as

St. Francis Hospital, N. Y. has been discharged cured.

Rev. James L. Unll, Chaplain Albany Pentientary, writes that Kaskine history years suffering from malaria and nervous dyspepsia. Write him for particulars.

St. James L. Unll, Chaplain Albany Pentientary, writes that Kaskine has cured his wife, at their writes that Kaskine has cured his wife, at their writes that Kaskine history years suffering from malaria and nervous dyspepsia. Write him for particulars.

St. James L. Unll, Chaplain Albany Pentientary, writes that Kaskine has cured his wife, at their writes that Kaskine has cured his wife, at their writes that Kaskine has cured his wife, at their writes that Kaskine has cured his wife, at their writes that Kaskine help. The draught from an open door into the room would serve to blow the flames, if any, from the body; or again, still crawling, the sufferer may be able to secure a rug or table cloth or other articles at hand, to smother any remaining flames, for as soon as a fire a few seconds are precious, nay any remaining flames, for as soon as the horisontal position is assumed, they have no longer much to feed upon, and may either go out, as the phrase is or may accidently or intentionally be ex-tinguished as the person rolls or moves apon the floor. In any case, not only is the time gained, but the injury inflicted is minimized. In the event of the conditions not being self-help, but assistance from another, if it be a man that comes to the rescue, having first or instantly thrown the girl down, it is easy to take off his coat and stifle the diminished flames with this or some other suitable covering, the flames playing upward now from the lower limbs or the lower part of the body of the prostrate fellow creature. If it be woman that rushes to give aid, this last-named condition suggests that the safer mode of rendering it is to ap proach the sufferer by the head and fling something over the lower part of the body, for fear of setting fire to her-

If, in these fearful accidents, the horizontal position be assumed or en-forced, there could be, in short, comparative immunity and limited injury If not, what must happen? The fire which will do the injury) will envelop the body inside and outside the clothe and will reach the neck and head, and then, indeed, they may be smothered by a coat or wrapper or rug, while the victim is frightfully disfigured or doomed to perish.

The proper time to begin watermelon culture is the year before the crop is to be raised. A sward is the best possible land, since it is comparatively free from insects and at the same tim rich in the natural constituents of growth. It should be plowed as early in the autumn as possible. If this is done many insects will be killed and IT TIME TABLE.

In effect Jan. 30, 1837. Trains leave Sunbury.

RASTWARD.

9.40 a. m., Sea Shore Express (daily except Sunday), for Harrisburg and intermediate stations, arriving at Philadelphia 3.10 p. m.; New York, 2.20 p. m.; Baltimore, 3.10 p. m.; New York, 2.20 p. m., connecting at Philadelphia for all Sea to the sunday insects will be killed and the soil will be so far rotten by the time the melons are to be planted, whether they be water or muskmelons, that the soil may be brought into perfect condition for the subsequent cultivation.

As to this and the fertilization, the daily except Sunday) for Harrisburg and intermediate stations, arriving at Philadelph as soil for watermelons and cantaloupes soil for watermelons and cantaloupes should be very light, and although the through to Philadelphia and Baltimore.

D. LANCELL'S ASTHMA CATARRH SOLD BY ALL DRUGGISTS

Having stringted 2s years between life and death with ASTHMA or PHTHISIC, treated by eminent physicians, and receiving no benefit, it was compelled during the last 5 years of my inness to sit on my chair day and night gaspling in breath My sufferings were beyond description. In despair I experimented on myself by compounding roots and herbs and inhalms the medicine thus obtained. I fortunately discovered this WONDERFUL CURE FOR ASTHMA AND CATARRH, warranted to relieve the most studior case of ASTHMA IN FIVE MINITES, so that the patient can lie down to rest and siesp comfortably Please read the following condensed extracts from unsolicited testimonials, all of levent date:
Oliver V.R. Holmes, San Jose, Cal., writes, ed find the remedy all and even more than represented. I receive instantaneous relief.

E. M. Carson, A. M., Warren, Kansas, writes, "was treated by enformed physicians of this country and Germany; tried the climate of the preparation."

T. E. Gates, County Treasurer, Philasetake. different states—nothing aftorded relier like your preparation."

T. E. Gates, County Treasurer, Philadelphis, Miss, writes: "Have used the Remedy, Would not live without it. Every one that usen it recommends it."

L. B. Fhelps, P. M., Griggs, Onio, writes: "Soft fered with asthma 40 years. Your methetne in a minutes does more for me than the most emphysician did for me in three years."

H. C. Flumpton, Joilet, Ill, writes: "Send Catarrh Remedy at once. Cannot get along without it. I find it to be the most valuable medicine I have ever tried."

Geo. W. Brady, Nelson Co., Ky., writes: "I am using the remedy. Gained 8 pounds in 3 weeks, would not be without it."

Martin Fox, Little Falls, N. Y. writes: "Find Remedy excellent. Could not live without it."

We have many other hearty testimonials of cure or reliet, and in order that all sufferers from Asthma, Catarrh. Hay Fever, and kindred diseases may have an opportunity of testing the value of the Remedy we will send to any address Tatal Pack AGE PKEE OF CHARGER. Address.
