The uniforms is of blue, elaborately trimmed with gold cord, and white helmets. The drum major's suit is of red, with bear skin helmet of immense proportions. THE BLOOD FAIR.

THE LABORER ATTENDANT IN HIS HISTORY.

The Thirty-third Annual Fair of the Columbia County Horticultural and Mechanical Association was held last week, beginning on Wednesday and closing Saturday. On Friday it is estimated that 10,000 people were on the grounds. It was a moving, living mass of humanity everywhere, and policemen had to be stationed in the Exhibition building to keep the crowd moving in one direction. At one time there was such a crush that clothes were torn, but no other injury done. On both Friday and Saturday there was a rush for the grand stand to see the races, and it was more by good luck than good management that many people were not injured in the jam.

On the eastern side of the grounds near the Judge's stand was one of the largest exhibitions of agricultural implements and machinery that has ever been seen at the Columbia County Fair. Extending at least half way across the grounds was to be seen a line of reapers, threshers, plows, binders, farm wagons, and everything useful in the occupation of farming.

At the end of the long line Herring & Savage of Orangeville had an exhibition a thrasher and separator operated by an engine. Near by J. M. Hulshizer of Light-street exhibited a thrasher and separator run by tread power.

Levi Cox showed a hinge and roller gate on his invention.

John Deere's sons, Danville exhibited Crown drills and fertilizers, manufactured by the Crown Mfg. Co., also plows by the Clippel Chilled Plow Mfg. Co., N. Y., cornshellers, &c.

The Hamburg Plow Works had on exhibition plows and plowshares of all descriptions. The most handsomely decorated with flags, they exhibited a plow beautifully painted in landscapes, which was much admired by all who saw it.

The Geiser Mfg. Co. exhibited a Peerless traction engine in operation, which drew crowds around it every day during the week.

The American Road Machine Co. exhibited a Champion road machine.

Corn cultivators, rakes, fertilizers, &c., were exhibited by P. P. Mast & Co., Springfield, O.

Wagons were exhibited by the following: John Eves had on exhibition the Millville wagon, H. V. White & Co. the O'Brien wagon, the Stockwell wagon, exhibited several, and the E. A. Clapp Wagon Co. the Auburn wagon. A fine two-seated carriage was shown by Geo. Stricker of Catawissa.

Clarence Clark & Co. exhibited under a gooselized tent, gaily decorated with flags, different varieties of bone fertilizers. White, Conner & Sloan had on exhibition a fine lot of their manufactures which attracted much attention. They exhibited an improved thrasher, thrasher and cleaner, lay rake and tedder, grain drill and riding cultivator and corn planter.

Salzer's machinery, the second and third, were also exhibited. Above there were binders, threshers, mowers, cultivators and plows exhibited by firms from different parts of the country.

A good nurse should not hesitate to wait upon those ill with such diseases as smallpox, scarlet fever, &c. There is little to be feared by persons waiting on the sick if they will use Darty's Prophylactic Fluid freely. In sick rooms it should be exposed on a plate or saucer, and the patient sprayed off with the Fluid diluted. For safety, cleanliness and comfort in the sick room the Fluid is indispensable.

FAIR NOTES.

The ladies of the Episcopal church fed over 600 people at the dining hall on Friday.

The dining hall is too small. It should be doubled in size, and a kitchen put at both ends.

Better grand stand accommodations should be provided. Twice as many seats could be fitted easily. The accommodations must increase with the constantly increasing attendance.

The Bloom fair is conspicuous in the absence of gamblers and swindling shows. There were but few fakirs on the grounds and no games of chance.

A big German carp from fish ponds in Locust township attracted much attention.

The Bloom band furnished music for the fair. Besides them, the Nanticoke Band, Danville Band, Stout's Band, Shokshinsky Band and Wanamaker Band were in attendance on different days.

Better weather could not have been asked for the fair. Although Friday afternoon it was rather cold, Thursday and Saturday were both beautiful days.

Main street was filled to overflowing with people every evening during the fair. The hotels were taxed to their utmost capacity to accommodate the large numbers.

The usual number of beggars were here last week, and in different ways attempted to touch the hearts and reach the pocket-books of visitors at the fair. An old woman grinding a hand-gong was to be seen at the fair every day and on our streets every evening. She reaped a rich harvest of pennies.

Every morning train into Bloomsburg on Thursday, Friday and Saturday brought large crowds of people into town. Trains were run on the R. & S. road with as many as twelve and fifteen cars, and the B. & S. ran good-sized trains. The evening trains were also crowded. Every evening the platform at the D. L. & W. depot was crowded from one end to the other with people waiting for the train.

Every afternoon the race track was crowded with people, anxious to get into the grand stand and anxious to see the races. If the grand stand were enlarged this would be remedied.

The arch over the main wagon gate is a great improvement.

The usual number of "Cheap Johns" were on the grounds, and did a rushing business.

Blitz, the dime showman, was on the grounds and had a stand in the main building at which he sold a species of California grass. He did a good business.

Saturday afternoon between heats the gray horse Hopeful, belonging to Mr. John Hunt, was brought on the track and trotted an exhibition half-mile. The horse is twenty-one years old and has won \$80,000; he has a record of 2:14 and the best record to wagon of any horse in the world.

Our Daily Bread. Heavy and sour bread or biscuit has a bad effect on the digestive organs upon the measure of
