The Lafayette College Glee and Banjo Clubs gave their concert in the Opera ience. The performance could have been a better one but was fair for an amateur company. The violin playing of Mr. Seitz was very fair and some of the College Glees were well rendered. More of a variety in the programme, however, would have been acceptable. A number of young men from Danville attended the performance, and assisted loudly in the applause given to the company. After the concert a few members of the troupe serenad-

SO SAYS A UNION COUNTY JURY.

The case of D. F. Seybert charged with burglary, was moved to Union county at his request, and was tried at Lewisburg last week. After a hard fought battle lasting the whole week, the jury found the defendant guilty in manner and form as in dicated.

Judge Barnett of Perry county occupied the bench, and District Attorney Billmeyer was assisted in the prosecution by C. C. Barkley and C. B. Jackson Esqs. of this county, and John B. the words of praise that has been given it. One very strong point with the company is the superb scenery which it carries, being faithful representations of the places and surroundings at which the events in the play transpire. One of the thrilling scenes represented Aiden Benedict as "No. 17" escaping from a cell in a prison on the borders of the sea, by substituting himself for a dead man in an adjoining cell, whose body he took from the sack in which it was to be thrown into the sea and put himself in place of it. An Extensive Cave-in Near Pitts-

TRACKS GO DOWN TEN TO FIFTEEN FRET.

HE DELAWARE AND HUDSON BAILROAD

Another extensive cave-in of the lands of the Fairmount coal company near Pittston station, on the Delaware and Hudson railroad occurrd Monday morning about 4:30 o'clock, aff-cting several acres of the surface and causing what is believed to be a wide.spread wreckage of the workings of the mine below, besides doing surface damage that will approximate thousands of dollars. The miners living in the vicinity were aroused from their sleep by a deep umbling and shaking of their homes as it by an earthquake shock, and upon asceraining the cause found the surface settling close by them, and huge fissures appearing here and there, filling them with alarm. Then came a crash of falling timbers, and n the dawning day they saw the great breaker of the coal company with its im nense machinery crashing into pieces on the ground. The cave-in was the largest right by side the breaker, and here large, gaping holes appeared as if to swallow up verything that came within their reach. All the direct openings of the mine were losed by the crash and the ventilating machinery brought to a standstill, cutting off all air from the large number of mules stabled in the underground workings, all of which are now no doubt suffocated. No miners or other employes of the mines un ess it may have been the stable boss and his assistants, are believed to have yet entered the mine, and there will be no loss of life attending the disaster. The loss on property of the company will reach over \$100,000. Fears are felt that the cave-in will extend further, and in case it does there will be a number of houses wrecked. Many families are terribly excited over the isaster and are preparing to move to safer quarters. The track of the Delaware and Hudson railroad has sunk from ten to fifteen feet where it crosses the cave in, and all passengers are transfered to waiting trains on either side. The company has a large force of men at work repairing the track and filling in the depressed

Making Car Wheels A new method of manufacturing car wheels has been tested at Wilkesbarre, Pa., with satisfactory results. By the old method three men could make only eighteen wheels per day of twelve hours. By the new process the same number of men can turn out a perfect wheel every minute, or 720 per day One of the principal features of the new method is the use of a steel core, instead of one of sand, in casting the wheel. The core is removed by knocking out a centre key, leaving the hole perfectly true and ready to put upon the axle at once, without dressing or boring.

I had kidney disorder and say for the good of others that Dr. Kennedy's Favorite Remedy cured me. Rev. S. C. Chandler, Lebanon Springs, N. Y. I had stone in the bladder and gravel in the kidneys. I used Dr. Kennedy's Favorite Remedy and am now well.—f. D. Parsons, Rochester, N. Y. Price \$1. Send 2 cent stamp to Dr. Kennedy, Rondout, N. Y., for a book on kidney, liver and blood disorders. Joseph Howard, Jr., the widely known ournalist and intimate friend of Henry Ward Beecher for the past fifty years, is engaged upon the life of the great preacher and orator, which will no doubt be the standard work, as Mr. Howard's intimate relations with Mr. Beecher, and his justly won popularity as a writer, are an assurof a work of peculiar interest and value. We learn the work is to be brought out by Hubbard Bros., at an early day, and will no doubt be sold by subscription

Judges at Agricultural Pairs.

In a discussion of the existing draw backs to the success of agricultural fairs, the Secretary of the Pennsylvania State Board of Agriculture, speaks as follows re garding the appointment of judges :

"Experience and observation convince us that many of the internal dissensions which so much interfere with financial success of those organizations, is caused by the present system of appointing Judges. In most cases a list of judges is named to be present at a certain hour on a name day. They are seldom present, and an unauthorized chairman proceeds to fill vacan cles on this committee as per the schedule. and the error, which afterwards causes so much trouble and hard feelings, is committed. Instead of this, let competent judges be selected outside the county; pay their expenses and avoid nine-tenths of the illfeeling which nearly always follows the awards of local judges. This may be objected to on the plea that it would involve the expenditure of some money; but we would instance exhibitions which have been almost financially wrecked by bad feeling, resulting from awards made at the exhibition of the previous year. These exhibitions should be conducted in a business way, and if the expenditure of one hundred dollars will pay them, from a business standpoint, it is all right."

Keep Them at Home. The following is a late and true utter ance of Henry Ward Beecher: "Keep your children at home at night. There is many a sod that lies over the child whose down fall began by vagrancy at night, and there is many a child whose heart-breaking parents would give the world if the sod did lie over them. What a state that is for children to come to, in which the father and the mother dread their life unspeakably more than their death! What a hor rible state of things that is, where parents feel a sense of relief in the dying of their children! Then, I say, take care of your children at night;"

SCOTT'S EMULSION OF PURE Cod Liver Oil, With Hypophosphites.

Dr. W. S. Hoy, Point Pleasant, W. Va. says: "I have made a thorough test with Scott's Emulsion in pulmonary troubles and general debility, and have been astonished at the good results; for children with rickets or marasmus it is unequaled."
