To close out certain lines of wedding invitations, a number of bargains are offered at this office. Those wanting small lots, from 10 to 25, will save money by ordering at the COLUMBIAN office.

The price of envelopes has been recently advanced by the manufacturers, but we have in stock 40,000 that will be sold just as low as ever, with your business card printed on the same. Ask for prices.

Buy Lester's Binghamton Kip Boots. Personal. A. B. Tate, of Williamsport, was in town on Monday.

Miss Bessie Jacoby is now employed as a clerk in the postoffice.

Miss Hannah Rubin, of Wilkesbarre, has been visiting friends here.

Mr. and Mrs. Geo. Ringler, of Philadelphia, are visiting relatives in town.

Mrs. C. E. Smith and daughter, Mollie, of Plymouth, Wis., are visiting at Judge Conner's.

Conner Creveling, of Bloomsburg, was a visitor in town over Sunday.—Ashland Advertiser.

Mr. and Mrs. W. K. Pursell, of Bloomsburg, attended the fair last week.—Hughesville Mail.

E. F. Smith has returned home from Bellevue Medical College, New York City, to spend a few weeks, on account of ill health.

Mrs. Walker, Mrs. Ikler, Mrs. Tustin, Mrs. Richardson, and Mrs. Colwell went to Lewisburg on Wednesday to attend a convention of the Women's Christian Temperance Union.

Mr. E. M. Tewksbury of Catawissa attended the centennial of the settlement of Susquehanna county, which was observed on Monday Tuesday and Wednesday of this week. While there he was the guest of an aunt who is 90 years of age.

October has five Sundays. Go to the Columbia County Fair.

Fall house cleaning is now about over. Why didn't the Watsonstown Band play?

The time for a boom in marriage licenses is here. Steam heat is a genuine luxury some of these cool mornings.

Governor Beaver attended the Sullivan County Fair last week.

Partridge hunting season extends from October 1st to January 1st.

The festive cigar holds a place in the mouths of too many of our boys.

Merchants state that an occasional trade dollar still turns up now and then.

Close readers always know what is announced in the advertisement columns.

Phillips stand on the Fair grounds is the place to get oysters, sandwiches, cakes, pies, candy, &c. Be sure to find it.

The public school children are given holidays on Thursday and Friday of this week, so that they can attend the fair.

During the fair all photographing done promptly by the lighting process. Mr. McKellar, Photographer.

Mr. Dennison Brink is building a large hotel stable in the rear of the Central hotel stable. When completed the stable will be 35 by 60 feet.

The execution of the Hoesdale murderer, McCabe, which was to have taken place on the 6th, has been again postponed by the governor until November 10th.

There has been placed in Rawlings' meat market a fine stationary steam engine, to be used for running a meat chopper. It was manufactured by a company at West Point, Pa.

Sheriff Smith took Benjamin and Aaron Nuss to the penitentiary at Philadelphia last week, Thursday. Miles Smith and William Retmeyer accompanied the Sheriff as assistants.

Don't fail to visit J. Salzer's booth at the fair this week. There will be good music and lots of it. No fair would be complete unless Jerry graced it by his presence and his interesting exhibits.

Letters remaining in the post office at Benton for month ending Sept. 30, 1887. E. P. Waite Esq., Mr. Elmer E. Taylor, Colin Allerton, Mr. E. B. Earl.

Both the Benton hotels were crowded during the fair last week. Many hundred people took dinner at each one. Benton has better hotel accommodations than any town of its size in this section of the country.

Those who wish to obtain a good warm meal while at the fair, should go to the dining-rooms, which are taken in charge this year by the ladies of the Episcopal church. All the delicacies of the season will be served.

It is now nearly time to set up stoves and prepare for winter. Have you carefully examined your chimney to see that there are no breaks in it that will allow fire to escape? If not, you had better do so at once.

Have you tried the Oxygen treatment given at the Bloomsburg Sanatorium for catarrh, asthma and chronic cough? Dr. Shattuck says it surpasses all other methods in the prompt relief and cure of throat and lung affections.

It costs more to prepare one bottle of Dr. Shattuck's Rest Cure Specific than five bottles of any patent medicine on the market, and yet it will cure only one dollar. Why not try and see what this excellent prescription will do for you?

