A fierce fight occurred at Plymouth last Monday evening, in which some were broken, eyes blackened and some blood spilled. A lot of Hungarians got drunk at a dance, and the fight began by one fellow objecting to another's attentions to his girl. Toward the last the parties fought with hatchets, and it is a wonder some lives were not lost.

April 18, 1887, will be remembered as a wintry day. Snow began to fall early in the morning and continued at intervals nearly all day, until the ground was covered with a snowy mantle eight inches in depth. P. H. Georgia boasts of three stinging men. One of them will not drink as much water as he wants unless it is from another man's well; the second requires his family to write a "small hand" to save ink, and the third stops his clock at night in order to save the wear and tear of the story.

It is a small matter to boast of, but New Hampshire is not far behind the Empire State of the South in this direction. He leaves a wife and two children, Ernest Tustin, of the Philadelphia bar, and a daughter. The funeral took place on Monday.

The Woman's Christian Temperance Union of Seneca has taken steps to prevent the granting of licenses in Seneca. When court convened on Monday, the ladies entered the court room in a body, causing a great deal of disturbance, because of the lack of room in the court house. 374 applications for license had been made, and remonstrances were served on nearly all of them. The Temperance Union had their attorneys and counsel on every point. It is evident that a good many who obtained license last year will be refused.

The regular annual meeting of the stockholders of the State Normal School and Literary Institute will be held at the office of Frank P. Bilmeyer, Secretary, on Monday, May 2, 1887, between the hours of 2 and 3 o'clock in the afternoon, where four Trustees will be elected on the part of the stockholders to serve for a period of three years, and four persons will be nominated from whom the Superintendent of Public Instruction may appoint two Trustees on the part of the State to serve for a period of three years. Eaglesmere, Sullivan county, Pa., will probably be a great summer resort this season, even greater than last, although last season the hotels were all overflowing. A new hotel has been built, the Hotel Raymond, on the side of the lake opposite the "Mere," and will be opened this summer for the first time. The Point Breeze house has been much improved and can accommodate a great many more visitors this season. The Kirk House has also undergone some improvements.

Eaglesmere is a very beautiful place and anyone wishing to spend a few weeks away from home this summer will do well to go there. The season begins June 1st.

David Lowenberg has at his clothing store the finest outer skin ever seen in this section. The animal was caught in Roanoke township a few weeks ago by the son of Samuel W. Reeder. It measures fifty-two inches from its nose to the tip of its tail, and the fur is as soft as seal. The otter is a carnivorous animal. It is an aquatic animal and feeds principally upon fish. The ears are small and far apart; the head broad and blunt, and flat on top; the body thick and long; the feet short and webbed; the tail long, round, depressed and flat beneath. There are several species, and they are found in all parts of the globe. The different species are distinguished with difficulty from the similarity of their colors. The American otter weighs from 20 to 25 pounds. When taken young they are easily domesticated. They bring forth a litter of two or three, between February and April, according to the season. They are found over almost the whole of North America, and in some portions of South America. They are rare in the Atlantic states, and not abundant anywhere in settled regions, but most so in the British possessions, where several thousands are annually carried to England. The fur is used mostly in making caps and gloves. The skin now in Mr. Lowenberg's possession is not a bad one, but he secured it within the past few weeks, and they are both beautiful specimens.

If you want a nice, neat bed room, kitchen, parlor or sitting room, paper it with paper from Mercer's selections.

Helela M. wife of Hon. William Elwell, of Sheboygan, Wisconsin, and daughter-in-law of Judge Elwell, died at her home on Sunday morning last. Her illness was long and painful one, but her suffering was borne with calm Christian resignation. She was a woman of a most gentle and lovable disposition, and those whose privilege it was to know her in life, can appreciate what a terrible blow has fallen on her afflicted husband and children.

The recent changes in weather here almost equal the following told by a Nebraska man:

"Talking about the sudden changes of the weather," he says, "let me tell you of an experience we had last fall. At Milford, Seward county, where I live, we were having a religious revival, and I was one of the leading spirits in the work, if I do say it myself. We got about twenty converts, and set a day 'long toward the last of October for a grand baptism in the Big Blue River. It came off according to programme, but just as Elder Smith ducked the Wilder Snell—he weighed about two hundred—I'm an unrepentant sinner if the weather didn't turn cold that very minute, and froze so much ice on the surface of the water that the deacon couldn't lift her out till we got an axe and chopped the ice away."

Window fixtures, spring balance or spring top, lower than ever before, at George A. Clark's.
