In telling of the anniversary, the Philadelphia Ledger, of March 14, 1887, says:

When the "Grand Depot" as it was originally known—it is now styled "Wanamakers — was opened, ten y-ars ago, one floor was sufficient to accommodate the business. There was no basement away and four wagons were ample for the delivery of rackages. To day the main floor has a width of 286 feet, from Thirteenth acreet to Juniper, and a depth of 80% feet from Market to Chest-nut street, while the basement has a still greater width. There is also, a sub-cellar, 3? feet under ground where is pinced the heating and electric light apparatus. Within the past two prara new foundation was built under the entire structure, and it is now considered one of the strongest in the city. When the store was opened ten years ago there were no elevators in it, but these conveniences are now stunted at various points for carrying passencers, transporting roods throughout the house, and for receiving freight. The four delivery wag its have increased to 50, and where its horses were once required, about 130 are now employed. In the fifty-two departments nearly four thousand persons are engaged, exclusive of those at work outside of the building, and in the holiday season the force is increased to more than fire thousand. The establishment, it is claimed, does the largest express-shipping business of any house in the city or State, while the clothing mail order department has also grown to large proportions. The different departments have been the result of a steady growth, and have been added from time to time, as the necessity cahed for them. The wholeasie department, recently organized, occupies the third story, and is now said to be thoroughly equipped in overy particular. Altogether, Wanamaker's covers an area of over 588, 000 square feet, or about fourteen acres of space, and it is said to be in only the largest building of the kind in the country; but also considerably larger than the "son Marche," in Pa 1s.

### HEMLOCK INSTITUTE.

As per announcement a district institute convened in the M. E. Church at Buckhorn Saturday, March 12th, the first of the kind in the history of Hemlock township. The attendance was good but not what might naturally be expected. Six schools out of seven were represented. Five of the teachers were present. Mr. I. G. Pursel was the only director that put in an appearance. Institute opened at 104 A. M. Devotion al exercises were conducted by Supt. Grimes. Music throughout the day was furnished by the choir.

The first work of the morning was a class exercise in primary reading by C. F.

Prof. Cope of Bloomsburg, was then introduced and gave a very interesting talk on the subject of arithmetic.

Misses N. Kline and A. Ohl of the upper grade at Buckhorn each gave a recitation After which the Forks school entertained the audience with well prepared rhetorical

exercises. Institute then adjounrned until 13 P. M. The first work of the afternoon was speaking by the little ones of the Buckhorn primary school.

Miss L. Moore, and Miss M. Long, (both teachers) each read an essay on teacher and their work. Mr. W. Hartman, (teach er) gave a recitation on education. Mr. Creasy of Lightstreet then conducted

a competitive exercise in spelling. The Forks school took the banner in spelling. Mr. Grimes then conducted a competitive exercise in reading. Isaac Depoe of Chest nut Grove school was given the honor of the best reader. Prof. Cope and Heck and Dr. Montgomery being judges.
Prof. Cope then took up history and

showed the causes of the early settlements

Prof. Heck was introduced and took up the subject of mensuration in arithmetic. The institute closed with a few compli-

Mark Twain says of Prof. Loisette's sys tem of memory training, now taught at 287 Fifth Ave., New York: "Prof. Loisette did not ereste a mercory for me-no, nothing of the kind. And yet he did for me what amounted to the same thing; for he proved to me that I already had a memory—a thing which I was not aware of till then. I had before been able-like most people-to store been anne-nac most people-to store up and lose things in the dark cellar of my memory; but he showed me how to light up the cellar. It is the difference—to change the figure—between having money where you con't collect it and having it in your pocket. The information cost me but little, yet I value it at a prodigious figure.

I had kidney disorder and say for the good of others that Dr. Kennedy's Favorite Remedy cured me. Rev. S. C. Chandler, Lebanon Springs, N. Y. I had stone in the bladder and gravel in the kidneys. I used Dr. Kennedy's Favorite Remedy and am now well.—E. D. Parsons, Rochester, N. Y. Price \$1. Send 2 cent stamp to Dr. Kennedy, Rondout, N. Y., for a book on kidney, liver and blood disorders. # SCROFULA

I do not believe that Ayer's Sarsaparilla has an equal as a cure for Scrofulous Humors. It is pleasant to take, gives strength to the body, and produces a more permanent result than any medicine I ever used.

—E. Haines, North Lindale, Ohio.

I have used Aver's Humors,

Indiale, Onio.

I have used Ayer's Sarsaparilla, in my family, for Serofula, and know, if it is taken faithfully it will thoroughly eradicate this terrible disease.

—W.F. Fowler, M.D., Greenville, Tenn. Erysipelas,

Canker, and