Geo. W. Bain has lectured twice before our Annual County Institute to the entire satisfaction of all. I consider him one of the most fluent and gifted lecturers on the American platform.—JACOB W. HARVEY, County Superintendent, Chester county, Pa.

An extra train will be run over the Bloomsburg & Susquehanna railroad during the Bloomsburg fair. It will leave Benton at 9:30, stopping at all intermediate points, reaching Bloomsburg at 10:45. Returning leave Bloomsburg at 4:40 reaching Benton at 5:50.

Not one particle of calomel, gray powder or mercury in any form, nor arsenic or any other kind of poison enters into the formula of Dr. Shattuck's Rest Cure Specific. It is the only cure for kidney and liver diseases, that is harmless under all circumstances.

Mr. C. H. Kline, who is now employed in the Bloomsburg postoffice, and formerly a resident of Lightstreet, and Miss Susie Hicks, of Lightstreet, were united in marriage at the home of the bride's parents by Rev. Mallieu, on Thursday evening, September 23.

The Watsontown Base Ball Club did not make as much noise on the streets last week, Thursday, as they did on the occasion of their first visit. The Bloom boys got away with them so quickly that it took away the breath of the band, and they hadn't enough left to blow with.

Another pop was held in Winona Hall on Wednesday evening, and was attended by a goodly number of young people. The same orchestra, that played at the one last week, furnished the music for this, and also very fine music they made. All present enjoyed themselves exceedingly.

People began to arrive here as early as Monday to attend the fair. The majority were those who have exhibitions and stands on the grounds. If the weather is clear the indications are that there will be thousands here every day, and the fair will have the largest attendance of any ever held here.

At a meeting of the Democratic County Convention, held in the Grand Jury room last Saturday, A. W. Swan, of Centre county, nominated as a candidate for County Surveyor on the Democratic ticket. By an oversight no nomination was made by the County Convention. Mr. Mann is well qualified for the position, and his selection is a good one.

The present month of October is signalized by having two full moons. The recent one was the "harvest moon" which is always the full moon which happens nearest to the autumnal equinox, because it rises from night to night sooner after sunset than any other moon in the year, and hence is favorable for the work of harvesting the late crops.

Street Commissioner Billemeier is having many improvements made on Main street. The lower end of the street has been paved with lime stone spawls from the A. & S. road to the lower end of town and the same work is now going on the street. A new double crossing has been laid at Iron street on the upper side, and the lime stone spawls when worn down will make a fine road.

Mr. J. K. Eyer was quite badly injured at the Benton Fair last Friday. He was walking on the track when a horse belonging to Wm. Hartzel suddenly kicked out behind. Mr. Eyer was very near and dodged, but failed to get completely out of the road, and the horse's hoof struck him on the left arm. The arm was not broken but the bone was injured, which is thought to be almost as bad as a break.

It is your home paper that prints your home news; that says a word of sympathy when you are sorrowful; that speaks a kind word to you; that builds up your town and country; that helps you in all your thousand ways. Of course the town paper is not published full of daily gossip of the city weeklies, but tell us when the outside paper says a good word for you or your town. You should take both when you can afford it; if you can not afford to take them, both your home paper should have the preference.—E.

Dr. E. E. Higbee, Superintendent of Public Instruction, has set apart Friday, October 21st, to be celebrated as Autumn Arbor Day.

An exchange says: "An aged lady passenger on one of the trains of the Catawissa branch of the Reading road, learned her misfortune to drop her artificial teeth. She sought the conductor and informed him of the loss, whereupon the train was stopped, and after backing about a half a mile one of the brakemen found the teeth. It isn't every day that a railway train stops for the brakeman to hunt loose teeth."

The trip over the Bloomsburg & Sullivan railroad Friday evening, between Benton and Bloomsburg, was a fast one. The train was in motion in less than five minutes when it left Benton, and reached Bloomsburg on schedule time, to make connection with D. L. & W. railroad. The train was crowded with people, and many were afraid of the rapid ride, because of the new road. The road is well built, and the ride is certainly a delightful one all the way up to the valley.

Last Friday Ira Kline, a young farmer residing near Shickling, who has been affected with religious monomania for some time, took his gun and started off on the words saying he was going to hunt. His body was found about a mile from his house with the top of his head blown off. He had put the muzzle of his gun under his chin and touched the trigger with his foot. Planned to his coat, was a note saying that he had shot himself because he was without hope for the next world.

Rev. W. W. Evans, D. D., the popular Methodist minister, has been granted a month's leave of absence by his congregation and started Monday morning on a trip through the west, going as far as Kansas, with a probability of extending it as far as Colorado. He is accompanied by his father, a venerable old gentleman 80 years of age, whose residence is at Lewistown. During the reverend's absence, Mr. Evans will spend the time visiting relatives at York.—Phillipsburg, Pa. Journal.

List of letters remaining in the Post Office at Bloomsburg for week ending Oct. 11, 1887. Mr. C. B. Bardy, Mr. A. W. Houtz, Miss Meda McHenry, Dr. C. B. McClure, Miss Ida Smith, Miss Alice Wildrick.

C. A. Becker Esq., Kennedy & Donovan, Kennedy & Donovan, Mr. Wm. DeFrait, Miss Lizzie McDevan.

Persons calling for these letters will please say "advertised."

GEORGE A. CLARK, P. M.

A physician walking through our streets is struck with amazement at the many indications of kidney and liver affections to lead in many cases to that terrible medical profession, "Bright's Disease." Women with sallow complexions, sunken eyes and hollow cheeks, men with lack of energy, bowed backs, restless gaze and weak and unsteady gait, all showing the sad broods of a malady common everywhere, but which can be readily cured by that wonderful alternative salt drug store under the name of Dr. Shattuck's Rest Cure Specific.

E. C. Caswell was driving a grey horse of Antrim's around the track at the fair grounds last Sunday afternoon, when an accident occurred that might have resulted in serious injury to the horse. He struck the horse with the whip and the animal kicking, got its feet fast in a very peculiar manner in the buggy, the right foot being caught in the spring and the left in the front wheel on the left hand side. Several young men were on the grounds, and assisted in loosening the horse from its unpleasant position; he was liberated after much trouble. Fortunately, there was no serious hurt.

The first accident on the Bloomsburg & Sullivan railroad occurred near the Bloomsburg depot Saturday evening. By some oversight at the L. & B. Junction, the switch was left open, and as the first section of the train came in, the engine, tender and one-half of the first car ran off the track, and over the side before the train was stopped. The second engine, soon derailed, and it came in and went to work pulling the first engine back on the track again. About ten o'clock the wrecked train was on the track, and it was found that but little damage had been done.

A meeting of the Board of Trade was held in Winona Hall on Monday evening to consider a proposition for the location of a silk mill in this town. All the scientific, highest grade of excellence, always pure, wholesome and uniform in quality. Each box is exactly like every other, and will retain its powers and produce the same and the highest leveling effect in any climate at any time. The Government Chemists have analyzed all the principal brands in the market, and the results placed the Royal Baking Powder at the head of the list for strength, purity and wholesomeness, and thousands of tests all over the country have further demonstrated the fact that its qualities are, in every respect, unrivaled.

Milton is agitating another railway project for bridging together more closely the regions of the North and West Branch rivers. The Daily Argus says Milton will be the starting point, and the route contemplated will be from Milton, out Pleasant Valley to Limestoneville, Washingtonville, Jerseytown, Millville, Rohrburg, Sullivanville, Cambria, Harveysville and from thence either to Shickling or Nanticoke. The matter will probably be pushed and work begun at an early date.

Watonsburg vs. Bloomsburg. THE SECOND GAME RESULTS IN THE COMPLETE DEFEAT OF WATONSBURG.

Thursday afternoon of last week the second game of base-ball between the Bloomsburg and Watonsburg ball clubs was played at Athletic Park, and the latter were completely routed. An ordinary crowd was present, but not as much interest was manifested as would have been if the game had not been such a one-sided one. We remarked at the time of the other game, when the home club was so badly beaten, that they could beat the Watonsburgers if they played their usual game, and we think it has been fully demonstrated that they can do so, although the Watonsburgers are anxious, or seem to be, to play them again for stakes, at any other ground than those here. What is the trouble with our grounds we have been unable to ascertain.

Our boys are very much elated over being able to bring a big fellow from two to three feet long, as quick as a dog could catch a pig. There is plenty of coal here and the trains are made up here. The receipts at this station are about twelve thousand a month; my nephew is the agent. It is 35 miles from the Sound. You can see Tatousburg mountain, about 30 miles to the south, with a snow cap top the year around. It is 14,400 feet high. My nephew has fine apples and nice yellow plums, fully as large as a common hen's egg. They are just grand. The climate is just what they have the finest kind of cars, sleeping and dining car, meals, 75 cents, and can't be beat. About 10 o'clock on the other day while at dinner I ordered a bottle of California wine for my brother and myself. It was brought at once. The waiter asked me if I could give a glass of but for me. "Oh yes, bring me anything else I like." It was on hand at once. I took a glass of it, and visited several of the boys. About 10 o'clock I found my son, who is engaged with a party of engineers, some 35 miles south of the main line of the Northern Pacific at or 23 miles beyond Cour de Leon City, and beyond Cour de Leon Mountain and beyond Fourth of July Lake. Here I met a young boy and got him to go out that night. He had a horse and a dog, took the job and brought him in the next morning at eight o'clock, both mounted on fine ponies. At three o'clock he left me for his camp. He is looking well and in the employment of the Northern Pacific railroad laying out branch roads. At Fond du Lac, Wis., Fort Shumna is erected, and Government troops stationed there. A beautiful sheet of water, lake, forty miles long, and has steam boats on it. The boats make daily trips on the lake and river of length 35 feet in width. She was a mile west of St. Paul. I am now just out of the lake, but the Spokane and Inland Reservation. I was over on it. There are gold mines in this vicinity and I saw carloads of gold dust in common sacks about as large as a ham sack. They are very heavy shipped to Salt Lake sometimes. This is just beyond the Rocky and 1500 miles west of St. Paul. I am now just 3150 miles west of home. I am not in the least tired and am feeling very well. It is now five o'clock p. m. and eight o'clock at your home, almost my bed time at home. We intend to go in a day or two out to the Sound, and take the steam boat for Seattle and other points on the Sound. I really don't know just when I am going to leave. We talk of returning by the way of California and Omaha, but we have not decided as to that yet. My brother, from Green Lake, was coming with me and I left my daughter, Anna, at Cold Water, Mich., with her sister, Mrs. Q. S. Walcott.

Letter from Hudson Owen.

Through the kindness of Mr. H. D. Quick we print the following letter from Mr. Hudson Owen, of Berwick, whose many friends will be glad to hear from him. Mr. Owen is taking an extended trip in the West.

MALDEN, Washington Territory, Sept. 28, 1887.

I arrived here Saturday, 24th. It is a fine warm day. I am now at my brother's. The place lies in a beautiful valley, surrounded by low hills with gradual slopes, and as soon as you leave the prairie you get to the finest timber country. He has measured some trees that are 28 feet around the trunk 4 feet from the ground, and not a single limb for more than 100 feet; straight as an arrow, and solid from top to bottom. The soil is very rich. My brother has the biggest part of the prairie and considerable timber land. He has 48 acres in one field, with a fine fence around it, all out with timothy this season. Being rather dry, he only cut 125 tons of hay. That is ready sale at \$20 per ton. What he has already sold he got \$25 per ton. At his door stands a soft maple tree, a leaf off of it 14 inches across in any way. There are lots of those yellow salmons in South creek. They are fine, in size from one to three feet. It is fun to see them go up the rifts. If you were here I could show fifty in five minutes. My brother's dog will plunge in on the rifts and bring a big fellow from two to three feet long, as quick as a dog could catch a pig. There is plenty of coal here and the trains are made up here. The receipts at this station are about twelve thousand a month; my nephew is the agent. It is 35 miles from the Sound. We intend to go in a day or two out to the Sound, and take the steam boat for Seattle and other points on the Sound. I really don't know just when I am going to leave. We talk of returning by the way of California and Omaha, but we have not decided as to that yet. My brother, from Green Lake, was coming with me and I left my daughter, Anna, at Cold Water, Mich., with her sister, Mrs. Q. S. Walcott.
